TESTIMONIALS. The Waters Pianos are known as among the very best. [New York Evangelist.] We can speak of the merits of the Waters Pianos from personal knowledge as being of the very best quality. [Christian Intelligencer.]

The Waters Pianos are built of the best and most thoroughly seasoned material. [Advocate and Journal.] Waters' Pianos and Melodeons challenge comparison with the finest made anywhere in the country. [Home Journal.]

Our friends will find at Mr. Waters' store the very best assortment of Organs and Pianos to be found in the United States. [Graham's Magazine.]

MUSICAL DONORS.—Since Mr. Horace Waters gave up publishing sheet music he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook a modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and the "honorary" connected therewith were ever thought of; indeed, we have one of Mr. Waters' piano-fortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as several celebrated pianists, have performed on the said piano, and all pronounced it a superior and first-class instrument. Stronger endorsement we could not give. [Home Journal.]
