Diplomatic.—Hon. Anson Burlingame and the Chinese Embassy arrived, May 24, in New York, on their way to Washington.

Bills.—The President has approved the bill making appropriations for the expenses of the impeachment trial.

The impeachment Managers continued their investigations, examining witnesses and telegraph despatches. Senator Henderson refuses to obey their subpoena.

Political.—The National Soldiers' and Sailors' Convention met at Chicago, May 19th, twenty-three States being represented by large delegations. Gen. Logan reported resolutions, which were unanimously adopted, nominating Gen. Grant for President, assuring the Senators who voted for President Johnson's acquittal, and demanding that the Government shall extend protection to naturalized citizens.—The National Republican Convention met at Chicago, May 20. Gen. Joseph R. Hawley, of Conn., was elected President.—May 21.—General Grant was nominated for President on the first ballot by a unanimous vote. Schuyler Colfax was nominated for Vice President on the fifth ballot by 522 votes, and on motion his nomination was declared unanimous. The platform adopted congratulates the country on the success of the Congressional Reconstruction policy; declares that equal suffrage must be maintained in the South, while the suffrage question in the loyal States must be left to the people of those States; declares for gold payment of the public debt, with a reduction of the interest, and for the equalization of the taxes; and urges the course of President Johnson, and urges his impeachment, and urges the protection of naturalized citizens, and the encouragement of immigration.

STATES AND TERRITORIES. Massachusetts.—The bill abolishing the Constabulary has failed to pass the Senate over the Governor's veto.

BY ATLANTIC TELEGRAPH.

May 19.—London.—Hungary asks treaty-making power to negotiate with the U. S. a convention by which she may participate in the benefits of the North German treaty for the protection of naturalized citizens.

May 20.—London.—The Government has forbidden the deposition of Colonel Bishop of Natal. Paris.—In the Corps today, Minister Rouher declared that France would not renounce the treaty with Great Britain, nor forego the advantages of free trade treaties.—Berlin.—The Zollverein Diet has refused to impose a tax on Petroleum.—Vienna.—The Emperor has given assent to the law establishing the legal equality of religious sects.

May 21.—London.—In the Commons to-night, the Scotch Reform bill was up. A clause excusing from payment of rates on condition of not exercising the franchise, was proposed by Mr. Disraeli. The Queen has gone to Scotland, and her absence during the Ministerial crisis is censured by the press.—Mr. Eyre, late Governor of Jamaica, has been held for trial on charges preferred against him in Paris.—The Monitor gives despatches from Paraguay. President Lopez held the mouth of the Tiguary river, and had announced his intention and readiness to dispute every inch of the road to the capital.

May 22.—London.—In the Commons last night, an amendment to the Scotch Reform Bill, that the number of Scotch members of the House of Commons be increased by taking the franchise from some small English boroughs, was carried against the ministry.—In the Commons to-night the Irish Church Suspensory Bill was passed to a second reading by a majority of 54, and a motion for its discussion in Committee, June 5, was carried without division.—Mr. Reardon, member for Athlone, gave notice that he would propose to the Government the following question:—If the health of the Queen is such as to detain Her Majesty in London, why do not the Ministry advise abdication? The question was ruled out of order.—In the case of Home, the American spiritual medium, in Chancery for a long time Home has to repay Mrs. Lion the \$20,000 and costs, on the ground that undue influence and hallucination induced her course to make it over to him.—A despatch from Rome says the Pope has invited Bishops of the United States to raise 1000 volunteers for the Papal army, authorizing them to make such terms with recruits as they may deem proper. [Very unlikely.]

May 23.—London, evening.—From Sidney Prince Albert had left for England in command of his ship the Galatea.—It was quite well, Farrell, was executed April 22.—A despatch from Napier, in Abyssinia, (Afsiang, May 5) says the advance had reached the coast, and had already embarked for Bombay. The rest were being hastened forward and would be shipped as rapidly as possible. The wounded are doing well. The troops are in good health.—Berlin.—The Zollverein Diet has adjourned. King William said that he hoped the results of the session would strengthen the sentiment of mutual trust between the people of the various States, and prove that the Germans, though apart in some interests, were one people in warm brotherly feeling.

May 25.—London.—Great Britain has officially urged a general disarmament, as has Austria.—The rear-guard of the army in Abyssinia was at Antal, May 13. The rainy season had come on, but the troops were being rapidly embarked. No lives lost at Magdala.—Vienna.—The Imperial assent has been given to the bills establishing public schools and legalizing civil marriages.

FOREIGN.

England.—The London Times says, that since the extensive shipments of manufactured goods to America, in 1855, which produced good returns for the sum of that year, the American markets have been over-supplied, both with foreign and home

manufactures. The transactions of the spring of 1858 have not been so unsatisfactory, and now apparently there exists a more hopeful feeling for the future; but the autumn trade will be interfered with by the Presidential election.

Haiti.—Another rebellion has broken out, and President Salnave, who so recently set up a successful revolution, has been compelled to fly from Cape Haytien, and his power will soon be at an end. From Port au Prince, the American Minister has sent for an American war vessel, to protect the interests of American citizens at the former place.

Abyssinia.—Magdala was burned to the ground by Napier. There were no houses of a permanent character, no trades, no industry, no markets to suffer from conflagration. It was a mere fortress—a stronghold where a savage chief concentrated his forces, displayed his power, and exercised his capricious cruelties.

