'Tis the season and time for the first wave of holiday movies, which started with *Santa Clause 2* on November 1<sup>st</sup>. This light-hearted family flick was off to a slow start, reintroducing the audience to a cast that has aged a good 8 years since the first movie. Charlie, Santa's son, has a problem with his "PC" principal who believe that money shouldn't be wasted on Christmas decorations since not all the children celebrate the holiday. This difference of opinion of the importance of the holiday leads Charlie to spraypaint the school gym, which the principal busts him for and lands him on Santa's "naughty" list. This causes all sorts of problems at the pole. To top off Santa's woes, he is informed of a section of the "Santa clause" which landed him the position in the first place. Santa has until midnight Christmas morning to find himself a Mrs. Clause or he will go back to normal and lose all his magic.

With cameos from the Tooth Fairy (who is male, who would have thought), Father Time, Mother Nature, the Easter Bunny and the sand man, children are in for a comical look at how people can work together to help a friend. Though, the seriousness of the plot can be a bit over a child's head, it may appeal to the more mature members of the audience. Audience members alike will love the introduction of a Rudolph-like reindeer in training and the Santa clone, along with watching football matches between Santa and his elves.

All in all it was a fairly enjoyable movie, especially for a sequel. It is no match for the first one but still had its moments that had me cracking up. Lets just hope there isn't a *Santa Clause 3*, who knows what Santa will have to do then to keep the suit.

\* DON'T WASTE YOUR TIME

Forming out of the ashes of the ska bands 'Edna's Goldfish' and Step Lively," The Reunion Show's debut album sounds nothing like their previous endeavors. "Kill Your Television" is packed from beginning to end with tunes that'll make the girls cry and the boys rawk. I highly recommend this album to anyone who is into any type of rock. It's very pleasing to the ears, and the songs will get stuck in your head, and no matter how hard you try, you can't get 'em out.
