Political.—July 7.—In the National Democratic Convention a platform was adopted which recognizes slavery and secession as settled by the war, and never to be renewed: demands the immediate restoration of all the Southern States; amnesty for all political offences; that the suffrage be left to the States; payment of the public debt in greenbacks, except where made specially payably in coin; equal taxation of property, including Government bonds; bolition of the Freedmen's Bureau, and of inquisitorial modes of collecting revenue, and such equal internal taxation as will afford incidental protection to industry: subordination of the military to the civil power; and equation The Convention proceedive and adopted citizens The Convention proceeding the Convention of the Con ded to nominate candidates for President. The thio delegation nominated Pendleton; New York, Sanford E. Church; Pennsylvania, Asa Packer; Sanford E. Church; Pennsylvania, Asa Packer; On; Connecticut, John E. English; Maine, Gen. Hancock; Wisconsin, Jas. R. Doolittle. Six bal. ots were had, Pendleton receiving 105 on the first, and 1121 on the sixth. Andrew Johnson received 45 on the first, and 21 on the sixth. Twelve additional ballots were had without choice. The highest number of votes for Pendleton was 1561, on the 8th ballot; New York dropped Church: on the 8th ballot, and voted for Hendricks; and on the 15th ballot Pennsylvania went over from Packer to Hancock; on the 18th ballot Hancock had 144 votes .-July 9.—The name of Mr. Pendleton was withdrawn, at that gentleman's request. On the 19th, 20th and 21st ballots, Hancock led, followed closely by Hendricks, who received 132 votes, Hancock getting 1351. On the 22d ballot, Ohio nominated Horatio Seymour, of New York, and cast her vote for him. Mr. Seymour declined the honor, but his nomination was insisted upon, and every State delegation in turn cast its vote for him. For Vice President, Generals Dodge, Ewing, McClernand and Francis P. Blair were put in nomination, but all, except Blair, were subsequently withdrawn, and Gen. Blair received the full vote of the Convention.—Rev. H. W. Beecher writes to the Boston Adveriser, July 8, correcting misstarements in regard to his political position, and closing as follows: "I have for years telt that Mr. Chase's ambition was consuming the better elements of his nature I have liked Grant from the first. Solid, unpretentious, straightforward, apt to succeed and not spoiled by success, wise in discerning men, skillful in using them, with the raregift (which Washington had in an eminent degree) of wisdom in getting wisdom from other men's counsels-I confidently anticipate that, great as his military success has been, he will hereafter be known more favorably for the wisdom of his civil administration. The seven fold humiliations and recantations through which Chase was required to go for a Democratic nomination, only to see the smiling Seymour looking benignly down on his lost estate, has no parallel except in the immortal history of Reineke Fuchs. There will be no third candidate between Grant and Seymour. It will be a tair fight between rugged honesty and plausible craft.' Ithe largest number of votes received by Mr Chase in the Convention was Four. He never reached

above a half vote at any other time. The Journal of Commerce (Democratic) says of the financial part of the Democratic platform: "This is out-and-out repudiation of a solemn obligation, as we understand it, to pay all the bonded debt in gold." That on the question of repudiation: "the Democrats are boldly committed to the baser alternative, and will reap the manifest advantage where this heresy is fondly cherished. There is no excuse for such a proposition. It is both wicked and disgraceful. The authors know very well that the money was borrowed with the express understanding that it was to be repaid in coin, and anything short of this is repudiation of a solemn

The XIVth Constitutional Amendment has been ratified by 25 States, including thio and New Jersey, which since claim the right, denied by Congress, to withdraw their assent, and also including the reconstructed States of Arkansas, Florida, and North Carolina. Louisiana, South Carolina, and Georgia, will ratify it this week, it is believed, and these will complete the requisite number of 28, or three-fourths, of the 37 States, to give the Amend-

July 7 .- London .- In the Lords, to-night, the Boundary bill and the Scotch Reform bill were read for the third time, and the Irish Reform bill was passed in committee.—Paris.—In the Corps Legislatif to day, Marshal Niel declared that in 1867 France would have been unable to cope with her neighbors, but now her power was such that none of them could compete with her.

morning on the despatch? Caily Nove editorial this cently sent by Mr. Seward to Mr. Moran, Source ry of the American Legation here, says: "This despatch is discourteous and unfriendly to the English nation. We have no hesitation in denying that it expresses the views of enlightened Americans, who we know will repudiate the inciting notes of Secretary Seward. The people of the United States will be glad to know that both the English people and the English Government will treat such despatches as disguised tricks, calculated to affect the coming election." [It is not known here what is the tenor of this despatch. Despatches from Madrid, indicate serious troubles in Spain. Dulce, Serrano, and five other generals, had been placed under arrest, and warrants had been sent for the arrest of three others. A movement had been preconcerted among some leading officers of the army, which had for its object the placing of Don Antonio, the Duke de Montpensier, at the head of the Government I'he Duke, who is a brother in-law to the Queen.

has been requested to leave the country. July 9.—London.—The English journals publish the platform adopted yesterday by the National Democratic Convention. The Times says the platform lave down the principle of partial repudiation, and it should be considered as the forewarning of the defeat of the Democracy next autumn, and of its permanent exclusion from office, if not its complete disruption. Repudiation, it says, may be a strong card for the Democrats in the West and South, since the Radicals have announced that they wil adhere to the principle of national honesty, but by the adoption of this platform, the Democratic par ty throws away all its chances of success in the East, and renders the election of Grant a certainty. The Queen asks Parliament to vote a pension of £2000 pounds per annum to Gen. Sir R. Napier.-Vienna.-Von Beust has written a sharp note, in reply to the recent allocution on the state of religion in Austria. He says the intermeddling of the Pope with the domestic legislation of Austria is a violation of the independence and dignity of the Empire.—Pesth.—A Belgrade despatch says that Prince Georgewich has been placed under surveilance of the police, and that his private secretary

