also quelled in us the spirit of revenge. that down-trodden, yet patient, African race, so long held in cruel bondage. We neither ignore, nor deny, the magnitude and the difficulty of the new problem in human history, with which we a c now brought face to face. Can an inferior and long oppressed race, be thus suddenly brought to a condition of civil and political equality, without endangering the social fabric? This is an untried question. It is the one we must meet and solve. In this dim and perilous way, our light must come from faith rather than from experience: but this is also the condition of all civil and moral progress, for progress implies trust in the future rather than in the past. The prime necessity in respect to the four millions of negroes, thus suddenly invested with new rights and duties, is that they be educated into complete fitness for their new position. And this work must be speedily accomplished. For the immediate exigency, the national Government has made some provision, in an exceptional way, by establishing the Freedmen's Bureau, under the intelligent and able management of Major-General O. O. Howard, This Bureau protects the freedmen in their civil rights; gives rations to the needy, both white and black; and has a certain supervision over the schools for the negroes. It expended last year over four millions of dollars, issuing some thirteen and a half millions of rations, and giving hospital treatment to 170,000 persons. For the present year, the estimate of extra rations, in consequence of the failure of crops, is over two millions. The last Report of this Bureau (June) in respect to Freedmen's Schools, at the South, gives the number of teachers as 1,744, and of pupils 95,987. Of the 1.200 schools reported at the beginning of the year, 833 were already self-supporting, and 290 were partially supported by the freedmen; of the teachers, 458 were colored and 972 white. There were also 17 Industrial Schools with 1,279 pupils; 575 Sunday-schools, with 52,409 pupils; and 11 Normal Schools (for teachers) with 581 pupils. The funds for the support of these schools come from private charity. Two large associations are especially engaged in this work : the American Missionary Association, and the American Freedmen's Union Commission- The receipts of the Association last year were \$253,-000; it has 508 missionaries and teachers among the freedmen; scholars 38,719; in Sabbath-schools 18,010. from ourselves. He has not destroyed us, be- Could the Church meet the emergency as well as cause we trusted in Him, and cared for those for the State? This question was not on the surface of whom He cares. In the hour of our victory He the conflict, but it was at work in the very heart of our life. And, in general, we may say, with devout thanksgiving to the Great Head of the Church, that He has led us, and cared for us, and bound anew the chaplet of victory upon the brow of his contesting bride. Our American Christianity, with whatever there is distinctive in it, has not become disintegrated, nor has it succumbed, but it has rather been an effectual aid to the State in the saving of the land; it has held up full high advanced the great moral is-

sues of the strife; it has helped to swell, beyond all previous measure, the sum and volume of philanthropic labors and contributions for the relief of the sick, the suffering and the dying : while at the same time it has largely increased its collections for its own special objects, strengthened and compacted its organizations, remained steadfast in its faith and order, and is left, at the close of the war, more strong for its vast future work, and making larger preparations for that work, than ever before. And in all this we recoguize and adore the good hand of our God upon us. The War of the Revolution left the churches, eight years back, enfeebled and distracted, for they were then entering upon the untried career of separation from the state. Our distinctive American Christianity has been built up on the basis of that separation, and now, after a sterner trial than ever before, we are more than ever convinced, that for the churches of our land this is the way of safety and of growth. There was here no precedent and no analogy.

Those accustomed to the compact, external unity of a state-church might easily hope or fear, that our many external divisions were signs of internal weakness, and that we should be disintegrated by the violence of the civil commotion and strife. Of this fear we were not ourselves conscious; and the progress of events has shown that the ecclesiastical tendencies, in the midst of our civil strife, have looked in the direction of re-union rather than of increased subdivisions. The special and determining characteristic of

DR. C. M. JACKSON-Dear Sir: I feel it my pleasure thus, of my own accord, to bear testimony to the ex-cellence of the German Bitters. Some years since, being much afflicted with Dyspepsia, I used them with very beneficial results. I have often recommended them to persons enfeebled by that tormenting disease, and have heard from them the most flattering testimonials as to their great value. In cases of general lebility, I believe them to be a tonic that cannot be

Pemberton, N. J., formerly of the North Baptist Church, Philadelphia; at present Pastor of the Baptist Church, Chester, Pa.

I have known Hoofland's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner.

I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the disease for which they are recommended to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink." Yours, truly, LEVI G. BECK.
