

Editor's Table.

Publishers will confer a favor by mentioning the prices of all books sent to this Department.

GLENNAR, OR LIFE IN SCOTLAND, by Helen Hazlett, author of "Heights of Eidelberg," is a fiction, the interest of which turns upon charges of forgery and embezzlement made against persons in high standing, and upon seemingly conclusive proof. The style is animated and the events are sufficiently startling. We are treated to a perilous journey by land and water; a Robber's Cave, one death, and the fear of two or three more in the family, several collapses in fainting spells besides the bank robbery, in the first three chapters. The impression made, though strong, is somewhat confused. But the interest is well sustained throughout, and culminates in the vindication of the innocent and the discomfiture of the guilty. The book is unexceptionable in its moral tone, and most decisive and emphatic in its inculcation of those principles which have their clearest recognition in the Word of God. Philadelphia: Claxton, Remsen & Haffelfinger.

The Third of SCRIBNER'S ILLUSTRATED LIBRARY OF WONDERS, is upon the WONDERS OF HEAT. This is a more strictly scientific book than its predecessors, and in some important respects more valuable. But its popular character is maintained by the multitude of experiments which it describes, and by the rare beauty and accuracy of the accompanying illustrations, which are nearly one hundred in number. 12mo., pp. 265. Price, \$1 50.

BREAKERS AHEAD; or, Larry Dalton, by Harriet B. McKeever, is one of the best books of this writer, marked by her good qualities as well as those not so good. Spirit and aim are most wholesome and Christian. The first half of the narrative is sprightly and interesting, but a large part is utterly without invention or vigor, wearisome for its very small talk and not worth the paper it is printed on. Had the last half of the book been reduced to half the size, it would have almost doubled the value of the whole. Philadelphia: J. P. Skelly & Co.

Juveniles.

TEDDY'S DREAM; or, LITTLE SWEET'S MISSION, by Emma Leslie, is one of the very best of Children's Books. The characters of Teddy and of all his associates are drawn with no little originality, and the story of the little boy who so loved the sunshine and who yet was doomed to be a chimney sweep is told with a skill and pathos that carry away the reader. The power of prayer, and the value of temperance principles are well illustrated. Carter & Bros. 18mo., pp. 174, illustrated.

THE TRUE STORY LIBRARY, by Mrs. Julia McNair Wright, with its round dozen of neat little volumes in large type, handsomely bound and packed in a box, is a sight to make the eyes of the little ones dance. Thanks to the Committee for such a proof of remembrance of the youngest readers and listeners. The stories are all true, drawn from Scripture and from actual life, and are well adapted to give wholesome entertainment to the class for whom they are intended. Each volume has two pretty fair illustrations. Presbyterian Publication Committee, 1834 Chestnut St.

THE PRESBYTERIAN BOARD has published ANNIE'S INFLUENCE, showing what a bed-ridden girl can do for the eternal good of her associates: also IRASULE, a volume of stories, the first one being so-called from the name of an intended victim of witchcraft, rescued by the missionaries of Corisco. Also COUSIN AMY; or, Home Duties, a volume made up of several original stories: all of excellent material and well printed and illustrated. They have also issued a pamphlet on INSPIRATION by Rev. F. T. Brown, D.D., and a tract for parish distribution, entitled: "Have you obeyed the Redeemer's Last Command?"

BEFORE THE THRONE, or Daily Devotions for a child, is a delightful little volume, containing a passage of Scripture and a prayer for the morning, and a prayer and hymn for the evening of every day for a month. They are simple and sweet, and well adapted to a child's nature and wants. M. W. Dodd, New York.

LITERARY INTELLIGENCE.

RELIGION OF SHAKESPEARE.—The Rock, an English journal, in an article on the religion of Shakespeare remarks that "it is a singular and significant fact that nowhere in Shakespeare do we find the character of a sober-minded, philosophic infidel or sceptic. Such a creature was ever abhorrent from the poet's mind." It avows the firm conviction that Shakespeare believed in the Christian religion, and most probably in the faith of the Reformed Church.

