hundred thousand seamen come to and printing CANTARY COMMISSION go from the city annually. Many of these were brought up in worthy familles, by Presbyterian fathers and mothers, and the most tender and sacred associations of their childhood and early youth are in connection with the Sabbath-school and Presbyterian Church. But hitherto no church provision has been made for these men in this city. There are also many Scotch sailors and Scotch-Irish sailors, who are nearly all from Presbyterian families. These, too, prefer the church of their fathers, its faith and forms of worship. They are so strongly attached to the Presbyterian form of worship, that they are seldom willing to attend church anywhere else."

BAPTIST.

THE BAPTISTS IN MAINE.—A correspondent of the National Baptist reports that there are in Maine 13 Baptist Associations, 278 churches, 185 ordained ministers, and 20,423 members. The ages of the four ministers deceased during the year, were respectively 60, 87, 90. and 92 years. The letter has also the following pleasant paragraph: "All the associational gatherings appear to have been pleasant occasions; and at many of them revivals were reported. The churches in the York Association had been the most favored in this respect, creatures. Of the five hundred and fifty that 152 having been added by baptism during the year, raising the total number of members from 869 in 1863, to 1014 in 1864." And the following, not so pleasant: "There have been about the usual number of pastoral changes during the past year, and these are far too numerous for ministerial efficiency or church prosperity; but they arise partly from habit, and partly from necessity. It is very difficult for a minister to please every one. As most of the churches are small and feeble, when a few get dissatisfied with the pastor, the majority are very likely to yield to the minority in order to retain their subscriptions. Alas! for both majority and minority."

MRS. PARRISH'S LETTER. Annapolis, Dec. 8, 1864.

OUR PRISONERS FROM SAVANNAH. No human tongue or pen can ever describe the horrible suffering we have witnessed this

TWO HUNDRED BAD CASES.

I was early at the landing, 8½ o'clock in the morning, before the boat threw out her ropes for security. The first one brought two hundred bad cases, which the naval surgeon told me should properly go to the hospital near by, were it not that others were coming, every one of whom was in the most wretched condition imaginable. They were, therefore, sent in ambulances to Camp Parole hospital, distant two miles, after being washed and fed at the barracks.

A DECK LOAD OF THE DYING.

In a short time another boat-load drew near, and oh! such a scene of suffering humanity I desire never to behold again, The whole deck was a bed of straw for our exhausted, starved, emaciated, dving fellowleft Savannah, the Surgeon informed me not over two hundred would survive; fifty had died on the passage; three died while the boat was coming to the land of liberty. I saw five men dying as they were carried on stretchers from the boat to the Naval Hospital. The stretcher-bearers were ordered by Surgeon D. Vanderkieft to pause a moment that the names of the dying men might be obtained. To the credit of the officers and their assistant it should be known that every thing was done in the most systematic and careful manner. Each stretcher had four attendants, who stood in line and came up promptly, one after the other, to receive the sufferers as they were carried off the boat. solemn funeral service to many a brave soldier that was thus being performed by kind hearts and hands.

THE INSANE.

Some had become insane; their wild gaze and clenched teeth convinced the observer that reason had fled; others were idiotic: gratefully of his own share in the work a few lying in spasms; perhaps the realizaof revival which has been enjoyed at tion of the hope long cherished, yet oft desent forth by the military band, was more than their exhausted nature could bear. When blankets were thrown over them, no lay beneath, save for the small prominence which the bony head and feet indicated. Oh! God of justice, what retribution awaits the perpetrators of such slow and awful murder.

VERMIN AND DISEASE.

The hair of some was matted together, like east of the stall which lie down in their own filth. Vermin are over them in abundance. or black with rough scales, and with scorbutic sores. One in particular was reduced to the merest skeleton; his face, neck, and feet covered with thick, green mould. A number who had Government clothes given them on were carried ashore partially dressed, hugging their clothing with a death grasp that they could not be persuaded to yield. It was not unfrequent to hear a man feebly call, as he was laid on a stretcher, "Don't take my their wild death-struggle, with bony arms and hands extended, they would hold up their new socks, that could not be put on because of their swollen limbs, saying, "Save em till "The receipts for missions have been I get home." In a little while, however, the souls of many were released from their wornout frames and borne to that higher home where all things are registered for a great day

OUR WOMEN.

We want to say that the aid societies are as diligent as ever. The testimony comes to us from all quarters that the supplies are increasing, because the faithful women of the land continue to be faithful. Some, it is true, have grown cold, and, if they work at all, work in another direction. But their lukewarmness is compensated for by the zeal of others, and by the forming of new societies in new neighborhoods. The work never-looked brighter in the brighter days of our history. We say to our women, then, go on, you have erers, and the call is for you to persevere. Every garment you have made, every comfort you have contributed, has been so much added to the strength of the nation; and every bless-Edwards, a licentiate of the Presbytery of ing that has been uttered by soldiers, and many more that have been too deeply felt to be uttered, have fallen upon you from trembling lips or burdened hearts, but to stimulate your zeal and cheer your hearts. Go on ! PREMIUMS FOR NEW SUBSCRIBERS.

