Presbytery adjourned to meet at West Ely on Friday, April 20th, 1866, at 7 1/2 o'clock, P. M.

PREBYTERY OF HURON.—The Evangelist has the account of the prosperity of three of the churches in this Ohio Presbytery. Monroeville has, during the year, received on profession about thirty members, paid about \$2000 for a parsonage, laid out more than \$3000 in renovating its church edifice, and withal made no diminution of its ordinary charities.

SYNOD OF MICHIGAN.—This Synod, at its late meeting in Kalamazoo, appointed a committee to organize a new Presbytery to include the churches in and around Lansing. The Narrative mentions considerable advancement in most of the Presbyteries; several new churches had been erected during the past year, and more were now in process of erection.

DEATH OF A MINISTER.—Rev. Abraham Luce, a greatly-esteemed father in our Church, went to his reward, from the residence of his son in Riverhead, Long Island, on the 23d ult. He was more than seventy years of age, and about the fiftieth of his ministry. His whole life had been spent on Long Island. He was seventeen years the pastor of the Church in Westhampton, and served several other churches on the Island for shorter terms.

SECOND CHURCH, CINCINNATI.—This, which is one of our most important Western churches, has remained without a regular pastor since the resignation of Dr. Thompson. Its pulpit is temporarily supplied by Rev. L. J. Evans, of Lane Seminary.

SANDUSKY, OHIO.—Rev. J. H. Fullerton was installed pastor of the First Presbyterian Church in this place, on the 31st ult.

PASTOR WANTED.—The call is sent out for a pastor for the Coshocton and Roscoe Church, Ohio. Its field is the two towns named, and it has a good house of worship, and a fair congregation in each. The membership is about ninety. The population of Coshocton is about fifteen hundred.

NEW CHURCH IN TOLEDO, OHIO.—A new organization, taking the name of the Westminster Church, and to be in our ecclesiastical connection, was completed in Toledo on the 7th inst. Fifty-five of its members brought letters from our already existing Church there, and others came in, making the whole number more than sixty. Morally they are a strong and reliable company, and their pecuniary ability is ample for their present wants.

OLIVER, MICHIGAN.—Our Church and the college in this place have been united in Christian worship, and occupied together the edifice used for that purpose. The growth of both town and college has rendered the building too straight, and it has accordingly received enlargement and improvement, at an expense of \$5000. It is now a good-sized church, with a college, chapel, and recitation-rooms in the basement. The dedication services took place on the 26th ult., at which time all that remained unpaid of the expenses of the improvement were paid, and more contributed for the furniture. The college, a decidedly Christian institution, is in a very flourishing condition, and is making its influence felt in the region.

NORTHERN ILLINOIS.—Rev. J. W. Cunningham, the Presbyterian missionary of the Presbytery of Galena and Illinois, found, about nine months ago, a church of twenty-six members at Apple River, a small village, but surrounded by a good farming country. The Church was without a sanctuary or pastor, and very much discouraged. He immediately devoted to them his labors for one half the time, and these have been accompanied by the Divine blessing. The Church is enlarged by thirteen accessions; a good church edifice is built, mostly furnished and paid for, more than \$2800 of the amount having been raised on the ground; the dedication has passed off, and the preaching services connected therewith were continued three days, the congregation filling the house to its utmost capacity; and now cheerfulness and hopefulness reign.

The same brother, near the beginning of the year, assisted in the organization of a church of twenty-four members in Warren, some six miles from Apple River, a village of more than twelve hundred inhabitants. There a neat chapel, fore-runner of a more capacious edifice, has since been built and paid for, and the ministerial services of Rev. E. H. Avery have been secured. The church is receiving accessions, and, with the Divine blessing everything appears fair.

NEW CHURCHES IN KANSAS.—Two new Church organizations in our connection, were effected in Kansas, last September. The first is in Ottawa, and has but ten constituent members.