EDUCATIONAL.—Spain.—Sixty-five per cent. of the male population of Spain and eighty six per cent. of its female population are unable to read or write. Only about one in every thirteen of the population goes to school. This does not speak well for the prospect of establishing a republic in that country. It needs fewer priests and more schoolmasters. England.—The preparatory school of Harrow, in England, is to adopt a complete modern course for the instruction of lads not going to the universities. Greek is to be dropped, and other subjects will find its place. China.—A graduate of the Imperial College at Peking recently received his diploma, at the age of 47, after having attended competitive examinations for 26 years. Missouri.—The 600 log school-houses which Missouri boasted at the

close of the war, have been succeeded by 6,000 convenient buildings.

READING SERMONS.—The practice of reading from a manuscript seems only to have come in after the Reformation, and even then to have been for a long time exceptional and unpopular. The Puritans, with one consent and with a torrent of violent abuse, as was their fashion, scouted it. Even after the Restoration it was only tolerated, and not always that. An ordinance issued by Charles II. to the University of Cambridge in 1674, declares that the practice "took its beginning from the disorders of the times," and forbids "that supine and slothful way of preaching" to be used at the Universities in future. But it crept in again and maintained its ground.—Blackwood.

COUNT BISMARCK once presented a faithful but poor secretary with a portfolio, bound like a book, in which were deposited 500 thalers. On meeting the secretary the next day, the Count asked him if he had perused the volume. "Yes, your highness," said the secretary, "and I was so captivated by its contents that I am waiting the appearance of the second volume with feelings of the greatest interest." The Count smiled, but said nothing. A few days afterward the secretary received a second portfolio bound and filled like the first, on the title-page of which was the sentence, "This work is complete in two volumes."

[This reads wonderfully like a stock-story of Frederick the Great.]

EMANUEL DEUTSCH, author of the famous article on the Talmud, has started on a journey to Palestine and Egypt, to further his studies of the Talmud. His work on that subject is considerably advanced.

TRIBUNE PUBLICATIONS.—The Politician's Register, the Whig Almanac, and Tribune Almanac for the years 1838 to 1868, inclusive (excepting 1842) have been reprinted. These sets contain the Annual Election Returns by States and Counties, lists of Presidents, Cabinets, Judges of the Supreme Court, Foreign Ministers, Governors of States, &c., with Summaries of Acts of Congress, and other Political Statistics, and comprise two neatly-bound volumes.

DANTE IN CHICAGO.—Three gentlemen of Chicago, it is said, have clung together, and ordered three copies of Longfellow's "Dante," to be illustrated with Doré's and Flaxman's designs, and many of the rare Dante prints. Only three copies will be printed, and the cost will be \$1,000 per copy.

PROF. OWEN ON MR. DARWIN'S THEORIES.

"Our Monthly Gossip" in Lippincott's is responsible for the following summary of the views of Prof. Owen, of the Royal Philosophical Society, on Mr. Darwin's Theories:

He rejects the principle of direct or miraculous creation, and recognizes a natural law or secondary cause as operative in the production of species in orderly succession and progression. At the same time he calls attention to the fact that the operation of this law seems to have been predestined by the Allwise Creator; so that the horse, for example, was developed from pre-existing forms just as the period when the human race itself came into being. Professor Owen rejects Darwin's theory as explaining the origin, but accepts it as accounting for the extinction, of species. He speaks of Lyell as "one destitute of qualifications for grappling with the difficulties of this profound genetic problem in philosophy," and considers his endorsement of Darwin's hypothesis and his condemnation of that of Lamarck as being equally without value. His own theory is given in the following words: "I deem an intimate tendency to deviate from parental type, operating through periods of adequate duration, to be the most probable nature, or way of operation, of the secondary law, whereby species have been derived one from the other. . . . Generations do not vary accidentally, in any and every direction; but in preordained, definite, and correlated courses. The learned writer considers life in its lowest forms as analogous to crystallization. "It is analogically conceivable that the same CAUSE which has endowed His world with power convertible into magnetic, electric, thermotic or other forms or modes of force, has also added the conditions of conversion into the vital mode." Professor Owen considers thought to be a form of force, and the result of the action of the brain, and replies to the anticipated charge of materialism by saying that his "faith in a future life and the resurrection of the dead rests on the grounds of their being a part of divine revelation."

