work wonders. Thirst.—In these and in all advanced cases

thirst creates intense suffering. The sufferer craves water, and as sure as he gratifies the

craving the worst symptoms return, and he

falls a victim to the transient gratification. The only safe way is, to have a faithful friend or attendant who will not heed his en-

treaties. The suffering may be, however,

safely alleviated and rendered endurable.

Frequent gurgling the throat and washing out the mouth will bring some relief. A

spoontul of gum Arabic water, or of chamo-

mile tea, may frequently be given to wet the throat. "Lyndenham's White Decoction"

In a day or two the suffering from thirst will

cease. In a large majority it has not been

of English sympathy. One of its Presbyters, Bev. S. D. Stuart, writes from London to the Central Presbyterian, that, through the good offices of the Earl of Shaftsbury, he has obtained for their Publication Board a donation from the London Tract Society, of about two hundred dollars' worth of specimen-books for its Publication Library; also a munificent donation of five large boxes of books and tracts, the value of which, he thinks, must be great; also the privilege of purchasing books for your Depositories at an advantageous discount for cash; and finally books for Sundayschool libraries, white and colored schools, at a discount still more favorable at subscribers' a discount of the same nobleman, he adds, "gave mea letter to another association, the precise title of which I do not at this moment retitle of which I do not at this moment re-member, where I was received in a most cordial manner. They said, I was the first person they had seen from the Southern States, in whose welfare they professed a deep interest, and I gave them the first in-

timation they had received from any source that Christians in the South were making any efforts to instruct the negroes. They had given a large grant to the Northern so-cieties, and could readily understand how we could manage the whole matter better than intruders, and in the kindest manner offered to send you a box of their publications."

United Presbyterian.—Rev. Dr. J. T. Cooper, of this city, has returned from his successful mission, (the establishing of a U. P. congregation in San Francisco.) and re-sumed his pastoral labors here. Rev. M. M. Cibson. of Sidney. Ohio goes to take the Gibson, of Sidney, Ohio, goes to take the permanent charge of the San Francisco enterprise. ---- The U. P. Presbytery of Kansas Christian Instructor, says :--- "It is impossible for the Presbytery, for the want of ministers, to comply with the calls for preaching. Who will come and help us? Young ministers, let me say to you, come and enter the Gospel of peace and salvation. Come and not only build up Zion's walls here, but come and build yourselves up with the country."

Congregational.-The Chicago correspondent of the Boston Recorder, says that in all the record of Congregational Church Extension in this country, there is, perhaps, no parallel to the success in Missouri, a success largely due to the grace bestowed upon our Brother Turner, the State Agent of the Home Missionary Society. He has been both wise and fortunate in the selection of pastors, gathering into his diocese a body of workmen who have no need to be ashamed. One of the pioneers of this pioneer band is Brother Charles H. Pratt, who is located at Brockfield. He has made a beginning which He was recently in Chicago, and brought fresh tidings of cheer from the rapidly ad-vancing "frontier."—Ecclesiasticism is gradually cropping out in the New England Congregational bodies. Witness the follow-'That it is eminently desirable that any benevolent society, hereafter formed within our denomination, and depending on it for support, shall make an official and responsible connection with the General Conference or Association of the State where it may originate."----The Congregationalist says, that in Oregon, during the last year, two new churches have been organized, one at Hillsboro,' of five members, and one at Astoria, of eighteen members. Our brethren there specify eleven places in that broad field which might repay partial possession of the region known as Los Angelos, and was about starting two Sunday-schools in that city. Rev. D. A. Johnson, formerly at El Paso, Ill., but a few weeks since at Dutch Flat, has gone some sixty miles beyond Los Angelos to San

THE CHOLERA. Dr. Hamlin, the well-known missionary of the American Board at Constantinople, writes the following interesting communication. His

experience with the cholera and the high esteem in which he is held, render his re-marks on this subject at this time invalua-ble ties, the deeply sunken eye, the vanishing ble :--pulse, are no signs that the case is hopeless. The cholera, which has just left us after

