Dinosaur Cryptogram Puzzles

Directions:

Cryptogram puzzles are sentences or paragraphs that are encrypted with a letter substitution. In this case each cryptogram puzzle is related to medieval times. Each puzzle uses a different letter substitution encryption. An example of a letter substitution encryption may be like this: The word DINOSAUR could be encoded to XPQALCWZ if D=X, I=P, N=Q, etc... Find the right letter substitutions to solve these printable cryptogram puzzles.