The above brief and imperfect but, we believe, accurate condensation of the great naturalist's last words on these interesting themes, is well calculated to make the unlearned reader pause and reflect on the tendencies of modern Science.

News of Our Churches.

Presbyteries.

The stated meeting of the Presbytery of Montrose, Pa., was held at Nicholson, April 20th. Twenty ministers and fourteen elders were in attendance. Rev. David M. Rankin was received from the Meadville Presbytery, and Rev. G. C. Judson from the Delaware Association. The former is laboring at Great Bend and New Milford; the latter at Franklin and Liberty. Within the year past, three church buildings have been completed—at Honesdale, Uniondale and Nicholson. Another is nearly ready for dedication at Gibson. That at Honesdale cost \$40,000. On Thursday, Presbytery united with the people of Nicholson, in dedicating the attractive church which the liberality and perseverance of a young and feeble congregation had succeeded in erecting. Rev. William F. Arms was installed pastor of the church on Thursday evening. The sermon was preached by the father of the pastor-elect, Rev. H. P. Arms, D.D., of Norwich, Conn. Charge to the pastor, by Rev. J. G. Miller; charge to the congregation by Rev. B. S. Foster.

On Reunion: The Presbytery having previously approved the Basis of Reunion, overtured by the last Assembly, do hereby re-affirm that approval: but would also consent to reunion on the Basis as proposed to be amended by the Reunion Committee. Commissioners, Rev. Jacob G. Miller and Rev. Charles S. Dunning. Elders, L. F. Eitch and N. P. Wilcox.

The Presbytery of North River, N. Y., at its

recent meeting in Milton, in addition to its previous action on Reunion, adopted the amendments to the Basis proposed by our Reunion Committee. The Presbytery further voted, that in view of past discussion and action, it is earnestly desired that the Assemblies consummate the union at the earliest practicable moment. Rev. E. W. Clark of Milton and Elder John Carpenter of Poughkeepsie were appointed Commissioners.

Presbytery of Maumee met in the 1st Congregational church of the city of Toledo, April 21st. Rev. Henry M. Bacon was elected Moderator, and J. R. Osborn, Esq., Temporary Clerk. Rev. R. G. McCarthy was dismissed to the Presbytery of Bloomington, and the Rev. William Maclaren, D.D., of the 2d Presbytery of New York (U. P.) united with us. One of our churches—that of Dehance—has been greatly revived, and some twenty-three (23) have been received into her communion since January. This church has been for a number of years supplied by Bro. B. W. Slayle of the other branch. On new church has been received under care of Presbytery, at its last meeting, that of "Highland" which is some three miles out from Dehance, and which has been supplied with afternoon service by Bro. Slayle. This was organized some years ago, and has stood independent. It was a feeble thing with scarcely strength enough to stand alone. But since January it has been powerfully revived, and it comes under our care with a membership of twenty-five (25) with the prospect of more additions at its next communion. It takes the Confession of Faith of the Presbyterian Church as its standard of doctrine, and also its form of government.

Rev. Perry C. Baldwin was appointed Commissioner to the General Assembly, and Rev. William Maclaren, D.D., as Alternate, and Jas. W. Ross as Lay Delegate and Ir. E. Ronger as Alternate.