Scores of such cases in the recent epidemic have recovered. In addition to the second mixture, brandy (a tablespoonful every half hour,) bottles of hot water surrounding the committing fearful ravages, is making its way into Europe, and will probably cross the Atlantic before another summer has passed. patient, especially the extremities, sinapisms

Having been providentially compelled to have a good degree of practical acquaintance with it, and to see it in all its forms and stages during each of its invasions of Constantinople, I wish to make my friends in America some suggestions which may relieve anxiety,

or be of practical use. 1st. On the approach of cholera, every family should be prepared to treat it without waiting for a physician. It does its work so expeditiously, that while you are waiting for the doctor it is done.

2d. If you prepare for it, it will not come. I think there is no disease which may be avoided with so much certainty as the cholera. But providential circumstances, or the thoughtless indiscretions of some member of thoughtless indiscretions of some member of a household, may invite the attack, and the a household, may invite the attack attack at a household attack. challenge will never be refused. It will probably be made in the night, your physician has been called in another direction, and you must treat the case yourself or it will be fatal.

3. Causes of Attack.-I have personally held its annual meeting in Americus last investigated at least a hundred cases, and not month. A brother writing therefrom to the less than three-fourths could be traced directly to improper diet, or to intoxicating drinks, or to both united. Of the remainder, suppressed perspiration would comprise a large number. A strong, healthy, temperate, laboring man had a severe attack of cholera, vanguard. Here you can be as useful as in and after the danger had passed I was curi-any other place; and consider whether or not ous to ascertain the cause. He had been any other place, and consider whether of not your commission does not require you to go into this country and preach the everlasting Gospel of peace and salvation. Come and a good locality. But after some hours of hard labor and very profuse perspiration, he had lain down to take his customary nap right against an open window through which a very refreshing breeze was blowing. An-other cause is drinking largely of cold water when hot and thirsty. Great fatigue, great anxiety, fright, fear, all figure among inciting If one can avoid all these he is safe causes.

from the cholera as from being swept away by a comet. 4th. Symptoms of an Attack.-While cholera is prevalent in a place almost every one experiences more or less disturbance of diges-

tion. It is doubtless in part imaginary. Every one notices the slightest variation of feeling, and this gives importance to mere trifles. There is often a slight nausea, or Brookneld. He has made a beginning which promises large usefulness and a ripe maturity. He was recently in Chicago, and brought these. But when diarrhœa commences, though painless and slight, it is in reality the skirmishing party of the advancing column. It will have at first no single characteristic of Asiatic cholera. But do not be deceived. It is the cholera, nevertheless. Wait a little, give it time to get hold, say to yourself, "I tell perfectly well, it will soon pass off," and in a short time you will repent of your folly in vain. I have seen many a one commit

suicide in this way. Sometimes, though rarely, the attack com-mences with vomiting. But in whatever way t commences it is sure to hold on. It a very churches—211 more ministers than churches, and yet we have 319 vacant churches. If few hours the patient may sink into the col lapse. The hands and feet become cold and purplish, the countenance at first nervous and anxious, becomes gloomy and apathetic, although a mental restlessness and raging the labors of ministers, if ministers could be had. It adds: —"We have at last taken of life are ebbing. The intellect remains to the number of vacant churches, 530 amclear, but all the social and moral feelings Southern California. Rev. BOWEN'S DAILY MEDITATIONS.

2mo., 429 pp. \$1 75. Tinted paper, gilt edges, \$2 32. The author, Rev. George Bowen, grew up in New York City, a skeptic, but, "by a remarkable chain of providences," was led to Onrist, and has been for eighteen years a missionary in India.

"He became one of the most earnest and singleearted Christians we have ever known. The Bible was his book, and he searched it constantly, prayer-fully, for hidden treasures. If he had met yes on Broadway, he would stop you a moment to tell of some new beauty or sweetness he had discovered in the Divine word. Such a man's meditations are as water fresh from the fountain. They are deeply spiritual, and adapted to quicken the faith and love of the reader."-Herald and Recorder, Cincinnati.

