Correspondence with German Reformed Church.—Upon the action of our General Synod, proposing to reopen correspondence with the Synod of the German Reformed Church by delegate, we notified Dr. Fisher, editor of German Reformed Messenger, of the same. The following note has been received. be equally so to the Church generally. Although we sometimes feel a little sore, when we look back the rebel boast of having actually buried 600 of our to the past, yet there is a general disposition to bury all that is unpleasant in oblivion, and to cultivate more friendly relations for the future. I shall do all Gilmore says: more inenally relations for the future. I shall do all I I can in a proper way to extend and perpetuate the good feeling which is evidently beginning to prevail. "Our paper has been interrupted for a week, but I trust it will be able now to go on again. "Yours truly, SAMUEL R. FISHER."

The Lord's Table.—It is related of the Duke of Wellington, that once when he remained to take the sacrament at his parish church, a very poor old man had gone up the opposite aisle, and reaching the communion table, knelt down close to the side of Unofficial reports say the negroes have been sold communion table, knelt down close to the side of the Duke: some one-a pew-opener probably-came and touched the poor man on the shoulder, and whispered to him to move further away, or to rise and wait, until the Duke had received the bread and

A Mohammedan Priest on Colenso.-There is a paper published in the Turkish language at Stamboul. n one of the last numbers there is an amusing letter from a mollah, dated from the Cape of Good Hope. The worthy Mussulman reviews the manners and customs of the Christians in that colony, and specially alludes to the religious dissensions among them. Their priests, he says, all advocate different creeds, and as to their bishops. "one Colenso actually writes books against his own religion !"

A Giving Bishop .- The Bishop of London has set on foot a subscription to raise a million sterling, or five millions of dollars, in ten years, to relieve the spiritual destitutions of his diocese. The Bishop offers to give £20,000 of the sum required, £2,000 annually for ten years.

Sabbath in Edinburgh.—We see it stated in our late foreign papers that the somewhat notorious Mr. Gregory recently moved (in the House of Commons) tary grants. Among other arguments in support of the motion, he urged the success that had attended the experiment elsewhere. The Lord-Advocate oppointed out distinctions between the cases of the majority of the clergy of Scotland opposed the pro-posal, but he did not believe that they represented the intelligent opinion of the laity. The resolution was supported by Mr. G. Duff, and opposed by Mr. Black and Mr. Kinnaird. Mr. Mure likewise op-posed the motion, concurring with the Lord-Advocate itst the areat motion of a public opinion of the late opinion opinion of the late opinion opinion of the late opinion of the late opinion opinion of the late opinion opinion of the late opinion of the late opinion without very powerful reasons. "Do not shot at sight. There is but one opinion with regard to the treatment our wounded received in Charleston. It was cruel, shameful, barbarous. Nearly every sentiment of humanity seems to have departed from these South Carolina wretches. The slightest gun-shot wound which our army surgeons would have soon healed, immediately suggested to these pro-fessional butchers the knife, the saw, amputation, and, in this climate, death. By advices from Charleston, July 26, we learn that the siege of Fort Wagner still continued. Gen. Gilmore had succeeded in erect-ing a battery of heavy siege guns within 1,000 yards of Fort Wagner. From Rebel Sources.-The correspondent of The Mobile Advertiser, in Bragg's army thus speaks of the retreat of the rebels on Chattanooga: Our sufferings have been awful beyond description. For seven consecutive days and nights we had wet feet and wet shoes, which were not once dry during an entire week. Our clothes too were wet all the time. The roads were horrible. Without sleep, without adequate food, often without water, we marched, worked, stood in line of battle, in mud and water, stood guard all the night, and suffered for thirteen days all that humanity can suffer in the flesh. THE FALL SESSION Will commence the 9th of September, 1863, and con-tinue five months. Special means are used to promote the health, as well as the men-tal, moral, and religious education of the pupils. The teachers have been engaged in instructing youth many years, and believe that bet-ter advantages for improvement cannot be secured by any who wish to give their sons or daughters a thorough education. The two pe-culiar features of this Institute are health as a primary object, and instruction by Lectures.

