Educational.

Auburn Seminary.—The Annual Catalogue of Auburn Seminary gives the names of 48 students. Four are from Pittsburg, one from Car-lisle, Pa., two each from Iowa, Michigan, Illinois, and Canada, and one each from Amsterdam (Holland), Vermont, Ohio, Baltimore, Md., Massachusetts, Tennessee, Missouri and Minnesota. The remainder are from New York State. Students can receive aid to any amount needed, not exceeding \$230 per annum. The examination commences Monday, May 3d. President McCosh will address the Missionary Society Tuesday evening, May 4th. Dr. Cuyler will address the Rhetorical Society .- The Day of Prayer for Colleges was observed as usual in Auburn, by a morning meeting at the Seminary, and in the various churches in the evening. Union Seminary.—The New York correspon

dent of The Presbyterian (Rev. Maurice C. Sutphen), writes : "A recent visit to the Union Theological Seminary of this city, warrants the statement that it is in a most prosperous condition. Its students enjoy the labors of four Professors, besides an instructor in Hebrew, and an instructor in Elocution-all gifted men, thorough teachers, and fully alive to the interests of their pupils. Professor Henry B. Smith has been suffering for some weeks from illness, but is now rapidly recovering, and expects soon to resume his duties. One hundred and twenty-eight names now appear upon the roll of the Seminary. Of these students, forty-one expect to receive their diplomas in May next, and to go forth to preach the Gospel. A minister of the last generation said, with reference to his class in theological study, 'There were four of us examined together for license, and I thought there were so many of us it would be hard to find places. What would he have said to a graduating class of forty-one, with scores more to make the batch of new ministers larger from the various other Seminaries of the land. But God has a place for all to be useful in whom He calls into the vineyard, and He will not let them stand idle if they are willing to work. It is pleasant to be told that the library of twenty eight thousand volumes has received, during the past year, several large and valuable collections of rare works, and that the patrons of this useful institution are devising for it still more liberal things."

THE GREENWICH ST. CHURCH added twelve to its membership on Sabbath the 7th inst. Nine of these by profession. Fifteen have been added to this church since the beginning of the year. The Sunday school is in a flourishing condition. 450 being in attendance. Mr. Hutton preaches, on next Sabbath, a sermon in memorial of the late Randolph Sailer, Esq.

SOUTH CHURCH.-Eighteen members were added to this church last Sabbath, and seventeen at the communion in January, making thirty-five since the Rev. Dr. Parsons took charge of this number of others anxious about their eternal wel- Ann's Widows' Asylum, Union Benevolent Asfare. This must be encouraging to Dr. Parsons in his labors, and we hope to see them more abundantly blessed. -The Day of Prayer for Colleges two weeks ago was observed with much spirit and profit, though not by large numbers of our people. The presence of Dr. Atterbury and Rev Secretary Baldwin in the meetings, enhanced their interest, and the impression left was a happy one, as it tended to deepen the feeling of the close connexion of the great object of our prayers, the increase of the ministry, with the spirituality of the individual church.

Paint will never smart nor stain, Paint will ease the greatest pain, Paint will cure foul ulcers deep, From them inflammation keep; An invention that will last When all liniments are past, When all pills and powders fall, PAIN PAINT will outlive them all.

The latest scientific discoveries prove that the principle of eva pration and absorption is the only method by which inflammation an be instantly removed. But the absorbents will not drink wate readily, for the fiesh is of an oily nature, and water rolls off. Hot liniments have utterly failed, for they always inflame and burn the flesh wherever applied, while oils or ointments clog the pores and prevent the escape of morbid matter. But a preparation has been made and already tested on over 500,000 people, suffering all kinds of pain and disease that is possible to enumerate, and it acts like magic on each and every individual. It is limpid as water, and is as barmless; will not stain or smart, and so prepared that the absorbents drink it rapidly and the evaporation that instantly arises through the million of pores is really marvellous. It is an invention hitherto unknown, but is of as much importance as the intro duction of steam or the magnetic telegraph; for the drying up single tear has more of honest fame than shedding seas of gore this article not only dispels all heat and fever, but evaporates ou all impurity and morbid matter of the system or blood at any poin wherever applied. This novelty is DE. Worcorr's Pain Paint. His office at No. 181 Chatham Square, N. Y., has a greater number of patients, with every type of disease, than any hospital in America or Europe. This fact alone enables him to give the best practica advice to those who suffer from any malady, disease or pain. It osts the patient nothing for advice, beside all pain is instantly re moved free of cost. Tens of thousands given up as hopeless as

