BY ATLANTIC TELEGRAPH.

June 30 .- London .- The debate on the Irish Church was continued in the House of Lords last night. The Duke of Argyle made a speech in support of the suspensory bill. The measure was not to conciliate the Fenians, but the people of Ireland. The Church Establishment was a relic of ancient wrong, and its abolition would heal the wounds of Ireland. The Bishop of Oxford said the measure would not pacify the Irish people, who wanted nothing less than separation from England. Earl Russell said the Irish Church had failed to accomplish the objects of its existence. The equality of the terms of the compact made at the union of England and Ireland, had never been kept. Lord Cairns spoke strongly of the injustice done to the clergy, and disputed the assertion that this was merely a measure of policy. At 3 A. M. a division took place, and the bill was rejected by a vote of 97 to 192.—Midnight.—In the House of Lords, to night, the Scotch Reform bill was agreed to in committee. The Irish Reform bill was passed to a second reading.—Liverpool.—Charles Francis Adams sailed for New York on the China on Saturday.—Paris.—During the debate on the budget in the Corps Legislaif, the opposition complained of the expenditures created by the French Expedition in Italy, as unnecessary, for Italy was willing and able to check any attempt to disturb the present peace, or to com-

p omise its foreign relations.—Rome.—A bull has been issued by the Pope, summoning a general council to meet in the Vatican on December 8th, 1869. All persons required to attend must appear in person or by proxy.—Berlin.—Bayaria has ratified the treaty with the U. S. for the protection of naturalized citizens. - Lisbon. - Rio Janeiro advices of June 9, from Paraguayan sources state that the war was languishing, the Allies having made no hostile movement since their repulse in Gran Chaco. It was reported that the Congress of the Argentine Confederation would impeach Gen. Metre for ma-king the Alliance with Brazil. The peace party was in

July 1.—Paris.—In the Corps Legislatif to-day the debate on the Budget was continued. M. Thiers deplored the military preparations which were still going on, and feared the outbreak of war and consequent National bankruptcy.—Berlin.—Some Americans in Wurtzburg have protested against the fourth article of the Naturalization Treaty with the United States, just ratified by Bavaria. They say the construction given to the article by Mr. Bancroft is not sustained by the text.

July 2.—London.—Gen. Napier has been most

enthusiastically received here, both by the people and by the House of Commons. Both Houses, on motion of the leaders of the two parties, unanimous-ly passed votes of thanks to the General and his officers.—Paris.—The Minister of Finance, in the debate on the budget, declared armament or disarmament was equally a gage of peace. M. Oliver replied that nations were led to arm themselves by fear. France, if she held the lead in Europe, could surely dispense with her armament, and then her finances would improve.—Suttgardt.—Mr. Bancroft has arrived here to negotiate with the Wurtemburg Government for the ratification of a naturalization treaty.—Belgrade.—The National Chambers of Servia have confirmed the succession of Milan IV. and the regency appointed to act during his minority. July 4 .- London .- The harvest prospects continue

July 5 .- London .- The Americans in London celebrated Independence day by a dinner at the Langham Hotel, —Berlin.—The citizens of the United States and a number of their friends, observed the Fourth by a public dinner here.—Stuttgardt.—A public hanquet and ball were given by the Americans here, yesterday. Mr. Bancroft was present, and many Government officers and friends of America.—Paris.—In the discussion of the Budget M. Jules Favre said France and the neighboring powers desired peace, and the Government of the Emperor must decide whether its policy should be for peace or war. Minister Rouher replied that a strong army was a pledge of peace. The Emperor's Government accepted the idea of German unity, and recognized the rights of nationalities. The only war possible for France was in defence of her territory, her honor, or her influence.—Vienna.—Austria has initiated the work of disarming, by issuing leave of absence to 36,000 men in the standing ar my. Prime Minister Von Beust has replied to the recent allocation of the Pope.—Belgrade.—The National Chamber of Servia has passed a law, excluding Prince Alexander Georgevich and family from all right of succession to the throne, and adjourned. Milan was to-day consecrated and crowned at the Cathedral as the Sovereign Prince of Servia:

July 6 .- London .- Lord Stratheden presented the Nova Scotia petition against the act of confederation. Sir Morton Peto has gone through the Bankruptcy Court.—Paris.—The Fourth was suitably observed by the Americans here.—Despatches from Shanghae say that a powerful combination of nobles against the Emperor of Japan has given a new turn to the course of events there.

