THE AMERICAN PRESBYTERIAN, THURSDAY, OCTO BER 14, 1869.

a dark day for our Board when the storm tended, with great blessing, leaves the of war broke upon us. But they were field November 1st. On Wednesday encouraged by contributions from all evening there was a sermon from Dr. quarters. One poor woman brought a Richard Allen. The meeting received gold dollar, the first she ever owned Another sent seven dollars and fifty stance that it gave the members a de ce ts, "found in the coat pocket of my dead soldier boy."

REAL TRACK AND THE PROPERTY AND A DESCRIPTION OF

And yet, on an average, in all the church, we give only about one half of a cent a year [a week ?] for this blessed cause of Missions. Thousands never give even that. from January to January.

Hon. A. C. Barstow, of Rhode Island, urged that we not only give to this cause, hot give early, and not make the Prudential Committee walk so much by faith. It is desirable to get a large portion of the collections in earlier in the year, and not wait so generally till just as the financial year is closing

Farewell addresses were also made by Mr. Kendall, Missionary from Madura, India, and from Rev. Henry Blodget, of Peking, China; after which the President made a closing address, thanking the people of Pittsburg, for himself and for the whole Board, for the generous hospitality extended on this occasion. He thanked all denominations for their participation in this kindness.

If alluded to the house in which the sessions of the Board were held. If it had been built on purpose for these meetings, it could not have been more perfeelly arranged for such an occasion. And as the church was perfectly adapted to such purposes, so the pastor seemed to be perfectly adapted to the church. Personally, and for the entire Board, he would tender again, as they had in the resolution already passed, his heartfelt thanks for the most ample and delightful provision made for our welfare. He wished the committee of arrangements especially to understand that their labors were fully appreciated.

Rev. Mr Noble, the pastor, responded. Two emotions struggled for utterance, one of gladness, and one of sadness ; gladness that you came; sadness that you must go. He felt that he could now appreciate, as never before, the blessings of the Apostles on the Mount of Transfiguration.

They wanted to build three tabernacles -one of Jesus, one for Moses and one for Elias. We should like to build tabenracles, keep our friends with us, and stay in these heights always. But it was not possible to sit down in these delights. We can tarry but a moment longer, for an affection-ate handshaking and a sad farewell, and then part to go to our toil.

We had a sacred purpose in asking this Board to meet here. It was not to show you our church; not merely to enjoy with you a few days of social life. It was that you might do us good, that we might get a higher consecration to the work given us to do for a lost world. We thank you for coming, It has done us good. You go away, but the influence of your coming will remain. It will do us good as long as we live. We are encouraged and strengthened by it to do more than ever before for our Divine Master. It is a part

of the dedication of our church. We had another meeting in this church a few months ago, with house packed, and able and earnest speakers to address us. That was for the Freedmen, for the lowly of our own land. Now, you come and teach us that our sympathies should go out to all the children of men. Soon we are to nother meeting whi we trust wi

we had passed in our own land. It was Supply, and whose ministry has ben atadditional interest from the circumlightful trip to one of the most romantic resorts in the State, and also from the cordial greetings with which they were received. The Messrs. Broadhead, of the Kittanning House, were especially open handed in their hospitality. The Freedmen's cause was especially recommended to the churches, and Dr. Herrick Johnson was appointed as Presbyterial Committee so urge the claims of the cause.

A Favorable Notoriety.-The good reputation and extended use of "Brown's Bronchial Troches" for Coughs, Colds, and Throat Diseases has caused the Troches to be extensively imitated. Obtain only the GENUINE "Brown's Bronchial Troches," and do not be influenced by those who make more profit by selling worthless imitations.

"The Largest."

Oak Hall is always spoken of as the Largest Clothing House" in Philadelphia. In fact, there is not in the State. nor anywhere in the country, unless it be in New York City, a clothing establishment that can compare in size to Wanamaker & Brown's. But that is not the best of it. It were not much to be the largest only, but to be the largest and the best is a distinction of which our friends at Sixth and Market Streets, may well be proud.

Let Us Protect Ourselves The physical structure of the strongest human being is vulnerable everywhere. Our bodies are endowed by nature with a certain negative power, which protects them, to some extent, from unwholesome influences but this protection is imperfect, and cannot be safely relied on in unhealthy regions, or under circumstances of more than ordinary danger. Therefore, it is wisdom; it is prudence; it is common sense to prowide against such contingencies, by taking an ANTIDOTE IN ADVANCE; in other words, by fortifying the system with HOSTETTER'S STOMACH BITTERS-the most complete protective against all the epidemic and endemic maladies that has ever been administered in any country. As a remedy for Dyspepsia, there is no med icine that will compare with it. Whoever suffers the pange of indigestion, anywhere on the face of the earth where HOSTETTER'S STOMACH 'BITTERS' can be coured, does so voluntarily; for, as surely as truth exists, this invaluable TONIC and ALTERATIVE would restore his disordered stomach to a healthy condition To the nervous it is also especially r commended, and in cases of uonfirmed constipation it also affords, spee-

dy and permanent cure. In all cases of fever and ague the BITTERS is more potent than any amount of quinine, while the most dangerous cases of billous fever yield to its wonderful. properties. Those who have tried the medicine will ever use another, for any of the ailments which the HOSTETTER'S BITTERS professes to subdue. To those who have not made the experiment we cordially commend an early application to the BITTERS whenever they are stricken by di ease of the digestive rgans.

ground received special attention. Rev. E. J. Pirse, who has for several years been its earnest and faithful Stated to the daily wants of families.

Worse than a Bed of Thorns are the miso-ries of indigestion. To escape them, men have com-mitted suicide. Yet they are bauished summarily, and the vigor of the stomach permanently restored by the occasional use of TARRAN'S EFFERVISCENT SELTZER APERTERT. Its effect upon the digestive, secretive and excretive organs is most sultury. It renovates and regulates them, and is nor only salubrious but agree able and refreshing.
