

News of the Week.

THE STATES.

MARYLAND.—The Court of Appeals has decided the new registry law for voters to be constitutional. This effectually prevents all persons of rebellious proclivities from sharing in the government of the State.

SOUTH CAROLINA.—Returns from all the districts give Orr, for Governor, about 500 majority over Wade Hampton. Gov. Perry was elected Senator, Oct. 30, for the long term, ending 1871.

The rebel Generals Wade Hampton, Kershaw, Butler, Martin and Brattant, are members of the South Carolina Senate.

GEORGIA.—The Georgia State Convention has repealed the secession ordinance and petitioned the President to release all State prisoners. The Convention, Oct. 31st., repealed, "but did not declare null and void," the ordinance of Secession.

The debt of Georgia is \$21,000,000; but of it \$18,000,000 have to be repudiated, being the amount raised in aid of the rebellion.

Alexander H. Stephens has been nominated for Governor. He is now at Atlanta.

Rebel Impudence.—The Governor has advised the State to claim the cotton General Sherman took. Why not also the provisions and forage, the use of bedding and shelter, the value of the railroads he destroyed and reparation for damages generally in suppressing the rebellion, including the injury done to property in Atlanta during the bombardment.

ALABAMA.—Brig. Gen. Swayne recently informed the President that large numbers of our officers and soldiers retiring from the army, do not leave the State, but are purchasing plantations, and becoming permanent residents.

The whites in Mobile are determined to break up the colored schools. The President has been asked to prevent it.

FLORIDA.—The Secretary of State has informed Governor Marvin, that unless the Congressional amendment to the Constitution abolishing slavery, is adopted by the State Legislature, the reorganization of the State cannot be recognized.

MISSISSIPPI.—Affairs among the freedmen in Mississippi are reported to be very unsatisfactory. Many of the courts still refuse to admit negro testimony.

LOUISIANA.—Governor Wells is actively organizing the State militia. The officers appointed are mostly Southerners who were prominent in the Confederate army.

TENNESSEE.—The State Senate has passed bill under the caption, "A bill to do justice, and render persons of African and Indian descent competent witnesses in the courts of this State." Its provisions are in these words: "Be it enacted by the General Assembly of the State of Tennessee, That persons of African or Indian descent, are hereby declared to be competent witnesses in all the courts of this State, in as full a manner as such persons are, by an act of Congress, competent witnesses in all the courts of the United States; and all laws and parts of laws of this State, excluding such persons from competency, are hereby repealed."

CALIFORNIA.—At a new quicksilver mine 300 miles east of San Francisco, the laborers employed are Freedmen, recently arrived from the South. They are working in a mine of 250 Coolies, including over 40 women. They were bound to labor five years, at four dollars per month, clothing themselves. Their other necessities were to be provided for by their masters, who were also to take care of them in case of sickness. The cost of procuring Coolies on these terms is \$80 each.

NEW MEXICO.—Mr. Chavez, Republican candidate for Congressional Delegate, has been elected by 2300 majority. This is a very large Republican gain.

THE CITY.

For the week ending on the 26th ultimo, the entire exports from Philadelphia amounted to \$513,325, and of this sum, \$350,547 was petroleum, nearly all of which was shipped direct to Hamburg, Belgium and Ireland.

THE FAIR for the Soldiers' and Sailors' Home, closed on Saturday last. About \$100,000 were realized, most of which is clear profit.

MISCELLANEOUS.

INDIANS ABOLISHING SLAVERY.—The Legislature of the Chickasaw Indian Nation has ratified the treaty of peace with the United States, abolishing slavery.

LIEUTENANT-COLONEL A. C. HAMLEN, U. S. A., who has made several inspections of the Andersonville prison, states that the lives lost at that one spot, by starvation and cruelty, outnumbered the killed and wounded in the British army in all of the great battles of the peninsular war and at the battle of New Orleans.

A CURIOUS railroad accident occurred at Clinton, Connecticut, a few days since. An express train was approaching, when a cow, annoyed by a small dog, dashed on to the rails. When the train had passed, the cow lay with her head cut off, and the little dog, with his tail cut off, sat between the rails looking after the retiring cars with a face indicative of the most intense astonishment and disgust.

