Extra! Extra! Read all about it Pearce pelts pins for practically perfect play! Tom tossed to topple a titanic 242. This news bulletin comes to you through the courtesy of your friendly, independent, neighborhood bowling reporter, me. Tom Pearce topped Al Lebau's high score by 19 points to lead the league with a beautiful 242. Just think, only 58 points short of a perfect "300" game. That's a score that won't be beat for a while.

Attention Mrs. Holmstrum. Dot isn't doing so hot. She is disgracing the long line of Holmstrum bowlers and you had better give her a talking to. Dave "Hands-in-The-Pocket" Alexander is improving and will soon be giving Dorothy a bit of competition for low score.

You might know it, Gottlund's lying down on the job again. Trying to get a worm's eye view of the ball, I guess. Glancing over the scores here, I see another high game. Jim Mullard knocked out a 213 to take second place honors this week. "Short-But-Sweet" Thurbon is in the news again with an even 200.

Dody Fisher and Adele Gabin share the top rung in the female scoring ladder this week. Each has a neat 133 opposite her name. "One-Pin" Painter finally got it. She is second this week on a nice 119.

I hear talk of a banquet for the Behrend League at the close of the season. The person who suggested that is a man after my own heart. Food—ummm-m incidentally, thanks for the compliment, Harb.

This is a good week for marks, mis-semester marks to be exact, so as somebody said, "I deem it fitting and proper that we have the league scores in the column this week.

Eagles		
Schiemer	121	109 176
Chesley	82	106 126
Falcone	82	106 109
Linder	98	90 109
Liebau	162	153 168

Hawks		
Dunlap	73	81 65
Painter	99	119 101
Gottlund	151	113 129
McBeath	94	93 77
Thurbon	188	200 177

Penguins		
Norton	80	82 106
Delle Donne	110	107 112
Demp	128	106 152
Henzi	129	131 130

Marcus	94	98 82
Putnam	146	142 172

Center Students Get Plenty of Action at Wrestling Practice

Hold-d-d Tight!

Dave Johnson heaves George Hamilton for a practice spin as Behrend Coach Marvin Demp keeps a watchful eye on the action. Others in the background watching the proceedings in Lawrence Park High's gym include Grover Adams, Pete Yosten, and Blair Smith.

Intramural wrestling practice is still in full swing, and we do mean "swing," as sessions are being held every Saturday morning from nine thirty to eleven forty-five in the Lawrence Park High School gymnasium.

Coach Marvin Demp has been sending his charges through a regular training procedure, and participants receive instruction which will stand them in good stead for long periods of time in later years.

"We hope, also, to have an intramural tournament before long," stated Mr. Demp today. "It will be held in such a way that a champion can be crowned for each of the following weight classes if possible: 121 lbs., 128 lbs., 135 lbs., 145 lbs., 155 lbs., 165 lbs., 175 lbs., and heavy weight.

Close to 20 grapplers have been turning out steadily for their grunt and groan sessions, and lots of enthusiasm has been prevalent.

Campus Changing Face Rapidly

Recently we have been noticing many changes taking place on the surrounding campus. On questioning Mr. Demp about this he stated that the field you see when approaching the main entrance contains five acres which will make a good soft-ball field or possibly it might later be converted to a base-ball diamond.

Last week one could see Mr. Demp along with Mr. Bliley and Mr. Gallagher trying to cut down the high weeds. Also with the added help of Monday's gym class the field was cleared by burning away most of the high weeds which resulted in the Wesleyville Fire Department rushing to the scene expecting great action. Fortunately the class had the situation well in hand. Mr. Demp stated that he smelled like a "smoked fish" for

quite a few charley horses, and lame muscles as a result of the active tag football games they have been playing. George Hamilton has had the worst of it so far. He always manages to get the same eye bruised.

If you have any data for the column please turn it into the Cub office the Wednesday preceding the publication Tuesday.

Till the snow flies Gibb

SPORTS

At a Glance!

By Gibb Brownlie

According to Mr. Ferguson, we are to have a full sized ski and toboggan run. The run is to be located on the hill behind the swimming pool and will extend for 300 yards running north and south.

Mr. C. W. Stoddart Jr., extension Phys. Ed. head and Mr. Sherman P. Fogg, Phys. Ed. prof specializing in tennis and skiing, were up from State last week to lay the ground work for the proposed course. The course is to have a ski tow, either of a standard make, or of a tract driven nature.

Plans are in the offing to bring either all or part of the State skiing team to Behrend later in the winter for a ski clinic. State has an excellent Swiss born jumper on the team who will show us some of the finer points. So, until then get your gelandesprungs polished up and pray for snow.

The Phys. Ed. classes are getting more strenuous every day. There had a bang up basketball game last week in which Hook Shot Delle Donne starred. She was ably supported by, if I may use the term, Gutterball Ficker and Bomber Painter. Keep up the good work girls and if you stay in shape perhaps Mr. Demp's men will give you a game.

We seem to have budding Robin Hoodesses on campus "Friar Tuck" Painter has been instructing them on the smaller details of ye olde bow and arrow shooting. Little John Demp has his own method for aiming the arrow. He calls it the box system. Sounds very square to me.

There are a number of ping pong players frequenting the lounge these days. The question is whether Messers Thurbin and Demp are beatable on the doubles court.

Would there be sufficient interest to merit the starting of a round robin tournament? Both singles and doubles would be played.

Mr. Demp reports that his dribble and dart artists are to play in the "Y" industrial league. There are some promising players practicing every Wednesday night. When the league starts, support the boys by attending the games. They will be played at the Erie "Y" on Tenth and Peach St., one block west of State Street, the main drag.

The boys Phys. Ed. class has had

Leads the Ladies

Lee DelleDonne is caught in action as she demonstrates the form which has enabled her to compile the leading woman's average of 112 in the Behrend Center Bowling League. Her smashing 141 game, recently, helped the Penguins to maintain their first place position.

two days afterwards.

Also being put into shape rapidly is the proposed ski-run. Men from the main campus and men from this city have been out viewing the site and offering different suggestions and advice. Mr. Demp hopes that a system will be able to be worked out that would permit use of skis through the school or else be purchased through it. All these are tentative plans, but after all at this time last year this school was only a tentative plan.

There is talk that the basketball court might be changed so that the tennis court might be put back into use. The basketball court will probably be moved to a suitable place.

With the coming of Spring Mr. Demp hopes that he will be able to hold track down on the lower field. There will probably be jumping pits and places for running the dash and hurdles. The main thing that is holding action back now is the fact that the field has to be plowed and then probably scraped in preparation for refitting.

Well, this is the outlook as it stands now with all this planned to take place or be ready before next Spring. Let's give Mr. Demp our added support.

Top Behrend Kegler

Al Liebau makes news as he cracks the maples for the first two hundred game in the Behrend league on Berry's Central Alleys. Al, bowling for the steadily climbing Eagles, spilled the pins for a swell 223 pins to be exact. He also sports the top man's average of 162.