On Reunion, the Basis of 1858 with our committee's amendments was adopted. It was also recommended that the second article of said terms be construed as directory or advisory and not as imperative. It was further Resolved, That the proposed modification of said 2d article is not to be taken as an amendment, but as an interpretation of the same, and that this Presbytery should prefer to see said article amended as follows: "viz: All after the word 'Union' in the fourth line stricken out, and the following inserted: "And all the churches connected with the United body not thoroughly Presbyterian in their organization shall be advised to come thoroughly Presbyterian as early as is permitted by the highest interests consulted, and that hereafter no other such churches be received." Resolved, That the Stated Clerk be directed to forward to the Stated Clerk of the General Assembly the foregoing resolutions as the answer of the Presbytery to the overture sent down on the subject of the Reunion of the two branches.

"Kalamazoo Presbytery," says a correspondent, "is sound on the subject of Reunion with one exception, and that on technical grounds alone. The vote was unanimous to adopt the overture recently submitted to the Presbytery by our Reunion Committee. The overture did not call for extended discussion. The only question raised was Constitutional one, as to the presbyterial right of the Committee to present the overture; it being argued that it should have come from the Assembly. The question was considered as hypercritical, and the vote was considered as virtual a decision in favor of union on the basis of the Standards pure and simple, the only right basis."

The Commissioners chosen to the General Assembly are Rev. John Salomon of Allegan, and Elder D. O. Roberts, of Kalamazoo, principals, and Rev. W. M. Fuller, of Buchanan, and Elder T. L. Ross, of Paw Paw, alternates.

The Presbytery of Grand River Valley, Mich., held its annual meeting at Grand Rapids, April 13th and 15th. Rev. Louie Mills was appointed Commissioner to the General Assembly, and Elder H. Griffin Lay Commissioner, with Rev. B. B. Miner and Elder Vm. Root, alternates.

Four new churches were added to the roll of the Presbytery; and the ministers as follows: Churches, Montagne, B. Rapids, Nunica and Otton; Ministers, Rev. J. N. Diamant, from the Presbytery of Osweg, Rev. James Walker, from the Presbytery of Marshall, and Rev. W. B. Sutherland, from the Presbytery of Boston (U. P.).

The Presbytery adopted by a unanimous vote the recommendation of the Assembly's Committee on Reunion, viz: to omit part of the First Article of the Basis and the whole of the Tenth.

Monroe Presbytery met at Panya, Mich. This Presbytery adopted the recommendation of our Committee to omit a portion of the First Article of the Basis, and the whole of the Tenth; and, if it will accomplish the object any better, is willing to say, "Standards pure and simple," as the Basis. Rev. J. Gordon Jones and E. R. Willard, elder of the Church in Adria, were appointed Commissioners to the next Assembly. After a pastorate of six years, pleasant and useful, Dr. Mattson was dismissed from the Church in Monroe.

The Presbytery of Minnesota met at Belle Plain, April 21.

Rev. I. O. Sloan was received from the 4th Presbytery of Philadelphia. Rev. Mr. Evans was dismissed to the Presbytery of Knox Ill., and Rev. Mr. Chapman to the Presbytery of Winona.

The committee on re-union reported in favor of re-union on the basis of the standards of the church, instructing the commissioners to the General Assembly to vote for my plan presented which does not conflict with the basis previously proposed by the General Assembly. Rev. F. W. Flint, of St. Paul, and Elder Hatch, of Minneapolis, as primary, and Rev. John Mattocks and Elder J. W. Ingersoll, of St. Paul, alternates, were elected commissioners to the General Assembly.

The Presbytery of Milwaukee, at the late meeting in Manitowoc, modified their action previously taken on Reunion, by adopting the amendment proposed recently by our Assembly's Committee on that subject, by assenting to the omission of a part of the first article, by them specified, and all of the tenth article of the Basis of Reunion adopted by the last General Assemblies. They appointed commissioners to the next General Assembly, Rev. John Mitin, of Jefferson, and Elder John Johnson, of Milwaukee, with Rev. Sextus E. Smith, of Babu, and Elder O. R. Bacon, of Manitowoc.