Our list of new names is receiving constant accessions. In some places the numbers are doubled and even trebled. Wherever pastors take a personal interest in the work, the results are in the highest degree encouraging: The Synod's list now numbers about THREE HUNDRED, leaving two hundred names yet to be procured. May we not look to those brethren and church sessions in the Synod who have, as yet, done little or nothing, to fill the deficiency?

We print again our offers of premium for new subscribers. Ministers and Home Missionaries who, from lack of means, find t difficult to procure important recent theological books, should take advantage of these offers, as many already have done, to enrich their libraries, benefit their people, and enlarge the circulation of the paper.

CASH PREMIUMS.—For one subscriber paying full rates in advance, seventy-five cents; for four subscribers, paying in the same manner, \$5.00, and for more at the same rate. For a club of ten, paying clubrates, in advance, \$7.50.

Retain the premiums and remit us the balance.

VALUABLE BOOKS .- For four new names paying at full rates in advance, we offer the choice of John Huss and His Times, 2 vols. 8vo., Shedd's History of Christian DOCTRINE, 2 vols., 8 vo. Of these books, we have sent away many copies to all parts of the field as far west as Minnesota. Of Shedd's History, but a few copies are now remaining. To this list we have added two recent publications of great importance;

LANGE'S GREAT HOMILETICAL COMMEN TARY, a perfect, library in itself, and the best aid in Scriptural sermonizing any where to be found. It is one large 8vo. vol., containing an immense amount of matter. Also, the Publication Committee's last valuable work :---

MASON & HAMLIN'S

CABINET ORGANS.

MASON & HAMLIN respectfully invite attention to the fact that their Cabinet Organs are, by the written testimony of a MAJORITY OF THE MOST EMINENT ORGANISTS AND MUSICIANS IN AMERICA, as well as a number of distinguished EMINENT ORGANISTS AND MUSICIANS IN AMERICA, as well as a number of distinguished artists of other countries; declared to be unequalled by any similar instrument—"THE BEST OF THEIR CLASS;" also, that they have been awarded within a few years, thirty gold or silver medals, or other first premiums, at the principal Industrial Fairs of the country, for the best instruments of this class. They will be glad to send to any one desiring it, an illustrated catalogue of styles and prices, with a large amount of this testimony.

CAUTION TO PURCHASERS.

CAULION TO PURCHASERS.

The high reputation of our CABINET ORGANS has frequently induced deafers to represent that other instruments are the same thing—that there is no essential difference between the Cabinet Organs and Organs with various names, made by other makers. This is not true. The excellences of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their work masship, but also in large measure of essential differences of, construction, which, being patented, cannot be employed by other makers. These are essential to their better quality and volume of tone and morivalled capacity of expression. When a dealer represents another instrument as the same thing as the Cabinet Organ, it is usually an attempt to sell an inferior instrument on which he can make a larger profit.

This Company owns in fee simple, seventy-found acres of land, situated on Cherry Run, between the Reed Well and the Humboldt Works, being about three-quarters of a mile above the former (Reed Well).

Twelve acres of the property have been leased on which NINE WELLS have been commenced, and, according to the leases, sixteen more are to be drilled : frem these twelve acres leased, the Company receive one-half of the Oil free of any expense.

The remaining property can be leased at a heavy onus, whenever the Company see proper to do so. The Company having a working capital of \$25,000, can develope the property if they desire to do so. In the vicinity, on the properties of the Royal Petroleum and Springfield Companies, great activity prevails.

The Company do not claim that they are receiving an immediate yield of Oil, but if the character of the surrounding property be taken as a test, there is no reason to doubt that out of nine wells now in progress, some of them cannot but be productive. duced Oil. From Rev. Levi G. Beck. Pastor of the Baptist Church at Chester. Pa. formerly of Baptist Church. Pemberton, N. J.

I have known Hoofland's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended to these Bitters, knowing from experience that my recommendation will be austained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted; and is "not a rum drink."

in the hope that he may thus contribute to the benefit of others.

I do this more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted tomy friend, Robt. Shoemaker, Esq., for the removal of this prejudice by proper tests, and for choouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired, of regaining.

I therefore thank God and my friend for directing me to the use of them. Philada., June 23,1861.

Some years since, being much afflicted with Dyspepsia, I used them with very beneficial results. I have often recommended them to persons enfeebled by that tormenting disease, and have heard from them the most flattering testimonials as to their great value. IRON IN-THE BLOOD.

It is well known to the medical profession that IRON is the VITAL PRINCIPLE or LIFE ELB-MENT of the blood. This is derived chiefly from the food we at; but if the food is not properly digested, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs will stupefy the brain, will obstruct the liver, and will send its disease producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease.
