The importation of rags from the Mediterranean, hides from Brazil, and other commodities from the tropics, is known to bring the germs of disease, chiefly fevers, which are sometimes very afflicting and fatal. AYER'S AGUE CURE stimulates the Liver to excrete these germs from the system as effectually as it does the miasmatic poison of our Ague districts. Consequently it affords invaluable protection to stevedores and others whose occupations expose them to these dangerous infections; and we hope to render them a valuable service in giving them this information.-[New York Des-TO THE LADIES.