Rev. William R. Williams, D.D., of New York, (Baptist), says, "It is a book of rare merit, marked by deep piety, insight into Scriptures, original genius, and uncompromising directness. I know of no hock of its class equal to it."

In this opinion heartily concurs the Rev. Themas M Skinner, D.D., who knew the author well while a student in the Union Theological Seminary.

Rev. E. E. Adams, D.D., of Philadelphia, and many others well qualified to judge, have commended the book in the strongest manner, and particularly for its reshness and originality.

LEAVES OF CONSOLATION.

Bernardino. Los Angelos contains a popula-tion of six thousand, and San Barnardino three thousand, and until two or three months since there was no Protestant ministry of any sort in either place.

Reformed Dutch .- The Board of Domes-tic Missions of the R. D. Church last summer, commissioned Rev. P. De Pree as Sundayschool missionary in Central Iowa. He has been on the ground since early in last Sep-tember, superintending Sunday-school instruction at some seven different points on the prairies, and maintaining preaching ap-pointments wherever congregations could be rewarded his work. One of these Sabbathschool organizations is already growing into a church, and some \$1500 have already been raised for a church edifice. The missionary reports that other neighborhoods heretotore destitute of religious privileges are rapidly preparing for this same result, but more help is needed in the field. Another missionary is needed at once. A minister who is adapted to the Sabbath-school work, and who is able to preach in both the Holland and English inguage, would find a most inviting field of abor.-Chr. Intell.

Miscellaneous.—The Cincinnati Union Bethel is doing a noble work in that city. It sustains, by the voluntary agency of laborers connected with the Christian Churches, a abbath-school of two thousand five hundred nrolled scholars, with an average attendance one thousand two hundred. A Mother's Class and a Young Men's Bible class are also maintained, and a free reading-room is open, and is becoming a place of frequent resort. ome of the teachers of the Sabbath-school levote much time to missionary visitation, one of their number frequently visiting as many as forty families a week. Rev. F. Southworth, Seaman's Chaplain at Portland, appeals to the public for help to rebuild the chapel. He says :-- "Among the sufferers by the late terrible fire in this city, there is a class not reached by the munificent bounty poured in so generously from every quarter for general distribution, and who will be slow to plead their own cause. I refer to the men the sea. The Bethel built and maintained them is destroyed. More than 30,000 ailors annually visit this port; their house worship must not lie in ashes. But the and men and women of Portland, who under dinary conditions would rejoice to rebuild can do next to nothing. In this crisis our ^{ap} must come from abroad.

AN UNMITIGATED STUPIDITY .--- The ^{pro-slavery} spirit has many features in ^{common} with Romanism, and none of hem are more glaring than its abhortence of enlightenment. Witness, for

fual, nor all the different races of men, Some of them were born and destined to be servants under the care and guardianship of

sends for a physician, and before he arrives 'dies as the fool dieth."

COURSE OF TREATMENT.

1. For Stopping the Incipient Diarrhoea. The mixture which I used in 1848 with great success, and again in 1865, has, during this epidemic, been used by thousands, and although the attacks have been sudden and violent, it has fully established its reputation for efficiency and perfect safety. It consists of equal parts, by measure, of laudanum, spirits of camphor, and tincture of Rhubarb. Thirty drops for an adult, on a lump of sugar, will often check the diarrhœa. But to prevent its return, care should always be taken gathered. His labors have been arduous, but to continue the medicine every 4 hours in the Lord has upheld his strength and greatly diminishing doses, 25, 20, 15, 10, 9, when careful diet is all that will be needed.