John Summers, of Shellsburg, Iowa, has been requested to enter upon the work of building it up. The location is highly important. The other is near Eureka, the last place on the mail route to Santa Fe. All between is a wilderness. Eight persons were organized as the First Presbyterian Church of Fall River and vicinity, and the Lord's Supper was administered by the missionary, whose name we do not see mentioned. It was the first sacramental meeting ever held by Presbyterians in Greenwood County.

Eureka has, for some time, been known as a town on paper, but, in point of fact, it is only a Post Office, located in a stone dwelling occupied by Mr. Edward Tucker. Dwellers are scattered here and there around. We rejoice in the enterprise which has carried our Church in that direction to its Ultima Thule of civilization. Now we want the missionaries, and the means for their living and usefulness. Where are they?

WESTERN ITEMS.—We clip the following from the Presbyterian Reporter:—John Pollock, a licentiate connected with the Wabash Presbytery, supplies the pulpit of the Prairie Bird Church, Shelby county, Illinois, and also acts as Principal of the Okaw Seminary in Shelbyville, the capital of the same county. Rev. Andrew Luce, besides supplying our church at Carbondale, Illinois, is now acting as Principal of the High School, or College in that place. Rev. David Diamond, late of Brighton, Illinois, has taken charge of our Church at Shelbyville, Illinois. This is the church made vacant, a few weeks since, by the removal of Rev. Timothy Hill to Kansas City, Mo. Shelbyville people have already proved the truth of the promise, "He that watereth shall be watered."—Prov. xi. 25. The place of the minister whom they yielded up at a call from a missionary field, has already been temporarily supplied. Rev. C. A. Williams, after spending three years as Chaplain in the U. S. Hospital at Keokuk, Iowa, has accepted an invitation to supply the pulpit of the Westminster Church, Rockford, Illinois. Rev. Thomas Spencer, from Terre Haute, is now supplying the New Providence Church, Wabash Presbytery. Sanford, Indiana, the post-office.

THE PACIFIC COAST.—The Synod of Alta, California, met at Oakland on the 3d of October, sixteen ministers and several elders being present. The opening sermon was preached by the Rev. Geo. Pierson, and the Rev. C. C. Wallace, of Placerville, was chosen Moderator. Church extension received a share of attention, and Revs. Scudder, Taylor, Hamilton, White and Elder Sweeney were appointed a committee on the subject. It was recommended that each Presbytery secure a Presbyterian missionary. Seven hundred and thirty dollars have been collected for Home Missions the past year, and an unusual number of new converts have been received into the churches. The number of ministers is increased by one from the East, and two ordinations in California.

APPOINTMENT ACCEPTED.—We have before noticed the appointment of a joint committee, by the Synod of Ohio and Cincinnati, to procure a supervising and working missionary for the destitutions in their bounds—an important territory, taking the sweep of southern Ohio. This Committee selected for the work Rev. Daniel Tenney, a brother to whom both Synods spontaneously turned, as being precisely the man answering to the requirements of the field. We now learn that Mr. Tenney accepts the appointment, regarding it as the call of God, although it obeys at the sacrifice of giving up a pastorate where he is useful and beloved. In his letter of acceptance he says:—"I have but one life to spend for my dear Redeemer, and that is fast passing away, and I wish to accomplish the greatest possible amount of good. I wish to build for Christ and on Christ, of silver and gold and precious stones that shall abide as a memorial of my love for Jesus, and if I can lay one more precious stone there than here, then let me labor there, and there let me die." Mr. Tenney's headquarters will, for the present, be at Oxford, Ohio.

CHANGE OF POST OFFICE ADDRESS.—Rev. G. W. Mackie, late of Adams, N. Y., has removed to Janesville, Wis., and desires his correspondents to address him at the latter place.—Rev. R. Dunning, late of Rochester, has taken pastoral charge of the Presbyterian Church in Ontario, Wayne County, N. Y., and requests correspondents to address him accordingly.

AID IN THE RIGHT DIRECTION.—We learn, with much satisfaction, that Rev. Dr. Heacock, of Buffalo, is spending two Sabbaths in Maryville, East Tennessee.

