Cleveland Ballet Dancing Wheels To Perform In Gallery Lounge

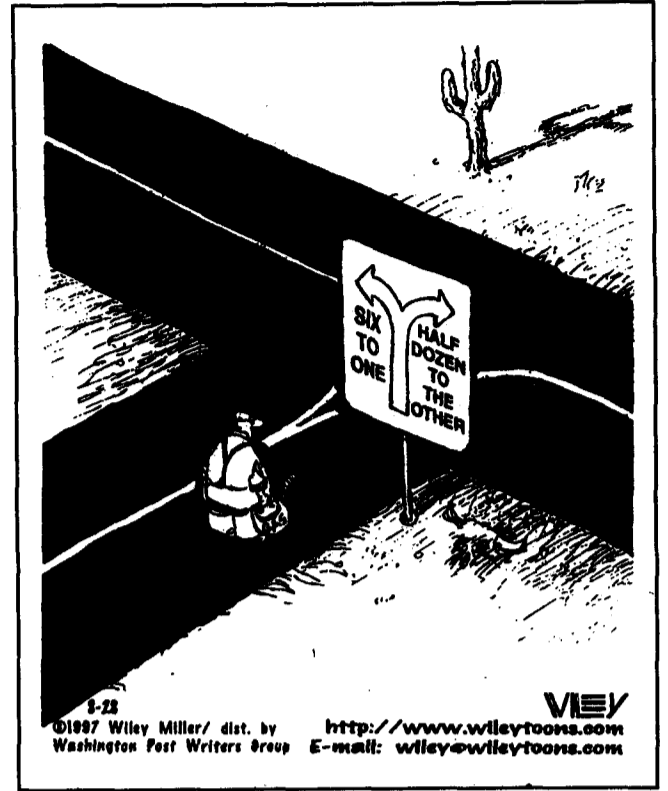

Dance is a true expression of the human spirit that is alive in each of us. To experience Cleveland Ballet Dancing Wheels is to celebrate the spirit of dance.

Founded in 1980 by Mary Verdi-Fletcher, Dancing Wheels is a professional, integrated dance company comprised of dancers with and without disabilities. This lecture/performance celebrates the diversity of dance while highlighting the unique abilities of the dancers.

Featuring three dancers (two able-bodied and one dancer with a disability) the program offers several dance pieces from the national tour repertoire, disability/accessibility information, and narration.

The college-wide community is welcome to attend this inspiring, entertaining and educational performance on Tuesday October 27, 1997 at noon in the Capital Union Building.