A mission was reported as recently established among the Germans in the city of Milwaukee, of much promise, under the charge of Rev. Wm. Eilers, who was received by letter from the Presbytery of Salem, Ind. A new church, under the name of Calvary Presbyterian church of Milwaukee, was received under care of Presbytery. This church is located in the west part of the city, and is an enterprise long called for. It commences existence with bright prospects, is composed mostly of colonies from the First Pres. and North churches numbering 70 efficient members. The churches under care of Presbytery report unusual religious interest. In the church of Jefferson, there is at present a cheering work of grace. One year since, this church held a very doubtful prospective existence. Rev. John Van de Luyster, late of the Holland Presbyterian church of this city, was, by a commission of Presbytery, installed pastor of the 1st church of Holland, with cheering prospects. Rev. Silas Hawley was dismissed to the Presbytery of Cincinnati. G. W. ELLIOTT, Stated Clerk.

Lexington Presbytery, Missouri, met at Easton. It now comprises fifteen ministers. The church at Chillicothe was received under its care from the other branch. Owing to a dead lock in which matters were involved, this was by mutual consent. One new church building has been erected and dedicated during the year, and several have been beautified and improved. There is a large and flourishing Mission Sabbath School among the colored people of St. Joseph, under the charge of our Church. We have three candidates for the ministry on our list. It was announced that a classical school would be opened the first Wednesday of September at Chillicothe, admitting both sexes.

Rev. Mr. Carson of Savannah, Mo., a graduate of Maryville College, East Tennessee, was appointed Commissioner to the next General Assembly. The Presbytery voted aye to the Plan of Union, but expressed its preference that the Assemblies should come together on the Standards pure and simple. The membership of our churches has increased over 40 per cent. on last year's report. The limits of the Presbytery embrace thirty-eight counties—the whole forming a most magnificent agricultural region, well adapted to the growth of all small grains, esculents and fruits. The tide of carpet-baggers keeps rolling in upon us bringing capital, intelligence and energy. Chillicothe has 5,000 inhabitants; eleven churches, including two among the colored people. Nearly 300 new buildings were put up last year, and about the same number will be erected this season.

SAMUEL SAWYER.

WATERS' New Scale PIANOS! With Iron Frame, Overstrung Bass and Agraffe Bridge. MELODEONS, PARLOR, CHURCH AND CABINET ORGANS.

The best manufactured. Warranted for 6 Years. 100 Pianos, Melodeons and Organs of six first-class makers, at low prices for Cash, or one quarter cash and the balance in Monthly Installments. Warerooms, No. 481 Broadway, N. Y.

HORACE WATERS.

TESTIMONIALS.

The Waters Pianos are known as among the very best.—New York Evangelist.

We can speak of the merits of the Waters Pianos from personal knowledge as being of the very best quality.—Christian Intelligencer.

The Waters Pianos are built of the best and most thoroughly seasoned material.—Advocate and Journal.

Waters' Pianos and Melodeons challenge comparison with the finest made anywhere in the country.—Home Journal.

Our friends will find at Mr. Waters' store the very best assortment of Organs and Pianos to be found in the United States.—Grand Magazine.

MUSICAL DONORS.—Since Mr. Horace Waters gave up publishing sheet music he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook a modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and the "non" connected therewith were ever thought of; indeed, we have one of Mr. Waters' pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as several celebrated pianists, have performed on the said piano, and all pronounced it a superior and first-class instrument. Stronger indorsement we could not give.—Home Journal.

JOHN SMITH, LOOKING-GLASS AND PICTURE-FRAME MANUFACTURER.

Bible and Print Publisher, and

WHOLESALE DEALER IN AMERICAN AND FRENCH CLOCKS AND REGULATORS OF EVERY DESCRIPTION.

Also, General Agent for the sale of the "Eureka" patent Condensing Coffee and Tea Pots—something that every family should have, and by which they can save fifty per cent. Trade supplied at liberal discount.