PROBABLY the most elegant Gift Book of the season is about to be published by Chas. Scribner & Co., New York. It is "THE CHRISTIAN ARMOUR," with fifteen richly illustrated plates, illustrating the passage in the sixth of Ephesians. It will be in quarto, two editions; the morocco \$20, and the cloth \$15. Send for Scribner's Circular.

WE are informed that fever and ague is now more prevalent than it has been for years. Great care and caution should be had, to guard against this disease. If any of our readers are unfortunate enough to be shaking with ague, we remind them that one of the best remedies known to eradicate the ague is Davis' Pain Killer. We advise every family to keep this valuable remedy in their houses.

LETTERS OF COMMENDATION.

RECEIVED BY THE WILCOX & GIBBS' SEWING MACHINE COMPANY, NO. 720, CHESTNUT STREET, PHILADELPHIA.

From Rev. Andrew T. Pratt, Missionary of the American Board.

"NEW YORK, April 4th, 1861. "MR. JAMES WILCOX: DEAR SIR:—I have now had in use one of your Machines for six months, and am ready to thank you for introducing them to the public, and furnishing them so reasonably to missionaries. Having used one of the best double-threaded machines in the market, I speak intelligently when we say, that for simplicity, ease, and precision of work, yours is unrivaled.

"It is the only Machine whose working is so sure and simple that I could venture to introduce it in Syria, among a people who have only a modicum of mechanical skill. "I am quite sure I shall be able to bring it into use to some extent in that country. "We are particularly pleased with the beauty of the work done by the hemmers. We would prefer the Wilcox & Gibbs' Machine to any other, at any price.

"I have had occasion to send for one or more soon after our arrival in Syria, I remain yours truly, "That Mr. Pratt's most sanguine expectations have been realized regarding the introduction of Machines in Syria, we give below extracts from letters received from him: "ANTIOCH, SYRIA, May 20th, 1862.

"I now have the pleasure of requesting you to furnish another of your admirable Machines for one of our missionaries, (Rev. B. Nutting, Syria, Turkey, in Asia.) This is the sixth Machine we have had since the occasion of your furnishing since our arrival here. Our own Machine has been in use a year and a half, and has never troubled us a half hour, and every one that has seen it is delighted with it."

"MARDIN, MESOPOTAMIA, Aug. 19th, 1862. "DEAR DR. PRATT: I must tell you how splendidly your Sewing Machine works, and how much my wife is indebted to you for it. We needed new lounges, and I sewed for her one hundred yards of thick ticking, from two to seven thicknesses. We have not yet broken a needle, except in that job—none before or since. It has not once been out of order, not once balked, and it is a comfort. I wish A—and E—had one like it."

From Rev. W. G. Hubbard, Wilson, N. Y., August 18, 1860. "I have regarded your Machine as the most perfect in construction and working of any I have seen, but now, after taking it to pieces, I admire its structure much more. It is an honest Machine; and I hope every man and woman who owns one will take pattern from it, in principle and duty."

From Rev. George W. Leach, Tallmansville, Wayne County, Pa., November 14, 1860. "The Machine came safely to hand last Wednesday evening, and Thursday morning, before daylight, I had it unboxed, and though I had never before seen a sewing machine of any kind, I had no difficulty in understanding how to work it. My wife, who, on account of our present poverty, had been opposed to my getting it, has found out that it is just the thing for poor folks."

Under date of Feb. 6, 1861, he says:—"I do not regard your Machine as among the 'benevolent institutions of the age,' I would not spend the time I do in recommending and showing it. We are delighted with it, and the admiration of all who witness its operation, and who generally say, 'We must have one as soon as we can.'" "January 27, 1862:—"Four machines of other manufactures, (among them the much-vaunted 'W. & W.' and 'F. & L.,' were purchased in this vicinity about the same time I first procured one of yours, but their number does not and cannot increase, while you know how many of yours gladden our backwoods homes."

