

of every human interest for time and eternity. To obey law, respect justice, and submit to government, is to secure it as a perpetual friend, but to dishonor the majesty of law, and defy the government, is to become an object of the sorest displeasure, and to be visited with the heaviest blows.

prosperity—and that is, the most sacred devotion to liberty—personal freedom, and the inalienable rights of man. A departure from the principles of the immortal declaration of our national independence made war a necessity—and if anything has been settled by war it is that we must be true to the spirit of that instrument or perish from off the earth.

to another, the echoes coming back to them from distant caverns long after the sound of the discharge had ceased. In another they sang Old Hundred, which sounded like the roll of hundreds of voices as it echoed through the forest of stalactites high up in the dome of the chamber.

Leading rebels have been pardoned to take places of power, and used to crush the honest and devoted lovers of their country's flag. This method of restoration has been practiced since the vilest criminals no longer bend the suppliant hinges of the knee, but insolently demand pardon and place and back pay.

Religious Intelligence. PRESBYTERIAN. Presbyterian Centenary.—In the year 1766 Presbyterianism was introduced into the country west of the Allegheny mountains.

Baptist.—There has been a recent effort in behalf of the Grand Ligne (Canada) Mission, formerly Madame Feller's, among the Baptist churches in this city, under the auspices of the Ladies' Philadelphia Association for its aid.

THE OLD FOLK CONCERTS.—The musical entertainments under this name, now going on in our city, are well worth the attention of our readers. They are refined in character, admirable in performance, not beyond the enjoying by persons of simpler, as well as agreeable to more cultivated tastes, and with a sufficient mingling of the comic, the grotesque and the antique to make them a genuine novelty in the way of concerts.

GROVER & BAKER'S SEWING MACHINE. This machine is already so well and favorably known to the public, that commendation is superfluous. Its merits have long since given it a foremost place among the few machines accounted the best; and the purchaser has the advantage in buying the GROVER & BAKER, of a choice of stitches, taking either the No. 23 Double Lock, Elastic Stitch Machine, complete with a set of Hemmers and Braider, or the No. 9 Shuttle Machine without Hemmers.

Special Notices. Commentaries.—We cannot speak in too high terms of COE'S DYSPEPSIA CURE. It is a well-earned and invariably cures. Why will you suffer from Dyspepsia, Indigestion, and disorders of the Stomach and Bowels, when so good a remedy can be obtained so easily.

Our government is a government for men. Not for one class, or race, or color—but for men. And it is unnatural that men in such a government should be deprived of their political rights and privileges. Says the same profound French writer I have already quoted, "It is impossible to believe that political equality will not eventually find its way into the political world as it does everywhere else.

United Presbyterian Church.—The Christian Instructor says of the United Presbyterian Church in Pennsylvania:—"While there are twenty-five congregations that do not report the number of their members at all, and others that did not report last year, there are 158 congregations, 158 ministers, and 158 members in Pennsylvania. Had we the members of the twenty-five congregations reporting, we feel sure the number would be much over 25,000."

Non-Evangelical.—The fusion of the Unitarians and Universalists is gradually progressing. A few days since a meeting was held in Brooklyn, N. Y., of delegates from several of the Unitarian and Universalist Societies of that city. The place of meeting was the chapel of the Church of the Restoration.

There must be respect for labor, the inheritance of our race, all over this land, before the wastes will be built and the desolations repaired. In all that portion of the land where rebellion grew and ripened, labor and laborers have been disreputable. This is the natural and necessary growth of that theory which holds that capital must own labor.

It is scarcely needful for me to say that a leading element in this work of repairing the waste cities, must be school-houses, schools, and popular education. But for the most total absence of these institutions throughout the rebellious States, we had not seen the decay of years of war. The general education of the people has always been held as an essential element of our success and performance as a free republic.
