

News of the Week.

July 20-July 27.

The President is still at Long Branch. Departments.—A counterfeit ten dollar green-back has been received from New York, so cleverly done that the experts of the Treasury are divided as to its genuineness.

New England.—The French cable has been landed at Duxbury, and the connection was to be completed on Monday. The managers have filed a pledge to submit to any conditions imposed by Congress, and to give up their exclusive privilege as regards France.

New York.—Frank W. Ballard, a leading man in the Y. M. C. A., while absent at the International Convention was detected in being a defaulter to the Security Insurance Company for \$63,000, of which he was Secretary. Stock gambling caused his ruin.

Pennsylvania.—Hon. Wm. A. Galbraith, of Erie, becomes chairman of the State Democratic Committee, and will have the disbursement of \$2,000,000. The State Convention of School Superintendents has been in session at Harrisburg.

The South.—The Washington printers postpone the Douglas case till New Year's. Walker's majority in Virginia is 18,202.

The Interior.—The Swedes of Minnesota claim the Secretaryship of the State, and the Republicans will probably nominate a Swede.

Germany.—A Prussian Association offers a prize worth \$420 in gold for the best essay, based on past experience, on the best methods of extending relief to persons wounded in naval engagements.

Austria.—In the Reichsrath the Committee on the Budget has reported against abolishing the embassies at Rome and in the minor European capitals.

Spain.—The Carlists are up in arms and in earnest. Don Carlos has entered Navarre. A battle has been fought at Ciudad Real, in which (it is claimed) the Carlists under Savariego were defeated with great loss.

Canada.—Father McMahon, the Fenian chaplain, has been released. Mr. Rose, the Finance Minister, has resigned. Only one fourth of the 20,000 emigrants who have landed in Canada in six months past, have stayed there.

Cuba.—The Government has mismanaged the finances and is seeking a new loan. De Rodas annuls the rule for Spanish vessels to search neutrals. Two

of our citizens and a Mexican have been released at the instance of the American Consul. Twelve hundred estates of the rebels have been confiscated. Admiral Hoff has received somewhat satisfactory explanations from the Spanish authorities in regard to the execution of American filibusters, but severely censured the Governor of Santiago for giving them no trial.

Hayti.—Pres. Salnave is still in the field, but the Northern rebellion is unsubdued. Paper money sells at \$700 for \$1 gold, and is depreciating. Mob violence is feared by merchants and residents at Port au Prince, and a U. S. steamer has been ordered thither.

South America.—Lopez has entrenched himself in the mountains with 6,000 men. Three Paraguayans have been arrested and shot, for trying to assassinate the Count d'Eu, the Brazilian commander in chief.

Great Britain.—The dead-lock on the Irish Church Bill is at last at an end. The Lords receded from their concurrent endorsement position, and other important amendments, but refused to restore the clause in the preamble forbidding the use of the surplus for religious purposes, or to restore the clauses specifying how the surplus is to be disposed of.

Mr. Gladstone, amid the cheers of the Commons, announced that the Ministry would accept the Bill as thus presented, since the substance of the Bill is unaltered. He ended with apologies for any warmth of feeling that had been displayed, and congratulations on the happy solution.

The opposition in the Corps have held a caucus since the prorogation, at which the ultras voted down M. Thiers' programme of moderate reform as too monarchical. No plan of action could be agreed upon, a fact over which Le Moniteur crows.

Bavaria is negotiating with the U. S. to legalize marriages contracted by her citizens resident among us. Scandinavia.—The failure of the crops in Norway and Sweden is sending many emigrants to America.

Austria.—In the Reichsrath the Committee on the Budget has reported against abolishing the embassies at Rome and in the minor European capitals.

Spain.—The Carlists are up in arms and in earnest. Don Carlos has entered Navarre. A battle has been fought at Ciudad Real, in which (it is claimed) the Carlists under Savariego were defeated with great loss.

Canada.—Father McMahon, the Fenian chaplain, has been released. Mr. Rose, the Finance Minister, has resigned. Only one fourth of the 20,000 emigrants who have landed in Canada in six months past, have stayed there.

In the letters addressed to the Paris Academy of Sciences, Father Secchi, of Rome, announced a very curious discovery regarding the spectrum analysis of stellar light. Some time ago he mentioned a certain class of stars emitting red rays, and he now finds that their spectra consist of three luminous bands, one of which is red, another green, and the third blue, separated from each other by broad black bands, the intensity of which decreases from the red of the spectrum to the blue.

A CARD. A record of the watches produced at the Waltham Manufacturing may be not improperly prefaced with a brief mention of the considerations which induce us to press them upon the attention of intelligent watch buyers.

Fifteen years' successful experience justifies us in claiming for the Waltham Watches peculiarities of excellence which place them above all foreign rivals. The system which governs their construction is their most obvious source of merit.

The application of machinery to watch-making has, in fact, wrought a revolution in the main features of the business. In connection with enlarged power of production, it has enabled us to secure the smoothness and certainty of movement which proceed from the perfect adaptation of every piece to its place. Instead of a feeble, sluggish, variable action, the balance, even under the pressure of the lightest main-spring, vibrates with a wide and free motion.

But we assert for the Waltham Watches more than a general superiority. Their advantage, in respect of quality and price, over English and Swiss watches, are not more marked than are their advantages over the products of other American manufacturers.

The conditions which makes this cheapness possible are also favorable to the excellence of our work. Our artisans long ago ceased to be novices. Time and effort under a superintendence which combines the subtleties of science with the strength of practical skill, have produced a body of artizans whose efficiency is for the time pre-eminant.

These constant efforts to perfect in all ways, and by all means, both the machinery of the factory and the construction of our watches, have placed within our means the production of a greater variety in grade and finish than other American makers have attempted.

In addition to a description of the watches, the pamphlet contains much other useful information to watch-buyers.

AS THESE WATCHES ARE FOR SALE BY ALL RESPECTABLE JEWELLERS, THE COMPANY DECLINE ALL ORDERS FOR SINGLE WATCHES.