PRINCIPAL AND INTEREST

PAYABLE IN GOLD.

The Great Pacific Railroad Line, extending 1721 miles from Omaha, on the Missouri River, to the tide-waters of the Pacific Ocean, is being built by two powerful Companies—THE UNION PA-CIFIC, beginning at Omaha, building West, and the Central Pacific of California, beginning at Sacramento, building East, unti the two roads shall meet.

Both Companies have prosecuted the work with great vigor, the

Union Pacific having already expended over THIRTY MILLION DOLLARS,

and the Central over Twenty Millions, upon their re pective parts of the undertaking. THE UNION PACIFIC HAVE COMPLETED 640 MILES—have iron and other materials for two hundred miles more upon the ground, and one hundred additional miles are ready for the track. They will have a much larger force employed this year than ever before, and it is expected that between

800 and 900 MILES will be in operation during 1868. There seems to be no reasonable

doubt that the distance between Omaha and Sacramento will be traversed by rail in 1870. THE GOVERNMENT GRANTS 12,800 acres of land, and its Bonds to the average amount of \$28,000 per mile, to aid in the construction of the line, and authorizes the issue of the First Mortgage Bonds now offered for sale, to the same amount and no more. The Government takes a second lien, and gives to the First Mortgage Bondbolders a prior lieu for their security, to which a

large paid-up capital is added. The Bonds cannot be issued except as each section of twenty miles is accepted by Government con mission, so that they always represent a real property. It is universally admitted that on the completion of the Union Pacific Railroad, its through business will make it one of the most profitable in the world-but its way or local business is already

several times the interest on its bonds; so that, if not another mile were built they would be a secure investment. THE NET EARNINGS for eight months of last year on an aver age of 386 miles are officially reported at \$1,069,136, while the interest on all the Bonds it could issue on that length of road for

that time, reduced to currency, was only \$345,856. The amount paid by the Government for the transportation of trops, munitions, stores and mails has been, and doubtless will continue to be, much more than the interest on the United States cond Mortgage Bonds. If it is not, the charter provides that after the road is completed, and until said bonds and interest are paid, at least five per cent. of the net earnings of the road shall be NO. 37 UNION SQUARE, BROADWAY N. Y. applied to such payment.

The Union Pacific Bonds are for \$1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bond pay an annual income on their cost of NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM. The Company have but a very limited supply of their Bonds renaining on hand, but any subscriptions accepted to a greater mount than can be filled from Bonds now in the Company's possession, will be supplied from the New Bonds to be issued on that

portion of the road completed in the Spring, in the order in which hey are received. The Company reserve the right to advance the price of their onds to a rate above par at any time, and will not fill any orders r receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance Parties subscribing will remit the par value of the bonds and the ccrued interest in currency at the rate of six per cent. per annum from the date on which the last coupon was paid. Burnett's Cocoaine,

For Promoting the Growth of, and Beautifying the Hair, and rendering it dark and Glossy.

The Cocosine holds, in a liquid form, a large proportion of decdorized COCOANUT OIL, prepared expressly for this purpose. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair.

LOSS OF HAIR.

MESSRS. JOSEPH BURNETT & Co:

I cannot reluse to state the salutary effect in my own aggravated case, of your excellent Hair Oil.—COCOAINE.

Nor many months my hair had been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain.

By the advice of my physician, to whom you had shown your process of purifying the Uil, I commenced its use the last week in June. 'The first application allayed the itching and irritation. In three or four days the redness and tenderness disappeared; the hair ceased to fall; and I have now a thick growth of new hair.

Yours, very truly;

SUSAN R. POPE.

A REMARKABLE CASE.

MESSRS. BURNETT & Co. — EAST MIDDLEBORO' MASS, June 9, 1864.

I send you a statement of my daughter's case, as requested. She will have been sick six years, if she lives until the 1st of August part.

gust next. When the bair came off she had been afflicted with neuralgia in When the hair came off she had been afflicted with neuralgia in her head for three years. She had used, during that time many powerful applications. These, with the intense heat caused by the pains, burned lier hair so badly that, in October, 1861, it all came off, and, far two years after, her head was as smooth as her fuce. Through the recommendatiod of a friend, she was induced to try your Cocoains, and the result was astonishing. She had not used half the contents of a bottle before her head was covered with a fine young hair. In four months the hair has grown several inches in length, very thick, soft and fine, and of a darker color than formerly. She still continues the Cocoaine, and we have little fear of her losing her hair.

With respect,

WM. S. EDDY.