Barochel, Minister of Justice, declared that the separation of Church and State was only a question of time.-Despatches from China, represent that the Rebels on the Peiho River have been defeated in battle, but

that they still threaten Tientsin. July 11 .- London,-The Standard thinks that sanguine Democrats themselves may well doubt it Seymour can defeat the most popular American General. The Daily News says the Radical party will exult over the Democratic defeat, which is certain to follow the selection of so weak a candidate as Horatio Seymour. The country needed a stronger and more healthful opposition than it is likely now to have, and intelligent Americans will soon acknowledge this with regret. The Morning Herald treats the coming contest as a foregone conclusion. It is not sure if the best man the Democrats could select, could oppose Grant with advantage on the question of keeping faith with the Southern States and bond-holders, but Grant's personal eminence and popularity will probably elect him in any event.—Berlin.—By the naturalization treaty, this Government has stayed all prosecutions against the adopted citizens of America of German birth. and those who have been imprisoned will be released .- Madrid .- The Generals who were recently ar rested here for political causes have been banished

LOSS OF HAIR.

MESSRS. JOSEPH BURKET & CO:

I cannot refuse to state the salutary effect in my own aggravated case, of your excellent Hair Oil,—Cocoains.

For many months my hair had been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain.

By the advice of my physician, to whom you had shown your process of purifying the Oil, I commenced its use the last week in June. The first application allayed the itching and irritation. In three or four days the redness and tenderness disappeared; the hair ceased to fall; and I have now a thick growth of new hair.

Yours, very truly,

SUSAN R. POPE.

A REMARKABLE CASE.

EAST MIDDLEBORO' MASS, June 9, 1864.

East Middleboro' Mass, June 9, 1864.

I send you a statement of my daughter's case, as requested. She will have been sick six years, if she lives until the let of Angust next.

When the hair came off she had been afflicted with neuralgia in her head for three years. She had used, during that time many powerful applications. These, with the intense heat caused by the pains, burned her hair so badly that, in October, 1861, it all came off, and for two years after, her head was as smooth as her face.

Through the recommendatiod of a friend, she was induced to try your Cocoans, and the result was astonishing. She had not used half the contents of a bottle before her head was covered with a fine young hair. In four months the hair has grown several inches in length, very thick, soft and fine, and of a darker color than formerly. She still continues the Cocoaine, and we have little fear of her losing her hair.

THE

UNION PACIFIC

RAILROAD COMPANY

OFFER A LIMITED AMOUNT OF THEIR First Mortgage Bonds

AT 102,

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

The Great Pacific Railroad Line, extending 1721 miles from)maha, on the Missouri River, to the tide-waters of the Pacific Ocean, is being built by two powerful Companies-THE UNION PA-CIFIC, beginning at Omaha, building West, and the Central Pa-tille or California, beginning Accomments, building East, until the two roads shall meet.

Both Companies have prosecuted the work with great vigor, the

Union Pacific having already expended over THIRTY MILLION DOLLARS,

and the Central over Twenty Millions, upon their respective parts of the undertaking. THE UNION PACIFIC HAVE COMPLETED 640 MILES—have iron and other materials for two hundred miles more upon the ground, and one hundred additional miles are ready for the track. They will have a much larger force employed

this year than ever before, and it is expected that between 800 and 900 MILES

will be in operation during 1868. There seems to be no reasonable doubt that the distance between Omaha and Sacramento will be raversed by rail in 1870.

THE GOVERNMENT GRANTS 12,800 acres of land, and its onstruction of the line, and authorizes the issue of the First Mortgage Bonds now offered for sale, to the same amount and no more. The Government takes a second lien, and gives to the First Mortgage Bondholders a prior lieu for their security, to which a large paid-up capital is added. The Bonds cannot be issued except as each section of twenty miles is accepted by Government com-

mission, so that they always represent a real property.

It is universally admitted that on the completion of the Union eacific Railroad, its through business will make it one of the most profitable in the world—but its way or local business is already several times the interest on its bonds; so that, if not another mile were built, they would be a secure investment.

THE NET EARNINGS for eight months of last year on an average of 386 miles are officially reported at \$1,069,136, while the interest on all the Bonds, it could issue on that length of road for that time, reduced to currency, was only \$345,856. The amount paid by the Government for the transportation of croops, munitions, stores and mails has been, and doubtless will

continue to be, much more than the interest on the United States

cond Mortgage Bonds. If it is not, the charter provides that after the road is completed, and until said bonds and interest are paid, at least five per cent. of the net earnings of the road shall be applied to such payment.

The Union Pacific Bouds are for \$1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in

gold. The Principal is payable in gold at maturity. At the present rate of gold, these bond pay an annual income on their cost of NEARLY NINE PER CENT., AND IT IS BELIEVED THAT THEY WILL SOON BE AT

A PREMIUM. The Company have, but a very limited supply of their Bonds remaining on hand, but any subscriptions accepted to a greater amount than can be filled from Bonds now in the Company's posession, will be supplied from the New Bonds to be issued on that portion of the road completed in the Spring, in the order in which

they are received.
