Union in New South Wales.—The Conference on Presbyterian Union, composed of delegates from the Synods of the Established, Free, and United Churches of New South Wales, met at Sydney, Nov. 6th, 10th and 11th of last year, and agreed unanimously upon a basis of union. Each Synod is to withdraw from its Scottish connection, and the united body will constitute an independent church of the province. The basis of union is a declaration of attachment to the recognized standards of the Presbyterian Church, and the following explanatory declaration on the power and duty of the civil magistrate on matters of religion: "the officebearers of this church, in subscribing these standany views in reference to the power and duty of the civil magistrate, inconsistent with the spiritual prevailed when the conference adjourned.

The lower house of the Convocation of Canterbury having requested the upper house to pay some attention to Colenso's book, the Bishop of St. David's offered a resolution virtually dismissing the subject. The Bishop of London agreed with this mode of disposing of the subject. James Key, the Pastor of the British and American Church at Alexandroffsky, near St. Petersburg, has retired on account of his wife's nealth from his position in Russia, and recently returned to his native country. ----In the result of a council convened in Granby, Feb. 24th, composed of eyen neighboring churches, and called for the dismission of Rev. Missionary.—The same spirit of sectarian rivaly which projected the recent ecclesiastical "raid" of an English Bishop and his associate upon the narrow and fully occupied field of the American Board in the Sandwich Islands, is at work in regard o Madagascar. Sometime afterwards, however, it was understood that efforts were making to form a society, under the highest ecclesiastical patronage, specially with the design of sending out a bishop and six missionary clergymen to Madagascar. It was proposed, not that the agents of the intended nstitution should occupy those populous districts which lie on the coast, or in the interior remote from the capitol, but that they should make the capitol itself the centre and basis of their operations. The London Society has protested against ards, are not to be held as countenancing any per- this needless demonstration of sectarian spirit, as in secuting or intolerant principles, or as professing direct opposition to that good understanding and catholic spirit which have been invariably maintained by the Protestant missionary institutions, both independence of the church, and the right of private of Britain and all other countries. Hilton Head.—Active operations against Chareston seems to be delayed by the misunderstanding between General Hunter and Foster. Gen. Foster left for the North some time ago. Gen. All the negro troops in that department embarked on an expedition to Florida, March 8th. No white force went with them. Col. Higginson is in command as acting Brigadier. All of these parties give fearful stateents of the destitution w States. An order had been filed in the Provisiona Court for the confiscation of Slidell's property in New Orleans.

Naval.—By advices from Port Royal to March 8th, all the Monitors were at that port in good con dition; a torpedo had exploded under the Montank without injuring her, though it lifted her a foot out of water. They could not get near enough to Fort McAllister to dismantle it. An English steamer-blockade runner-was ashore near Charleston. The Quaker City captured the English steamer Douro, with 429 bales of cotton, off Cape Fear. The Schooner Belle, from Nassau, with coffee and salt, was recently captured by the Potomska. - The Iron-clads in an Engagement,-The late engagements at Fort McAllister have fully tested the invulnerability of the iron-clad fleet. They made four attacks upon the fort, using it as a target, and to test the strength of the vessels. The Legislature of Delaware—the majority being composed of material who delight in being epresented in Congress by such men as Senator Salisbury, naturally enough undertook to abridge the authority of the Government and cripple its ability to deal with traitors in the State by an act of virtual nullification, They passed a law a few weeks ago, making it a penal offence for any person to assist the United States authorities in making military arrests within the State. In the good providence of God however, a thoroughly loyal and brave man was elected Governor at the same time with the legislature, and though he does not prosess the power of the veto, he can pardon; and he has since the passage of the bill sent a message to the Legislature, declaring it to be his duty "to take care that the State shall not be made the refuge of foreign traitors or domestic conspirators." He also says: The Governor has a general control over the operation of criminal enactments, and such control I will exercise to its uttermost extent to protect any person acting under the authority of the President of the United States, or any citizen aiding such person in bringing to light any conspiracy, or in arresting any one guilty of disloyal prac-

The Great Gold Panic of two weeks ago in New York City, when in consequence of the legislation in Congress the premium fell 22 per cent., from 72 to 50, is thus described in the Independent. Hotchkin, formerly of this place, has been promoted to Chief Surgeon of the Cavalry Brigade to which his regiment is attached. This is a high recognition of the Doctor's merit, and those who know him best will admit of its just accord. It is his second promotion since entering the service as assistant Surgeon, first to Regimental Surgeon, and now to chief of the Brigade.
