## Check Your Horoscopes

Kelly Jo Lieberman  
Capital Times Staff

**Scorpio** [the scorpion](Oct 24 - Nov 21) Watch out for those poisonous looks you think are good for you. Someone you least expect might be plotting against you. Although, the flowers do bloom in the desert when it rains.

**Sagittarius** [the archer](Nov 22 - Dec 21) Don't let someone else shoot your stars down; instead, aim your goals higher and you will achieve them. Your luck is high this month. Lucky numbers are 1 billion and 2 billion.

**Capricorn** [the goat](Dec 22 - Jan 19) Be adventurous next weekend. Rock climbing or glacier skiing could be very rewarding. Start at the top and work your way down slowly until you reach maximum pleasure. However, be on the lookout for whatever pops up, like an avalanche!

**Aquarius** [water bearers](Jan 20 - Feb 18) Don't be such a drip! The season is over for throwing water balloons off balconies at the dorms. Don't let rainy days bring your spirits down. Get out to those parties and have a blast. A Pisces person may be involved.

**Pisces** [the fishes](Feb 19 - Mar 20) You need a vacation! But stay away from the beach next week, she is no good for you. Distance is preferred; the farther away the better. Highlight days are the 24th and 25th. Bring along some friends and grapefruit.

**Aries** [the ram](Mar 21 - Apr 19) Do not fight with a member of the opposite sex, especially a Taurus, on the 18th and 19th; you will not win. Focus on Love, Romance and adventure. Traditional

style is stressed. You will not get the response you want from stemming away from the normal.

**Taurus** [the bull](Apr 20 - May 20) Hey you studs and heifers, the best days to play out in the field are the 30th and the 1st. Be daring and wear that florescent outfit the chickens were too picky to wear. It's a good time to make that moovoo you've been waiting for.

**Gemini** [the twins](May 21 - June 21) see the other Gemini ( your clone, better half, ball and chain, or even the double mint twins)

**Cancer** [the crab](June 22 - July 22) You crab! Protection is the best bet to good health and keeping that smile on your face. Variety adds some excitement in your life. Try the dessert with the whipped cream toppings before you dive into the main meal.

**Leo** [the lion](July 23 - Aug 22) You are enthusiastic and spirited this month. Do not be a cowardly lion. Get that tail out from between your legs and come out of the den to help support your fellow lions. Your roar is more powerful than you may think.

**Virgo** [the virgin](Aug 23 - Sept 22) You'll get over what has been troubling you lately. Things are tight this month. Keep in mind you are a poor college student. Budget your money wisely. Good times do lay ahead. Do not lose sight of moral values.

**Libra** [the scale](Sept 23 - Oct 23) Balance your plate as well as your time. Take caution on the 22nd in order to retain that devine figure. Keep in mind that this holiday is only a warm-up for the real stocking stuffer.