The organization of the New York paid fire department has at last been accomplished. It is now called the Metropolitan Fire Department, and consists of thirty-five steam fire-engine companies and twelve hook and ladder companies for the city proper. Only twelve men go to each steamer. One of our city volunteer companies turned out five hundred and forty-five at the parade.

One hundred and twenty-four clerks were, on Thursday, discharged from the Treasury Department to make room for disabled soldiers.

THE PREREQUISITES to a recognition of the Southern States as reorganized are stated to be the following:—

1st. The adoption of the Constitutional amendment.

2d. The repudiation of the rebel debt.

3d. A guarantee that the freedmen shall be protected.

Not one of the States in question has fulfilled all three of these preliminaries.

SILVER MINES OF NEVADA.—The editor of the Reese River Daily Revue, whose statements command the confidence of the public, says:—"This mountain range was never equalled in the richness and multiplicity of its silver-bearing ores. For one hundred and fifty miles, from north to south, from east to west, scarcely a mile intervenes in which are not bodies of metalliferous rock of immense value. These hills than run sloping away to the sky are pierced with veins of delicate silver to an extent and richness that will one day astonish the world, and which make them more precious to an advancing civilization, than though crowned with the most gorgeous palaces and cathedrals. Nowhere upon either continent is such a great reward offered to capitalists. The most conscientious need never fear of betraying the innocent or doing that his largest promises will be fulfilled.—Mining Register."

FINANCIAL.

The internal revenue receipts on Monday and Tuesday were a million and a quarter per day. On Wednesday they were \$2,100,635; on Thursday over \$2,500,000; on Friday, 2,271,059. The circulation of the State Banks has diminished from April till July, from \$130,000,000 to \$83,000,000. In 1863 it was \$238,000,000. The monthly statement of the financial condition of the United States Treasury appeared November 3d. The Philadelphia Press gives the following comparative statement:—

Table with 2 columns: Date, Amount. Includes entries for 'Total debt, July 31, 1865', 'August 31, 1865', 'September 30, 1865', and 'October 31, 1865'.

FOREIGN.

MEXICO.—On the 16th of September, the anniversary of Mexican independence, Maximilian publicly adopted Don Augustin de Iturbide, the eldest son of the first Emperor of Mexico, as his heir. The Liberals attacked Matamoros on the 26th of October, and were repulsed with a loss of 500 killed and wounded. A curious phenomenon occurred in the Valley of Mexico on the 6th of October. Five large streams of water burst suddenly from the mountains, which, if they do not diminish soon in volume, will form a considerable river.

ENGLAND.—Lord Palmerston died on the 30th of October, at 9:35 A. M. He was two days short of 81 years of age. Not being entitled to a seat in the British House of Lords, unless elected to that position as an Irish representative Peer, he was returned as a member of the House of Commons by various constituencies. He was a member for Cambridge University for twenty years. In 1831 he lost this seat in consequence of his views on parliamentary reform, and on other questions, but was again elected from other places, having been regularly returned from Tiverton from 1835 to the day of his death. In 1809 he was made Secretary of War, and he succeeded in retaining the same position for nearly twenty years, and during no less than five different administrations. In 1828, for the first time, he found himself in opposition to the government, when he broke loose from his old allies of the Tory party, and threw himself into the advancing ranks of the Whigs. In 1840, the Whigs came into power and Lord Palmerston was made Foreign Secretary. In this position chiefly, his reputation as a Diplomatist was made. The one thing which, above all others, ever marked his diplomacy, was his eagerness to form revolutionary alliances, and at the very earliest stages. He promptly recognized the independence of Belgium, and his quick approval of Louis Napoleon's infamous Coup d'Etat compelled his retirement from the Cabinet. He returned to power in 1855. He formed the ministry under which the Indian mutiny and the war with China occurred. With a brief interregnum in 1858, he continued to be Prime Minister of England until his death. He was married in 1839, and leaves a widow, but no children. His name was Henry John Temple. He was the third Viscount Palmerston, and his title dies with him. The N. Y. Times says:—"Lord Palmerston being at the head of British affairs when the Southern rebellion began, it was a foregone conclusion that the Cabinet policy would be to hold the rebellion to the utmost extent possible. The precipitate acknowledgement of the belligerent rights of the rebels, directly after the news of the bombardment of Sumter, without giving time for our new Minister, Mr. Adams, to reach his post, was thoroughly Palmerstonian. So was the first dispatch upon the Trent affair, the domineering and insulting language of which seemed specially framed to preclude all possibility of settlement without the most abject humiliation on our part, and which would probably have led to the most disastrous consequences but for the friendly modification made by Prince Albert."