This was refused by Mr. Lincoln, and the question as to the burden of his errand has been to the other of the burden of his errand has been to the protection. Near Murfreesboro, twenty black team-ters in the employ of the Government were captured on the public mind ever since. A plausible conjection in the employ of the Government were captured the public initial over since. In plausible conjec-ture has been that he designed to remonstrate with our government on the arming of the negroes, and to threaten retaliation by arming their own slaves against us. "Out of these 4,000,000, at least 750,000 able-bodied Hows, loving and trusting their masters, and ready to follow them up to the mouths of your cannon (ahl do not continue to befool yourself on that question of ties,) can be enrolled, armed, drilled in three mouths. They can be officered in every grade by their own masters, those who have seen most service and won most honor."

It remains to be seen to what desperate straits the rebel authorities will be driven by the tremendous Exigency in their affairs. It is difficult to believe that by the Government. There has been no declaration they will do for the black man, what, in its results, of a purpose to protect them. posed the motion, concurring with the Lord-Advocate that the great preponderance of public opinion in Scotland was against the measure, and that there was no necessity for it. Major Hamilton testified that the feeling of the people in Edinburgh, high and low, was against the opening of the gardens on Sab-baths. Lord Palmerston said although he could see has military officers are commanded to aid the consti-tuted authorities of the State in the support of the laws and the purity of suffrage. The legally apno harm, but good, in the measure proposed by Mr. Gregory, there was another consideration which sponsible that no disloyal person be allowed to vote, sincere, and honest feeling of the people of Scotland to which they ought not, he thought, do violence them its utmost support.

Treatment of Negroes in our Army by the Rebels.-Jeff. Davis' proclamation of last December Advocate had shown that there was no necessity for threatened slavery or death' to all negroes taken in arms under the national flag, and death to the officers commanding them. It is not believed that the threat has been executed against the officers, but a long list of atrocities against the negro soldiers and others of the race in various ways connected with the Government, can already be made out. We quote from There have been two recent sensations on public a contemporary, and with him believe the time is matters worth putting on record, though the basis of fully come for our government to interfere decisively fact underlying them is not believed to be very large if it does not wish to incur suspicion of taking inade

In a word, the threat of Jefferson Davis's Proclamation, issued last December, has been executed in every instance in which the Rebels have fought against negro troops, or in which they have been able to kidnap free blacks-soldiers or otherwise. For almost a year they have flogged, sold into slavery, shot, bayoneted, hanged and burned the black soldiers whom the Government calls into its service, who fight under the National Flag for the defence of the imperilled Republic, but who are neither protected nor avenged

berty street, N. Y., are supplying their Patent Steel Composition Bells at prices which place them within the reach of the smallest country congregations. For example, a five hundred pound Steel Composition Bell, with all the mountings, costs only \$100, or less than half the sum asked for one of the same calibre made of the usual material. In tone and durability they cannot be surpassed, indeed the patent alloy used by the Company is considered by scientific men a decided improvement upon the ordinary bell metal, the volume of sound from a given weight being greater. The churches where the Steel Composition ells are in use, and to whom the manufacturers refer in their advertisement, uniformly testify to their excellence, and we think there is no hazard in saying that they are equal to any of like size to be found in the country. Certainly no Bells at any of our ferries emit sounds more clear and sonorous than those at the Jersey City and Union Co. ferry stations in this city, both of which are furnished from the foundry of the American Bell Company. The price of the patent steel composition is only 15c. per pound, or less than half that of "bell metal," and we presume there is no church in the land too poor to af-ford a good Bell when it can be obtained for so small a sum as \$100. The Company's Bells are all warranted

A Correspondent of the Siecle Paris, the government organ France writes from Tunis, Algiers, as follows:— of "Our College philosophers at home may, and probably do accom-plish a great deal for the cause of science, but the Americans are the people to turn these discoveries to practice la account. Many of the modern inventions in use here are American, and one American chemist, Dr. J. C. Ayer of Lovell, supples much of the medicine con-sumed in this country. His Oherry Fectoral, Pills, Saresaparilla and Ague Cure constitute the staple remedies here, because they are of the people. While the science of Medicine is carried to a higher perfection in our own country (France) than any other, it strikes a Fronchman as a little singular that an American Physician should furnish the medical skill and remedies for our Principal Province.
