Aems of the Meek.

XLth CONGRESS-First Session.

Senate.-May 12.-The Court adjourned until Saturday, without voting on the articles, on motion of Senator Chandler, of Michigan, who stated that his colleague, Senator Howard, was too ill to be in his seat. The House bill relative to the charter of Washington was passed with an amendment.—[Col. John W. Forney has tendered his resignation as Secretary of the Senate, to take effect as soon as a successor is elected.] The House bill admitting Arkansas, was referred to the Judiciary Committee, Mr. Trumbull pledging its early consideration.

May 16.—The vote was taken on the Eleventh Article, and resulted in the acquittal of the President on that article. The vote stood 35 for conviction, against 19 for acquittal, 36 votes being required to convict. The Republican Senators who voted not guilty were Fessenden, of Maine; Trumbull, of Ill.; Grimes, of Iowa; Henderson, of Mo.; Ross of Kansa, and Van Winkle, of W.Va. Senator Wade voted for conviction. The Court, without acting on the other articles, adjourned until the 26th instant. Senator Ross especially disappointed the Republican party. The N. Y. Tribune, formerly a warm advocate for the Chief Justice, as a candidate for the Presidency, says: "The man who has done more than all others, unless in a pecuniary way, to secure this result, is Chief Justice Chase. He decided the vote of Mr. Van Winkle. He did his utmost—happily in vain—to carry off Messrs. Anthony and Sprague. We doubt if Mr. Henderson would have voted as he did but for the Chief Justices exertions." The N. Y. Sun says: "Secretary Stanton still remains in the War Department, and will stay there until some more definite action is taken by the Senate on the impeachment articles." In the legislative session of the Senate the bill

admitting Arkansas was reported. May 18.—Leave of absence was granted Mr. Grimes on account of his illness. The Reconstrucresolution offered by Mr. Doolittle declining to furnish certified reports of the last two days of the Im-

peachment trial, was disagreed to.

House.—May 12.—A bill declaring that American iron only shall be used in constructing the Pacific Railroad was passed; also a frequential regulating

the tariff on the same road.

May 13/—The bill admitting to representation the
States of South Carolina, North Carolina, Louisiana, Georgia and Alabama was debated until ad-

May 14.—The bill admitting to representation the States of Alabama, Louisiana, Georgia, and North and South Carolina, was passed by a vote of 108 to 35; Messrs. Loan, Peters, Baker, and Thomas Williams voting "No." The motion to strike out Alabama failed by a vote of 74 to 60. The amondment providing that no State should make laws discriminating unequally as to civil and politi-cal rights and privileges against any citizens of the United States entitled to vote under these constitutions, was carried over Mr. Stevens' original pro-

May 16.-Mr. Bingham reported a resolution directing the Impeachment Managers to investigate charges of corrupt means being used to influence

Senators, which was agreed to.

May 18.—The Senate was requested to direct that a certified copy of the proceedings of the last two days of the Impeachment trial be sent to the House. A resolution, offered at the request of the Missouri members, was adopted, providing for a select committee to investigate the alleged attempts of the Missouri delegation to influence Senator Hender-

Supreme Court.—The trial of Suratt, has been postponed until the next term of the Court. Judge Cartter refused to bail Suratt, on the ground that the prosecution was ready to prodeed with the trial.

Political.—Twenty-seven Republicans and five Democrats have thus far been elected to Congress from the reconstructed States.

Treasury.—The customs receipts from the 1st to the 9th of May, at Boston, New York, Philadel-phia and Baltimore, amount to \$3,769,841. Financial.—The specie shipped to Europe from

New York on Saturday amounted to \$1,804,000.

Army.—Sergeant Frank Forester, of the 29th
U. S. Infantry, as a joke, wrote to Moseby proposing a raid on Congress. For his pains he has been sentenced to be reduced to the ranks and to lose a por-

tion of his pay.

Crops.—Reports from Arkansas and West Tennessee are very encouraging. The corn is nearly knee high, and of a good color. The cotton crop is also in a fine condition.—The Cotton crop of the coming season is estimated at 2,200,000 bales.

STATES AND TERRITORIES.

. Massachusetts .- The lower House have passed, over the Governor's veto, the bill abolishing the State Constabulary, by 145 to 62.

New York.—City.—Wm. B. Astor is set down as having an income of \$977,452 for 1867.—The Buffa-

lo Supreme Court has decided against the right of colored children to attend any school excepting those designed for them exclusively.

Ohio.—The Legislature has rejected a bill provi-

ding for the removal from office of persons who are unable to perform their duties on account of habitual intoxication.