The London Times of October 14th, created a great sensation by publishing a New York dispatch and letter of October 4th, to the effect that the United States Government had sent an ultimatum to France, that it would not permit additional troops to be sent to Mexico by that Power. The price of American stocks was immediately run down, five-twentieths being quoted at 64. The London Star of the 17th gave an "authentic assurance" that the news was totally unfounded.

FRANCE.—Cholera.—According to the Paris Temps, the number of deaths from cholera in the department of the Seine, (Paris,) was averaging about two hundred per day. The deaths from cholera in Paris on Monday (16th) are said, on the authority of the Prefecture of Police, to have been 200. On Tuesday they were probably something more, for Monday is a day of much drunkenness among the working population. No official returns are yet given. A correspondent writing on the 18th says, "the daily cases are above 500; deaths, 150."

In Madrid the cholera continues to decrease. On the 16th there were one hundred and seventy-two cases and fifty-two deaths.

THE RUSSO-AMERICAN TELEGRAPH.—The surveying party have sounded across Behring's Straits and found the bottom as favorable as anticipated. A good harbor for landing the Cable on the American side, called Grantley Harbor, was found. The Indians on both sides of the Straits were found well disposed. The floating ice coming through Behring's Straits was alive with walrus, who appeared to be taking a dead-head summer trip to the southwest.

The Brazilians have captured Uruguayana and 5000 Paraguayans. The prisoners were at once drafted into the Brazilian army to fight against their own countrymen.

LATER ITEMS.—Lord Palmerston was buried in Westminster Abbey, October 27. The funeral was public by express wish of the Queen.—United States Five-twentieths, 63 to 63.—The cholera had disappeared from several points in Spain. In Madrid on the 23d, forty cases occurred, of which thirty-five were fatal.—In Italy sixty of sixty-five elections are known to have resulted favorably to the Government.—It is reported that the Austrian Council of Ministers have resolved to concede a separate ministry to Hungary.—The Paris correspondent of the Times reiterates the statement that Secretary Seward had sent a despatch to the French Government, charging that the project of recruiting for Mexico in Africa, was thought of, but owing to the insurrection in Soudan, the troops could not be spared, so the project fell through. Cotton is lower; breadstuffs higher in the English markets.

ITEMS.

In the Lake country, New York, apples are bought for two dollars a barrel. They will sell easily here for eight.—The payment of bounties to such of the colored troops as were not formed on the 19th of April, 1861, has been prohibited by the Secretary of War.—John E. Worcester, L. L. D., author of Worcester's Dictionary, died Oct. 27th, at Cambridge, Mass., aged 81.—320 packages of silk-worm eggs arrived at San Francisco, Oct. 26th, from Japan for France. They are valued at \$80,000.—Immigrants were arriving at New York, at the rate of over a thousand a day, last week.—There are now 60,000 men in the army.—Pierre Soule has been pardoned.—There are three anthracite coal mines near Ithaca, New York, and coal is sold at Rochester for about \$4 a ton.

NEGROES VOTING.—At the time of the formation of the National Government, according to Judge Kelley, "in every State but South Carolina, and possibly Virginia and Delaware, in which the right of suffrage was regulated by statute, and not by constitutional provision, the free colored man was a voter."

To the present and former patrons of the school it is needless to speak of its advantages. To others, who desire to send their daughters to a first-class institution, it will be enough to say, that the design of this school is to educate, in the only true sense. To secure this end, thoroughness is aimed at in all the branches pursued, so that the scholar may understand the principles involved in every investigation.

The classes are arranged in three departments:—Primary, Academic, and Collegiate. There are separate ample accommodations for primary pupils, as well as for those belonging to the higher departments. All the departments are subject to the same discipline.

Circulars containing Course of Study, and other information, may be obtained at the Presbyterian Home, 1334 Chestnut street, or at 222 Chestnut street, or address Box 2611, Post Office, Philadelphia.