Rev. Oliver Crane writes as follows:— Boston, July, 1860. MESSRS. WILCOX AND GIBBS, SEWING MACHINE COMPANY: Gentlemen.—Having examined more than twenty different kinds of Sewing Machines, and fully acquainted myself with the merits and peculiarities of each, I have decided to purchase one of your patent, as the best adapted to the wants of my family, and as the least liable to get out of repair.

Under date June 18th, 1861, Mr. Crane writes from Adrianople:—"The Machine works admirably. There is no Sewing Machine but this in all Adrianople. We have had company after company to witness its magic operation, among them the best classes in Adrianople; among them the Pasha and all his retinue. He bore away with him a specimen of his own sewing, and was delighted. It has many admirers. Some want to purchase—all stand amazed at its telegraphic speed."

"ADRIANOPLE, TURKEY, April 24, 1862. "I am happy to have in my power to send you an order for two of your Sewing Machines like mine, one for J. E. Blunt, Esq., English Consul at Adrianople, and the other for Rev. F. Morse."

"ADRIANOPLE, TURKEY IN EUROPE, February 12, 1863. "Since coming to Adrianople, I have had occasion already to order three Sewing Machines from you. They have been promptly and honestly packed and sent, and I now herewith order three more of the same style, etc.—the boxes to be marked as follows: "A. DORRIS, Esq., Greek Consul. "DR. MERRILL, Esq., French Consulate. "DR. MEHAL, Bey. "I am happy to assure you that the Machines already sent, give full satisfaction."

From Rev. H. A. Reid, Beaver Dam, Wis., October 22, 1864. "I have long been an enthusiast, if not an expert, among the Sewing Machines. Besides, my wife is practically familiar and experienced with the leading machines. I have made critical examinations and severe tests, particularly investigating all mechanical points, principle character of stitch, and general practicability of twelve different machines claiming to be 'first class,' and I am entirely satisfied that the 'WILCOX & GIBBS' is so far above all others in practical worth, that it is without a rival. The complication of delicate machinery, so common in other machines, seems to be wholly eliminated in the Wilcox & Gibbs, and it will live to see other 'first-class' machines forgotten. Mrs. Reid says it is certainly the best beyond comparison."

From an Eminent Lawyer. New York, Sept. 6, 1863. MESSRS. WILCOX & GIBBS:—Gentlemen.—When I purchased one of your Sewing Machines, not long ago, you very fairly gave me the privilege of returning it within a month;

but after a few days' trial in the family, I found that it would be much easier to keep it than to do without it. I do not mean to disparage other machines, which, in the hands of practised operatives, have done the public inestimable service, but I must say that your Machine has certain moral and social advantages which make it peculiarly safe to introduce into the family circle. It is simple, swift, easily domesticated, and very inoffensive. It is never obstructed, and noisy, overpowered domestic conversation, and has no violent or sudden fits, disturbing the family temper; it will not even chafe a lady's dress, and it will do a week's work in a single day with the least possible waste of patience and thread. You have arranged everything to accommodate the operator and assist beginners, and, as most housekeepers, I am told, only see at intervals, they are constantly getting out of practice, and are always beginners. The fact that you use a single thread and an ordinary spool is a great convenience; but this, no doubt, has given rise to some misgiving in the public mind in regard to the strength and durability of the stitch. The agent of my family informs me, that the stitch is as strong as the material, and will last as long as the garment, and a little longer; so the question for the public to decide is, whether anything stronger or better is really needed in domestic life. Respectfully yours, S. W. ROOSEVELT, No. 76, William st.

PREMIUMS AWARDED. Committee of the American Institute.—Fair 1863.—"For skillfulness of its running and perfection of work—Wilcox & Gibbs, a gold medal." SAMUEL GARDNER, 171 Broadway. "JAMES BOGARDUS, 200 Canal St. "THOMAS C. AYER, 107 Christopher St. "The Pennsylvania State Fair, held at Hasleaton, October 27-30th, 1864, offers a premium for the best Sewing Machine. All the leading machines were fully represented, and there was a spirited contest for the first prize. After devoting the greater part of two days to their labors, the Committee made the following award:—"FOR THE BEST SEWING MACHINE—WILCOX & GIBBS—A SILVER MEDAL."