Mississippi.-The new Constitution framed by the Convention was signed May 15th by that body.

The Convention adjourned May 18.

BY ATLANTIC TELEGRAPH.

May 12.—London, evening.—In her reply to the petition of the House, based on Mr. Gladstone's third resolution, the Queen says she desires that her interest in the temporalities of the Irish Church will not in any way hinder Parliamentary legislation on that subject.—Constantinople.—The Sultan opened the new Council yesterday in a speech, remarkable for its liberality. He said the time had come when the Turkish manners must yield to European civalization.

May 13.—London.—Charles Francis Adams took leave of the Queen at a special audience to-day.

May 14.—London.—In the Commons the bill
to suspend the making of appointments in the Irish Church passed to a first reading. The bill is to remain in affect until August 1, 1869.—Paris.—M. Thiers yesferday made a speech, in which be took ground in favor of the protection of home industry. Bottin.—The budget of the North German Confederation estimates the total expenditure for the ensuing fiscal year at 73,000,000 thalers, 70,000,000 being for the military and marine. The income trom customs levied by the Zollverein, postal and telegraphic services, and other sources, is 50,000,-000 thalers. The States contribute the balance, according to their quotas, apportioned by the Constitution.—Vienna.—The bill guaranteeing the right of trial by jury passed the lower House of the

Reichsrath yesterday.

May 15.—London.—A deputation yesterday presented an address to the Queen from the Hierarchy of the Irish Church in regard to its disestablishment. The Queen replied in vague terms.—Midnight.—In the Commons, this evening, John Bright presented a petition from the people of Nova Scotia, praying Parliament to repeal the act by which that Province was united to Canada. The petition denounces the Canadian Union as one of evil, uncalled for and unjust. The 26th was assigned for debate on the subject. An Athens despatch says that the Sphakiote mountaineers claim that, in the recent conflict, the Turks were defeated and driven to the coast.—Latest from Japan. The civil war was vig-

orously prosecuted. The army of the Mikado has arrived at a point near Jeddo. —Paris. —In the Corps Legislatif the debate on commerce was continued. Forcade, Minister of Commerce, declared that France would not adopt a retrograde policy. —Gen. Failly, commanding the encampment of Chalons, in an address to the troops saye, war being possible, the labors of the camp must be serious and unremitting. —Eevening. —An ultimatum has been despatched by France to the Bey of Tunis.

May 18. —London. —The Government was again beaten on two comparatively unimportant motions. Time to consider was asked by D'Israeli.

FOREIGN.

South America. —Another rebellion has been suppressed in Bolivia. The slaughter in the engagements at Fort Humaita, Paraguay, is represented as terrible. The cholera was disappearing from Buenos Ayres, after having killed 27,000 persons there and in it esurrounding country. —The rebellion in Venezuela is gaining strength. The Congress, at last accounts, had not met for want of a quorum.

Sandwich Islands. —A terrible eruption of the volcano of Mauna Log, commenced on March 27th. Earthquakes preceded and, accompanied the eruption, and the coast was swept by an ocean wave. The lava from the mountain flowed into the sea, pushing out a mile from the shore. The destruction of life and property was great.

THE PACIFIC RAILROAD.

The progress of the Pacific Railroad is so steady, that no one wonders at its rapidity. Few consider, ewer still estimate the grandous of the fact, that both ranges have been surmounted. The Sierra Nevada Mountains were regarded as the great ob-stacles to its construction. These have now been overcome by the Central Pacific Railroad Company, and the locomotive is now advancing across the Salt Lake Basin, to meet the Union Pacific Railroad, which is successfully crossing the Rocky Mountain ridges. The interval remaining to be constructed presents no engineering difficulties equal to those already overcome. It is confidently prelicted that the whole line will be open for business in about two years from this time.

Accustomed as we are getting to the story, the Pacific Railroad is the marvel of our day. Nor can we easily exaggerate its effect on the development of the interior of the continent, and on the course of the commerce of the world, and the boldest can hardly overestimate the financial success of the

companies which control it. It will be seen by the advertisement in another column that the completed portion of the Central Pacific is already earning vastly more than its expenses and the interest on its bonded bebt. The First Mortgage Six-Per Cent. Gold Bonds on that end of the line are offered at par and accrued inter-

These volumes have been unanimously welcomed as in every spect worthy additions to a Commentary now acknowledged to be

to all biblical students who aim to keep abreast of the times. The volume devoted to Genesis, in particular, is recognized as the iblest exposition ever made of this important part of the Holy scripture, and it stands by itself as one of the most thorough and exhaustive defenses ever written of the harmony which exists , be tween the Mosale account of the Creation and the developments of modern scientific investigation.

