

Up the Warhol stream of consc with a twisted sense of artist

Mitch gives Mao Tse-tung

OK, this is Mao Tse Tung as a drawing and his face is a single purple dot, but his hair and collar are outside and there is overlaid on Tomato Soup and these different drawings.

OOh and a very nice painting in orange and black. It's a nice off-set in yellow green and blue. There's a picture of Warhol in Tiennaman Square. So he actually went up there, amazing. Nice photos, they made quite a few photos while he was there.

Okay, this wallpaper and pictures that I was describing "Mao" 1978 screen prints on paper, pencil on paper "Mao" '73 , another one '73 Ink on synthetic polymer paint on canvas. '73 '72 '73. There are three of these. These are pretty cool. very painterly.

Ohhh and just a series of these a whole room of nothing but Mao pictures. This is just amazing. Like blue with green background; brown; dark blue with a brown lip; pink lips on a pink background with a light blue face and a yellow shirt.

Here's a nice legacy 1980. "Andy Warhol changed our attitudes toward art and artists in an unprecedented and indelible ways. During the 1950's, when Warhol was one of the most celebrated graphic designers in New York City, artists were not widely considered as being engaged in a serious profession.

In the course of his forty-year career which took him from: commercial artist to radical innovator; film maker to portrait painter; shy observer to international celebrity.

For death is omnipresent, appearing when one least expects it. Death's still life painting placed realistically rendered skulls, jaw-

bones and teeth missing, in the midst of luxurious displays of expensive silver and luscious fruit to lead one wondering about the transience of the sensual world.

Shy poke We are on the Fifth Floor. This is the early years. We walked in and we have wallpaper it's a puke green, lime green with pink cow heads. It's just amazing wallpaper!

It's like three faces totally off-set from each other like something you might see on a movie now. Like somebody, one entity trying to merge with another. Moving back and forth. Just facinating!

And here's one that's like looking in three directions at once. It's almost an expansion of time. "Self Portrait India Localdom" So he's looking in all directions. I guess it kind've speaks to... The guys that painted the... It was just after cubism, who took it to the level of trying to depict movement through time, This is definitely that type of effect.

Hangin' it out with Andy

The story is here's the snake Benjamin Goldwyn presents. The Autobiography of a Snake called Noah the Boa, a USP (United Snake Protection) .

Quick Sketches. This is veryquick, loose, just a few lines. There's his and hers apple bikes with a worm in the middle. Oh, how symbolic! That's great. That's funny. We have Cleopatra with her snake. Eyebrows on the snake. He's got eyebrows and a happy face and that tongue out for Cleopatra's breast it looks like. We have a snake looking up the skirts of ladies which

is an enviable place to be I suppose! I don't know, but the legs are just nice shapes. Quick single pencil stroke kind've things. They're just excellent! And "A Lady Screams" and "A Snake on a Teacart".

We have people with fig leaves dancing with flags Oh yeah, that's like the Statue of Liberty being held up by a man in a fig leaf. There's the snake underneath the fig leaf! . . . not exactly, well beneath the fig leaves. There's a woman in a straight jacket surrounded by snakes.

Aw there's a sad snake. Aw and he was like straight and erased and made crooked. Interesting!

And here's one marked off in inches and we have 36 inches. That's quite the snake!

Teddy and Arthur in pajamas of snakeskin is this to be a photo or a drawing, ok? Big huge buttons on that lady's gown. Just amazing! and the snake is draped over the bed in the background. The snake as a high heeled shoe in a wrapped kind of fashion, holding a bow in

its mouth... a boa in its mouth. There we have two snakes, one each wrapped around a boot. Jackie's boot!

Somebody at the White House it looks like. Yeah, Jacquelyn Kennedy. Yeah she became Onassis, Right.

With JFK on the block and President on the bottom of a ?????? . He had to earn his way into that didn't he? The snake head as a chair.

There's the snake on an arm as jewelry. And Noah as a Blues sax player . . .