CHOLERA. A Certain Cure for this Disease may be found in the use of PERRY DAVIS' VEGETABLE PAIN KILLER.

PERRY DAVIS.—Sir: Although personally a stranger to you, yet the benefits I have experienced from your invaluable remedy, the Pain Killer, induce me to pen a word of praise for it. Experience has shown me that for Cholera, Diarrhoea, Stomachic, or any other part of the system, severe Chills, Headaches, Common Colds, Hoarseness, GRIPE, COLIC, MORBID, Distress, Dizziness, Toothache, &c., there is nothing better than the Pain Killer. I have this hour recovered from a severe attack of Cholera, by using an teaspoonful, taken at thirty minutes intervals, in a wine glass full of warm water. I am confident that, through the blessing of God, it saved me from the Cholera during the summer of 1864. Traveling amid heat, dust, toil, change of diet, and exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a certain remedy; one teaspoonful cured the worst case in an hour, or at most half a day. My brothers in the ministry have used it with much success in various diseases. I have heard many cases, the country over, of dysentery being cured by its use. Put in the teeth, it will stop the toothache. Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor. D. T. TAYLOR, Minister of the Gospel.

The following letter is from Mr. Woodward of St. Louis, to J. N. Harris, Esq., New London, Conn.:— Mr. Woodward is a resident of St. Louis, a well-to-do man of high respectability, and during the prevalence of the Cholera in that city, watched the result of the application of the Pain Killer for this disease, and his testimony can be relied upon with the utmost confidence.

Dear Sir:—You recollect when I saw you in New London in January last, my expression of my belief would augur a tremendous sale in the West of your Pain Killer. My anticipations have been realized, and the testimony of thousands who have used it has been that they would not be willing to be without it at night without it. On the appearance of the Cholera in this city, such was the confidence in the Pain Killer as a remedy, that many who purchased it, and who had no fears of a cholera as long as they had the Pain Killer by them, and hundreds took it daily as a preventive, for no persons can have a derangement of the bowels or diarrhea if they use this medicine. This was the security and confidence of hundreds acquainted with it, and when their friends were attacked with the Cholera they would administer the remedy in large quantities internally, and also externally by bathing and rubbing them with it, and in every case, when it has been taken in any of the first stages of this disease, it has proved successful. I consider it an infallible remedy. I have not heard of any individual in any family, who used the Pain Killer when attacked, but what speedily recovered. The clerk informed me that he administered it to persons when cold and in the country, and it gave immediate relief, but still it should be given quickly, for when the discharge of "rice water" has begun, the hope of life has fled. Should this disease appear among you, as all probability will, be not alarmed; you and all others there have the remedy, and if you consider it the Pain Killer is used, not a death by Cholera will occur in your city. Respectfully yours, J. T. WOODWARD.

Those using the Pain Killer should strictly observe the following directions:— At the commencement of the disease, take a teaspoonful of the Pain Killer in sugar and water, and then bathe freely across the stomach and bowels, with the Pain Killer clear. Should the diarrhea or cramps continue, repeat the dose every fifteen minutes. In the early stages, the source may be checked, and the patient relieved in the course of a few hours. N. B. Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the Cholera, that in extreme cases the patient take two (or more) teaspoonfuls instead of one. Sold by all medicine dealers. 1018-31

NEW WORK

By the Author of the "SCHENBERG-COTTA FAMILY," "DIARY OF KITTY TREVILYAN," &c. Will be published December 1st, From the Author's Manuscript,

WINFRED BERTRAM, And the World She Lived In.

By the Author of the "SCHENBERG-COTTA FAMILY." One Volume 12mo., to match our three other volumes of the COTTA FAMILY SERIES.

The marked characteristics of the other volumes of this Series of Books, exhibiting the marvellous powers of the author over the moral fancies of her readers, giving these works such wide and deserved popularity, are conspicuous in this new production. It is the immediate successor of "Kitty Trevillyan," and the only work given to the public by its author since the publication by us of that volume a year ago.