In case the first dose does not stay the diarrhœa, continue to give in increasing doses 35, 40, 45, 50, at every movement of the bowels. Large doses will produce no injury while the diarrhœa lasts. When that is checked then is the time for caution. I have never seen a case of diarrhoea, taken in season, which was not thus controlled, but some cases of advanced diarrhœa, and especially of relapse, paid no heed to it whatever. As soon as this becomes apparent, I have always resorted to this course : Prepare a teacup of starch, boiled as for use in starching linen, and stir into it a full teaspoonful of lauda-num for an injection. Give one-third at each movement of the bowels. In one desperate case, abandoned as hopeless by a physician, I could not stop the diarrhœa until the seventh injection, which contained nearly a teaspoonful of laudanum. The patient re-

covered and is in perfect health. At the same time I used prepared chalk in ten-grain doses with a few drops of laudanum and camphor to each. But whatever course is pursued, it must be followed up, and the diarrhœa controlled or the patient is lost. 2. Mustard Poultices. — These should be

applied to the pit of the stomach, and kept on till the surface is well reddened. 3. The patient, however well he may feel, should rigidly observe perfect rest. To lie quietly on the back is one-half the battle. In hat position the enemy fires over you, but

the moment you rise you are hit. When the attack comes in the form of diarrhœa, these directions will enable every

one to meet it successfully. 4. But when the attack is more violent, and there is vomiting, or vomiting and purging, perhaps, also, cramps and cholic pains, the following mixture is far more effective and should always be resorted to. The missionaries, Messrs. Long, Trowbridge, and Washburn, have used it in very many cases, and with wonderful success. It consists of equal parts of laudanum, tincture of capsicum, tincture of ginger, and tincture of cardamon seeds. Dose, 30 to 40 drops, or half a tea-spoonful in a little water, and to be increased according to the urgency of the case. In case the first dose should be ejected, the second, tonce of enlightenment. Witness, for example, the following odorous breath from the carcass of the peculiar institu-tion, sent along by a late number of Dr. Converse's Christian Observer :---"The world will yet learn---if it survives the wickedness and folly of the nineteenth entury--that God has not 'created all men tyual,' nor all the different races of men. bome of them were horn and destined to be

dred supply two or three churches each. Half of this number (say 120) must be added to the 530 above. This makes 650. That is, to put the statement in another form, 1209 of our churches are supplied by about 1087 of our ministers. And this subtracted from the whole number 1739 leaves 650 or considerably more than one-third of the minsters who are not in charge of churches. directions :---

What are they doing? Fifty-two are Foreign Missionaries. That is is all right as far as it goes. It ought to be two hundred and fifty-two however. Seventy-four are Professors or Teachers. Seventy-eight are Secretaries or Agents.

Seven are Editors. The whole number of Foreign Missionaries, teachers, agents and editors is 211, just the excess of ministers over churches.

Take 211 from 650 and we have 439 ministers, out of 1739, who are without charge; one-quarter of our ministers are neither pastors, stated supplies, missionaries, agents, editors or teachers. Of this number, perhaps, 139 are superannuated. This is probably a very large estimate. Then 300 are left without charge who are physically able to preach the gospel, who have been ordained to preach it; and 319 churches are vacant. What are these 300 ambassadors doing? And are they to blame in this matter, or are the churches? We give the facts and figures. Let those interested ponder them. -- Christian Herald.

THE PLUMB-LINE PAPERS. AGRANT

THE PLUME-LINE PAPERS. " Being a Series of Escays, or Oritical Examinations of Difficult Passages of Scripture; together with a Careful Inquiry into Certian Dogmas of the Chareful Part Edition. Wm. J. Mosces: Auburn, N. Y. KIND READER: Would you like to see it deman-ticat of the Dial of Ahas, are evidently a mistransi-tion?—the Stopping of the Sun and Moon by Joshna an siterpolation? and that the word of God contains nothing of theses, as they are in our common Transla-tion? Would you like to inquire, among the institu-tions of Jesus Christ, for certain dogmas of the Church, and not find them there? Would you see in what sense men are born in the Image of God? Be-sides, Infidelity has assorted, that if the dead were to rise to-day, and to occupy as much space as when they were alive, they would cover the whole earth to the depth of some eight or ten feet; would you see in and daughter of Adam? The above-named Beetwill will do this and something more; you may obtain it forward it to you post-paid. When you have read it, if you do not find it so, return the Book and I will refund the money. T. M. HOPKINS, Geneva, M. Y.