"The issue of this volume ('Genesis') may, without exaggeration be described as an exact in the history of Old Testament exegesis in England and America."—American Presbyterian.

"The tone of this Commentary (Genesis) in regard to the great uestions between science and religion, philosophy so called, and heology, is thoroughly reverent. It proceeds on the basis of the idea that the God of reason and the God of Revelation is one and the same, and cannot contradict himself; and that all difficulty that sometimes seems to rise toward apparent contradiction be tween them is due to our imperfect knowledge and comprehension of the book of nature, or of revelation, or of both. We think that careful hiblical scholars will find more with which to refresh and instruct themselves in this volume than in any which the press has ssued for a very long period."—" Boston Congregationalist."

THE: UNION PACIFIC

RAILROAD COMPANY OFFER A LIMITED AMOUNT OF THEIR

First Mortgage Bonds AT PAR,

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

The Great Pacific Railroad Line, extending 1721 miles from Omaha, on the Missouri River, to the tide-waters of the Pacific Ocean, is being built by two powerful Companies—The Union Pa-orric, beginning at Omaha, building West, and the Central Pa cific of California, beginning at Sacramento, building East, until the two roads shall meet. Both Companies have prosecuted the work with great vigor, the Union Pacifiic having already expended over

THIRTY MILLION DOLLARS,

and the Central over Twenty Millions, upon their respective parts of the undertaking. THE UNION PACIFIC HAVE COMPLETED 560 MILES—have iron and other materials for two hundred miles nore upon the ground, and one hundred additional miles are ready for the track. They will have a much larger force employed this year than ever before, and it is expected that between

800 and 900 MILES will be in operation during 1868. There seems to be no reasonable loubt that the distance between Omaha and Sacramento will be traversed by rail in 1870.

THE GOVERNMENT GRANTS 12,800 acres of land, and its Bonds to the average amount of \$28,000 per mile, to aid in the construction of the line, and authorizes the issue of the First Mortgage Bonds now offered for sale, to the same amount and no Government takes a sec Mortgage Bondholders a prior lieu for their security, to which a large paid-up capital is added. The Bonds cannot be issued except as each section of twenty miles is accepted by Government cor

nission, so that they always represent a real property. It is universally admitted that on the completion of the Union Pacific Railroad, its through business will make it one of the more profitable in the world-but its way or local business is already everal times the interest on its bonds; so that, if not anothe mile were built, they would be a secure investment. THE NET KARNINGS for eight months of last year on an aver

age of 356 miles are officially reported at \$1,069,136, while the interest on all the Bonds it could issue on that length of road for that time, reduced to currency, was only \$345,856. The amount paid by the Government for the transportation of troops, munitions, stores and mails has been, and doubtless will ontinue to be, much more than the interest on the United States Second Mortgage Bonds. If it is not, the charter provides that after the road is completed, and until said bonds and interest are

paid, at least five per cent. of the net earnings of the road shall be applied to such payment.
The Union Pacific Bonds are for \$1,000 each, and have coupon. ttached. They have thirty years to run, and bear annual interest payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bond, pay an annual income on their cost of NEARLY NINE PER CENT.,

AND IT IN BELIEVED THAT THEY WILL SOON BE AT A PREMIUM.

The Company have but a very limited supply of their Bonds remaining on hand, but any subscriptions accepted to a greater amount than can be filled from Bonds now in the Company's possession, will be supplied from the New Bonds to be issued on that portion of the road completed in the Spring, in the order in which

they are received. The Company reserve the right to advance the price of their onds to a rate above par at any time, and will not fill any orders r receive any subscriptions on which the money has not been acually paid at the Company's office before the time of such advance Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum from the date on which the last coupon was paid. more and more muanicu, so that I could be added to the pain. By the advice of my physician, to whom you had shown your process of purifying the Oil, I commenced its use the last week in June. The first application allayed the itching and irritation. In three or four days the redness and tenderness disappeared; the hair ceased to fall; and I have now a thick growth of new hair. Yours, very truly, SUSAN R. POPE.

When the hair came off she had been afflicted with neuralgia in her head for three years. She had used, during that time many powerful applications. These, with the intense heat caused by the pains, burned her hair so badly that, in October, 1861, it all came off, and for two years after, her head was as amount as her face. Through the recommendatiod of a friend, she was induced to try your Cocoains, and the result was astonishing. She had not used half the contents of a bottle before her head was covered with a fine young hair. In four months, the hair has grown several inches in length, very thick, soft and fine, and of a darker color than formerly. She still continues the Cocoaine, and we have little fear of her losing her hair.
