

“  
*Do you like the idea of having a fall break?*”

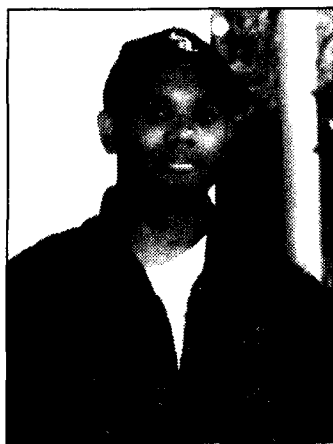

**Rick Rimel**  
Electrical Engineering

Yes, I do like the idea of having a fall break. I look forward to the break so I can catch up on events with my family and friends back home. I also view the break as 4 days that I can have my mom cook for me.

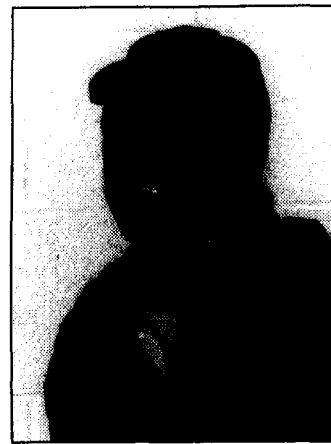

**Brad Grissinger**  
Communications

I don't think starting that fall semester a week early in exchange for two days of a 'fall break' is a fair deal. I'd rather have the extra week of summer vacation.

**Kyree Wero-Hartley**  
Computer Science

Yes. More time off? Did you even have to ask? I'm a Computer Science major so I could use the time to catch up to my classes.

**Serena Silverman**  
Humanities Business

Of course! But I think it's pretty ridiculous to make us start two days earlier in August.

**John Ersoz**  
Information Systems

The point of having a fall break is to have a break. Making up the days at the end of the semester defeats the purpose.
