EARNINGS OF THE COMPANY. At present the profits of the Company are derived only from its local traffic, but this is already much, more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and ted the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates. It will be noticed that the Union Pacific Bailcoad is, in fact, a Government, Work, built, under the supervision, of Government, officers, and too, large extent with Government money, and that its,
