While Sumpter stood unharmed, and could command the position, it would have availed little for us to have occupied those forts; but that obstacle being virtually re-moved, they are of immense value. The rebel reports, by which we first were made acquainted with the been duly presented to the Board, and disallowed, facts, are as follows :

CHARLESTON, Sept. 6.—The bombardment was kept up without intermission all day yesterday, and far into the night. About 150 of our men were killed and wounded in Batteries Wagner and Gregg. The attempt to assault Gregg was repulsed before the enemy had completed their landing. Great

boats by our grape and cannister. At dark, on Wednesday evening, the enemy having advanced their sappers up to the very moat of Wagner, and it being impossible to hold the island longer, General Beauregard ordered the evacuation, which was executed between 8 P. M., and 1 A. M., with success. We spiked the guns of Wagner, and Gregg, and withdrew noiselessly, in forty barges. Only one barge, containing twelve men was captured. He miles, the public have been puzzled to understand also destroyed a saltpetre works and a rebel camp, the apparent self-control of Gen. Gillmore in suspend- | with a large amount of stores, arms and equipments that operation, so satisfactory to the loyal North. It is said that the muzzle of his 300 pound Parrot was broken off, and no other gun would achieve the marvellous feat. A correspondent of the Boston demonstrations upon Chattanooga above and below. Journal savs :

The reason why Gen. Gillmore did not continue his bombardment of Charleston with the "Greek fire" shells, was because the shells sent were ignited on the percussion principle, and being discharged from a gun elevated at an angle of thirty-eight degrees, took their flight at the same augle, with a longitudi-near Trantor Ga. Sent at nal rotary motion, base downward, and therefore struck base downward instead of upon the percussion end, and did not explode. Only two are known to have exploded—one which fell into a warehouse and another which fell in a street. Time fuses which object will set matters all right, were at once sent for, and have doubtless arrived at Morris Island before this, and very likely Charleston is at this moment experiencing the dreadful effects of a shower of "Greek fire" shells, fifteen hundred of which have been ordered for the bombardment of that nest of treason.

The gun from which the shells were first fired was The gun from which the shells were first fired was a 200-ponnder Parrot, which can throw a shell no less than seven miles, when aimed at an angle of forty-five degrees. The first shells went over Charleston, the gun being aimed at too sharp an angle. Our readers will be pleased to learn that Gen. Gillmore has no less than thirty-Parrot guns mounted that will throw shells plump into Charleston. Also, that the use of Greek fire shells to bombard that shells at the shells to bombard thal rebel stronghold was personally ordered by President Lincoln. The Greek fire burns for twenty minutes. It will burn on the water as well as on land, and each shell covers a surface of one hundred square feet with flame. The shell bursts, into about L chundred and thirty pieces, or ten times as many theordinary shell. Of course the effect of thece nells will be to set Charleston in flames, which

sthing can subdue. The correspondent of a New York paper says :

"The rebels have little fear of the Monitors, but run to cover like sheep at every discharge of the Gap, has been received at headquarters:

4500 strong, including twenty pieces of artillery crossed the Arkansas river Aug. 22d, and offered battle to the rebel Gens. Steele and Cooper who had massed on his front 11,000 men. After a faint show of resistance, the enemy commenced a retreat, which soon turned into a disorderly flight. They abandoned

At length we have gained one of the most coveted objects of the war-second to the capture of Charleston,-the reclamation of East Tennessee from rebel rule. A dispatch from Knoxville Sept., 6th, says:

We are in full possession of East Tennessee, having accomplished a great, though bloodless vic-tory. The campaign was skilfully planned and magnificently executed. Such was the rapidity of tured there. The whole march of our army was a perfect ovation, and our entry into Knoxville an event long to be remembered. Thosands of people, of every age, size, color, and condition, lined the road, and greeted is with cheers. At Carrickfergus, 500 were in attendance, who received the lecturer, Mr. Wm. Church, Secretary of the Irish Temperance League, with great applause. At South Legoniel, Mr. C. lectured for two hours; the Banner says the lecturer was eloquent, argumentative and earnest."-Belfast is suffering from inadequate water-supply; this is a circumstance which might have some bearing on the question of total abstinence.

Soldiers' Aid. Solidiers' Aid. The recent change of weather has already induced calls for warmer under clothing. Woolen shirts, drawers and socks are already needed, and the re-ceipts will be greater every day. The Fall campaign will be certain to eventuate in battles requiring all stores needed for the relief of the wounded. Let us

prepare in time to meet any emergency of the season and of the war. G. H. STUALT, Chairman, 13 Bank Street.

Another, describes the bombardment alluded to in the rebel despatches as so effective. He says: In accordance with an order given the previous day, fire was opened on Fort Wagner from all our batteries, breaching and defensive, yesterday morn- ing at daylight. The naval battery, which could not well fire upon Wagner, directed its gun towards Battery Gregg. The fire from our batteries was rapid and effective, and the range being obtained, we	A- as during the month of August: of South Orange Presb church, N. J., Presb, church, Amenia, N.
