Invitation to Christian parents, in all countries, to set apart Tuesday, the 12th of April, for Special United Prayer for thei Children.

The Committee of the Evangelical Alliance are induced to issue this invitation on account of the numerous requests continually sent in for the conversion of children of believing parents. These requests made it evident that such an invitation would be very warmly and extensively welcomed, and that a large number of deeply-tried Christian parents would, under God's gracious blessing, derive incalculable comfort and strength from the United Special Prayer which it proposes. Nor could it be doubted that a measure of this kind, which enlisted the sympathies, and obtained the approbation of Christian parents in London, would be equally prized by Christian parents throughout Great Britain and other countries.

Special meetings are therefore by this invitation convened for the morning and evening of Tuesday, the 12th of April, at and the evening meeting at 7.

It is suggested, that on the same day similar meetings should be held, where-ever practicable, in towns and villages, and in private circles; and that at domestic worship in all Christian families more than ordinary attention should be drawn to the subject. If, in any case, the day mentioned should be unsuitable, another day can be substituted.

The suggestion is also offered, that clergymen and ministers of the gospel might, in some instances—where, for example, there is a service on that evening-make special reference to it in their addresses and prayers; and that in other cases they might, on the previous Lord's day bring it before their congregations.

It is suggested that, while prayer is the chief object of the meetings, in the intervals of prayer and praise suitable portions of the sacred Scriptures should be read, and a few brief practical remarks on the Responsibilities, Duties, and Encouragements of Parents should be offered by ministers or experienced Christians. To afford some assistance to those who may undertake these parts of the service, a few scripture texts, with their subjects are arranged below. Honorary Secretaries, T. R. Birks, M. JÖSEPH H. SCHREINER, Agent, 929 Chestnut street. It contains an outline of the doings of the Society for nearly forty-six (46) years, in which it has existed under various modifications. It has educated, in whole or in part, upwards of five hundred and fifty candidates for the gospel ministry, and by the liberality of its able and numerous friends, has ever been successful in fulfilling its obligations to the young men under its care. Within the last few years there has been a growing desire expressed at the meetings of the General Assembly, to have it surrender its field of operation to the Permanent Committee on Education. Hence a paper was adopted at the recent meeting, in which the Society offers to comply with all the wishes of the Assembly, but is to continue its organization, merely to hold and manage its permanent fund.

Within the last two years a large number of candidates under the care of the Society completed their course of study, whose places were not filled with new candidates, simply because the Society felt itself called upon to bring its SANDS OF CASES. active operations to a close; hence the number connected with it during the last year was only twenty-three. 1861 it had sixty-one candidates.) says the Boston Advertiser, adding: "This is not only our opinion but the

UNANIMOUS VERDICT OF THE ORGANISTS and Musicians who have examined these Organs and often submitted them to long and severe tests."

In commencing the manufacturing of reed instruments more than ten years since, MASON & HAM-LIN were largely influenced by the confidence that great improvement in such instruments was possible. It was their plan to accomplish success in business, not by making the lowest priced instruments, but by prolucing the best, and this guiding principle has never been lost sight of by them. The result was that their Melodeons, the only instruments made by them for several years,

at every Industrial Fair, though constantly exhibited in competition with others from the best makers. Not satisfied with this instrument, however, they bent every energy to the production of a better, instituting extensive experiments, and holding out such inducement as should add to their own skill and experience the resources of the best inventive talent in the country which had been occupied in this direction. The result

was the production and introduction of their

IN THE WORLD. Still striving unremittingly for progress, MASON & HAMLIN were fortunate enough to discover and perfect several other improvements, and better processes of manufacture, by the employment of which they produced, in the fall of 1862, THE CABINET ORGAN, an instrument which has elicited an amount of commendation from the musical profession, and enjoyed a SALE QUITE UNPRECEDENTED. A large majority of the most eminent organists in the country have given their written testimony to the great excellence of hese instruments, and their SUPERIORITY TO ALL OTHERS of their class. Their superiority consists in QUALITY OF TONE; POWER OR VOLUME OF TONE, CAPACITY FOR EXPRESSION, by which the performer produces at will all grades from their softest to their loudest tones; QUICKNESS OF ACTION. adapting them to very rapid music; the VARIETY OF EFFECT of which they are capable; their DURABILI-TY AND QUALITY OF KEEPING IN TUNE AND

ORDER under most trying circumstances of climate and situation; with MANY OTHER POINTS OF EX-CELLENCE. The CABINET ORGANS are adapted to FAMILIES, CHURCHES and SCHOOLS.
