A GREAT LUNG MEDICINE is "Allen's Lung BALSAN." It is prepared by a chemical process and apparatus of more than ordinarily costly nature, and it is beyond all question a never-failing and thoroughly complete cure for coughs and affections of the langs, even when the latter are of a very serious and threatening character, the system of the sufferer being, in some cases, very much prostrated.

We do not hesitate to say, from the entire confidence we have in the character of its proprietors, and the statement of certain citizens who have used the medicine, that it is really one of the best things ever yet discovered for the cure of the particular maladies for which it is designed. -[Providence Advertiser. 3 Mot

GOLD BONDS

OF THE

CENTRAL PACIFIC RAILROAD CO.,

A limited quantity of the Thirty-year Six Per cent. First Mortgage Bonds of the Central Pacific Railroad Company are offered to investors, for the present, at

108 per cent., and Accrued Interest, in Carrency.

These Bonds are secured by a Trust Deed upon the

most important link of the great Inter-Oceanic Bailroad, two thirds of which is already built, at a cost of nearly

ONE HUNDRED MILLIONS.

And which enjoys already a self-sustaining way traffic. The whole line of continuous rail between

New York and San Francisco

will be completed by July next, when an immense through business will undoubtedly follow. More than 1.200 miles of the distance between the Missouri River and the Pacific Ocean are already traversed by the locomotive; and it is probable that 300 miles additional will be completed during the current year. The future of this Line, therefore, is unusually promising.

Central Pacific Railroad Company

receive from the United States Government about ten millions of acres of the

PUBLIC LANDS,

situated along the line of their Road; also a Subsidy Loan of U. S. Six Per Cent. Bonds, averaging \$35.-000 per mile, as fast as the sections of twenty miles are completed. They have received, in addition, important Grants from the State and cities of California. worth more than \$3,000,000 in Gold. The proceeds of these Lands, Bonds, Capital Stock, Subscriptions, Subventions, and Net Earnings are invested in the enterprise, to which is added the amount realized from First Mortgage Bonds. These latter have the first lien upon the whole property, and are issued to the same amount only as the Government advances, or to the extent of about one third the cost value of the Road, equipment, etc.

The Cash Resources are abundant for the completion of the work, and the net earnings, from the way traffic upon 325 miles now open for business, are more than double the current interest liabilities. bes Besides a mileage upon all through business, this road, having the best lands for settlement, the most pro-

ductive mines, the nearest markets, and being exempt from competition, will always command large revenues, which are wholly in Coin.

Two-thirds of the entire Loan is already marketed, and, judging by past experience, the Loan will soon be closed. Investors who desire an unusually safe, reliable, and profitable security would do well to purchase before the Bonds are all taken.

The Company reserve the right to advance the price at any time; but all orders actually in transity at the time of any such advance will be filled at present price. At this time they pay more than 8 per cent. ipon the investment, and have, from National and State laws, guarantees superior to any other corporate securities now offered. The First Mortgage Bonds are of \$1,000 each, with semi-annual gold coupons attached, payable in July and January. Both INTEREST AND PRINCIPAL ARE MADE EXPRESSLY PAYABLE IN UNI-TED STATES GOLD COIN. The back interest from July 1st is charged only at the currency rates. We receive all classes of Government Bonds, at their full market rates, in exchange for the Central Pacific Railroad Bonds, thus enabling the holders to realize from 5 to 10 per cent, profit and keep the principal of their investments equally secure.