permanently cured, and restored to the activity of life. A large share of these applicants suffer with drug disease, and have had their whole system medicated and poisoned through and hrough with medicine. Dr. WOLCOTT condemns most emphatically all drug treatment, and proves practically that disease can be radi cally expelled from the system without dosing the stomach. The advent of Pain Paint overturns the old theory of cure; and medical practitioners are at their wits end in beholding such undeniable and astonishing cures of those cases considered by themselves as utterly hopeless. Hundreds come over one thousand miles to ob tain treatment and advice; many have been suffering for years who are unable from sickness or poverty to make the journey. To all such it will be more practicable to purchase his remedies and have them sent free of express charges. A plut of Pain Paint (doubl strength) will be sent for \$5; a quari for \$8, or a gallon for \$20, on receipt of the money at No. 181 Chatham Square, N. Y., or $\frac{1}{3}$ doz. pints of Wolcott's Annihilator, for the cure of Cutarth \$6, with full lirections and advice Small bottles can be bought at all first class Drag Stores. 267 MILES REMAIN

To be Finished, to Open the Grand Through Line to the Pacific. This Opening will certainly take place early this season.

Besides a donation from the Government of 12,800 acres of land per mile, the Company is entitled to subsidy in U.S. Bonds on i I'ne as completed and accepted, at the average rate of abou \$26,500 per mile, according to the difficulties encountered, for which the Government take a second lish as security. Whether sub sidies are given to any other companies or not, the Governmen will comply with all its contracts with the Union Pacific Railroad Company. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

First Mortgage Bonds AT PAR.

By its charter the Company is permitted to issue its own FIRET MORTGAGE BONDS to the same amount as the Government Bond-and no more. These Bonds are a First Mortgage upon the whole road and all its equipments

THEY HAVE THIRTY YEARS TO RUN, AT SIX PER CENT., and both

PRINCIPAL AND INTEREST

ARE

PAYABLE IN GOLD.

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent gold interest bonds of the U. S., (the '81's) will be due in 12 years, and they arworth 112. If they had 30 years to run, they would stand at not less than 125. A perfectly safe First Mortgage Bond like the Union Pacific should approach this rate. The demand for European ir vestment is already considerable, and on the completion of the work will doubtless carry the price to a large premium.

SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of \$26,500 per mile upon what for a long time must be the only railroad com necting the Atlastic and Pacific States is PERFECTLY SECURE. Th entire amount of the mortgage will be about \$30,000,000, and the interest \$1,800,000 per annum in gold. The present currency curof this interest is less than \$2,550,000 per annum, while the gro-earning for the year 1868, FROM WAY BUSINESS only, on A AVERAGE OF LESS THAN 700 MILES OF ROAD IN OPERA TION, WERE MORE THAN

CITY CHARITIES.

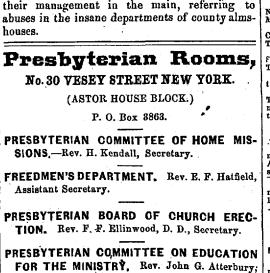

In Senator Worthington's Report on the propriety of Establishing a State Board of Charities we find a statement of the number and character of the chief penal, reformatory and charitable institutions of Pennsylvania. Those in Philadelphia are very numerous, but we will try to name the more important ones with leading facts of their history and present condition. Eastern Penitentiary, built 1822, at a cost of \$620,000, and since 1838 \$409,269 have been appropriated by the State; average population for 1867, 594; proper accommodations 540 .- House of Refuge cost \$112, 545.17, appropriations by the State for support, besides large private benefactions, \$421,500; pop. ulation in 1868, 593. Income from all sources in 1867 \$79,768.39.-Pennsylvania Hospital. chartered 1750, productive capital \$460,000; income 1868, \$59,650. Accommodations for 220 patients; has treated, since 1781, 80,968 patients. -Insane Department; 1840, buildings and grounds cost \$800,000, accommodates 500, had 336 at the close of last year. Expenses \$81,729 -Institution for the Blind, 1833. State appropriations, mostly for the support of indigent blind, \$500,000; for 1868, 33,000. Inmates, December, 1868, 179, entire number of pupils 666. Value of manufactories for the year \$15,581 05. Expenses for 1868, \$65,627.—Institute for Deaf and Dumb, incorporated 1821.-Grounds and buildings cost \$108,770, of which the State gave \$36,000, and has also given \$700,000 for indi-

sociation, Home Missionary Society, Western House of Industry, House of the Good Shepherd, Western Association for Relief of the Poor, Northern Association for do.

Blockley Almshouse has from 2,000 to 3,000 inmates; and is a stupendous specimen of the misapplied charity so often met with on a smaller scale, that of supporting and encouraging the idle and worthless poor, indiscriminately with the necessitous and deserving. The County Jails are not included in this review of the Committee.

A very imperfect resume of the original cost and the State and private apropriations to these charities, exclusive of Blockley Almshouse, gives us the enormous sum of \$7,500,000, with an annual outlay of \$850,000. Probably one million dollars a year are now expended on these refor-T.