Canada.—Among the bills passed by Parliament and reserved by the Governor General for the Queen's action, is the extradition treaty between Canada and the United States.

THE CHICAGO PLATFORM.

I. We congratulate the country on the assured success of the reconstruction policy of Congress, as evinced by the adoption, in the majority of the States lately in rebellion, of constitutions securing equal civil and political rights to all, and it is the duty of the Government, to sustain those institutions and to prevent the people of such States from being remitted to a state of anarchy.

II. The guarantee by Congress of equal suffrage to all loyal men at the South was demanded by every consideration of public safety, of gratitude, and of justice, and must be maintained; while the question of suffrage in all the loyal States properly belongs to the people of those States.

III. We denounce all forms of repudiation as a national crime; and the national honor requires the payment of the public debt, in the utmost promptness, good faith to all creditors at home and abroad, not only according to the letter, but the spirit of the laws under which it was contracted.

IV. It is due to the laboring nation that taxation should be equalized and reduced as rapidly as the national faith will permit.

V. The national debt, contracted as it has been for the preservation of the Union for all time to come, should be extended over a fair period for redemption; and it is the duty of Congress to reduce the rate of interest thereon, whenever it can be honestly done.

VI. That the best policy to diminish our burden of debt is to so improve our credit, that capitalists will seek to loan us money at lower rates of interest than we now pay, and must continue to pay so long as repudiation partial or total, open or covert, is threatened.

VII. The Government of the United States should be administered with the strictest economy; and the corporations which have been shamefully nursed, and fostered, by Andrew Johnson call loudly for radical reform.

VIII. We profoundly deplore the untimely and tragic death of Abraham Lincoln, and regret the accession to the Presidency of Andrew Johnson, who has acted treacherously to the people, who elected him, and the cause he was pledged to support; who has usurped high legislative and judicial functions, who has refused to execute the laws; who has used his high office to induce other officers to ignore and violate the laws; who has employed his executive powers to render insecure the property, the peace, liberty and life of the citizen; who has abused the pardoning power; who has denounced the National Legislature as unconstitutional; who has persistently and corruptly resisted, by every means, the power given proper, attempt at the reconstruction of the States; lately in rebellion; who has perverted the public patronage into an engine of wholesale corruption; who has been justly impeached for high crimes and misdemeanors, and properly pronounced guilty thereof by the votes of thirty-five Senators.

IX. The doctrine of Great Britain and other European powers, that because a man is once a subject he is always so, must be resisted at every hazard by the United States, as a relic of feudal times, not authorized by the laws of nations, and a war with our national honor and independence. Naturalized citizens are entitled to protection in all their rights of citizenship, as though they were native-born, and no citizen of the United States, native or naturalized, may be deprived of his rights, and imprisoned, by any power, or under any pretext, not spoken in this country; and if so arrested and imprisoned, it is the duty of the Government to interfere in his behalf.

X. Of all who were faithful in the trials of the late war, there were none entitled to more special honor than the brave soldiers and seamen who endured the hardships of campaign and cruise, and imperiled their lives in the service of the country; the bounties and pensions provided by the laws for these brave defenders of the nation are obligations never to be forgotten; the widows and orphans of the gallant dead are the wards of the people—a sacred legacy bequeathed to the nation's protecting care.

XI. Foreign immigration, which in the past has added so much to the wealth, development, and resources and increase of power to this Republic, the asylum of the oppressed of all nations, should be fostered and encouraged by a liberal and just policy.

XII. This convention declares itself in sympathy with all oppressed peoples struggling for their rights. On motion of Carl Schurz, the following two planks were added by unanimous vote: Resolved, That we highly commend the spirit of magnanimity and forbearance with which men who have served in the rebellion—but who now frankly and honestly co-operate with us in restoring the peace of the country and reconstructing the Southern State governments upon the basis of Impartial Justice and Equal Rights, are received back into the communion of the loyal people; and we favor the removal of the disqualifications and restrictions imposed upon the late rebels in the same measure as their spirit of loyalty will direct; and as may be consistent with the safety of the loyal people. Resolved, That we recognize the great principles laid down in the immortal Declaration of Independence as the foundation of democratic government; and we hail with gladness every effort to ward making these principles a living reality on every inch of American soil.

COE'S DYSPEPSIA CURE.

The world renowned remedy for the unfailing cure of

Dyspepsia, Indigestion, Sick Headache, Sourness or Acidity of Stomach, Rising of Food, Flatulency, Lassitude, Weariness, Billiousness, Liver Complaint, finally terminating in Death.

READ THE EVIDENCE. [From Rev. ISAAC AIKEN, Allegheny, Pa.] JOSEPH FLEMING, Druggist, No. 84 Market Street, Pittsburgh: Sir.—I feel great pleasure in stating that, after having suffered from dyspepsia for about fifteen years, at some periods more than others, I have been entirely cured by the use of Coe's Dyspepsia Cure. My friends knew that I had gone to Allegheny on an extreme cure. I had great suffering from eating any kind of food, and on an average would vomit about one-third of my meals, in a sour, indigestible mass. When the severe attacks would come, I would lose all strength and be utterly helpless. Some of the attacks would be so severe that for days together, I would not retain anything on my stomach save a little dry toast and tea. For years I knew not what it was to pass five consecutive hours without intense pain. From the time I took the first dose of this medicine I ceased vomiting, gradually all distress passed away, and I would lose all strength and be utterly helpless.
