"THE LIFE OF THE FLESH IS IN THE BLOOD," was said by inspiration long before Harvey's discovery of its cir-culation had brought to light its purposes and uses. Now we know not only that "life. Is in the blood," but that disease inhabits it also. Many of the discoders that per-vade the human frame have their home in it, thrive and grow in it. The celebrated Dr. J. C. Ayer, of Lowell, has had regard to the important fact in making a Remedy to cure these disorders. His Extract of Sarsaparilla to cure these disorders. His Extract of Sarsaparill Are the Northern Working Classes Likely to tarve?—A general belief prevails at the South that healthy action in it that expels disease. This looks reasonable, and it is true, for we know by our own expe-rience. Seldom as we take any medicine, we have nevertheless several times been under obligations to the kill of Dr. Ayer for the relief which his remedies never sil to afford ns when we are obliged to have recourse a them.—*Catholic*, *Halifax*, N. They are solely an assistant of nature, —nothing more, nothing less. They do not force; they merely assist; and herein is their great value.
