## Where is Yemen?

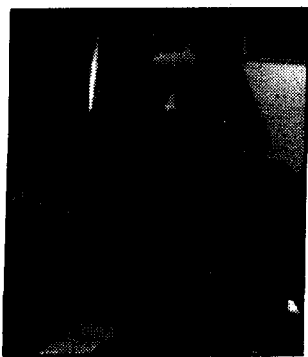

**Eric Roden**

It's near Saudi Arabia. It's right on the end of the Persian gulf, next to Oman.

**Rahel Assefa**

In the Middle East. My country, Ethiopia, is a mixture of Turkish, Yemen, Israeli, and all kinds of people. I have a lot of friends and family from Yemen.

**Kelly Wilson**

I have no idea...Africa, I would think.

**Jayme Smith**

Is this some kind of Jay Leno thing where you are trying to see what everybody knows? Why can't you ask the ones like he asks that I always know the answers to? Asia, somewhere in Asia.

**Jordan Merkel**

That is an excellent question. That's like saying where is Guam. I believe Yemen is actually over in India or Pakistan, that area. But other than that, I can't tell you. My geography is not that good.

**Donald Banks**

It's a Middle Eastern delicacy.
