

BOWLING ALLEY CATS

Shown looking over their scores during a bowling league session in Erie Hall are (l. to r.) Katy Cragrun, Maryanne Feduniak, Hal Newcomer and John Bernoski.

THE LAST WORD

The more we study, the more we know.

The more we know, the more we forget.

The more we forget, the less we know.

The less we know, the less we forget.

The less we forget, the more we know.

So why study?

Mr. Gordon rapped on his desk and shouted: "Gentlemen—order!"

The entire class yelled: "Beer!"

Math Professor: "Now, Mr. Lloyd, if I lay three eggs here and five eggs here, how many eggs will I have?"

John (with a questioning glance): "I don't believe you can do it, sir."

Hmmmm da da daa do da da, Alma Mater thee.

Hmmmm doo do classic halls, Hmmmm la la doo doo ivied walls,

Alma Mater thee. Hmmmm loo do loo loo,

Da la years.

Hmmmm da do do la

Hopes and fears,

Alma Mater theeeeee.

* * *

Fuzz: "Does that Professor like you?"

Stevens: "Oh, he must. At least every paper he hands back to me is covered with kiss marks."

* * *

"Give me a match, Doug."

"Here it is, Clay."

"Well, can you beat that? I've forgotten my cigarettes."

"That's too bad. Give me back my match."

Behrend Briefs

(Continued from Page 1)

the development of Christmas customs in the United States.

In closing, the office staff and administration wish to extend to all their best wishes for a peaceful and joyous holiday season.

★ Behrend Terra Firma ★

By Nobru

Dave Weekley and his wife, former Behrendite, Grace Rowland, have just become the parents of a 7 lb. 1 $\frac{3}{4}$ oz. baby boy, Michael David. Congratulations!

The inimitable Don Nogay plans to return to Behrend in mid-semester. Look out, Girls.

Chuck Kulbacki seems to be quite the hunter. Too bad he shoots the wrong kind of four-legged animal.

Jim Stevens, a friend of the Colonel, reports that he will be spending his Christmas vacation frying 1000 chickens for the Sterling Milk Company. He would be more than glad to offer his Steven's Simple Season Saute Sauce to anyone interested in the culinary arts.

Doug Campbell's black eye is almost gone, among other things. December 13 will be the anniversary of John Lloyd and Jeannie Chambers' first snow ball

fight.

Linda Bemis is now giving driving lessons. She seems to be the most experienced student in the art of smashing cars.

While studying for a recent English test, Mike Mulligan asked Skip Knestrick to spell commode. Skip replied, "P-o-t."

Brilliancy can be the only word to describe the composer of the sign on the broken vending machine in the lounge, "The boxes don't come down."

Studying for history tests doesn't seem too difficult for a few of the more gifted students. Guess what they're gifted with!

Who had the audacity to reveal such a true likeness of the Behrend girls on a recent "Bits of Behrend" poster?

Now they're asking for birth certificates!

Doc Smith says, "It's better to be alive with a cold in your head than to be dead and not!"

General Clublicity

Alpha Phi Omega

At the Alpha Phi Omega's "smoker" held in the Wesleyville Boro Hall, the fraternity club elected the following officers: Bill Dylewski, president; Jim Vetrone, vice-president; Dick Perkins, secretary; Dick Whiting, treasurer; Gary Sandusky, historian; Bill Perschler, publicity; Bob Nietupski, sergeant-at-arms; and Mr. Louis Balmer, Chairman of the Advisory Board.

The first service project planned by the Behrend branch of the fraternity, of which Henry Sproat is in charge, is the decoration of the Behrend Pine for the Christmas season.

After the meeting two films were shown concerning the war in the Pacific and the role of the Marine Corps Reserve in the community.

Red Cross

The Behrend Red Cross unit is planning to give a Christmas party for the thirty-seven children at Zem Zem Hospital as its first service project of this year. The party, which will be held on December 14, from 6:30 to 7:30 P. M. will consist of games and story-telling.

Science Club

The Science Club, under the leadership of Don Kelly, president, and Mr. Louis Balmer, advisor, is quite active. For the

meetings its members prepare lectures on topics of interest. Geology was the main topic for the fall, at which time the club took field trips to the gorge. Chemistry and the study of rockets, jets and their fuels are the main topics for the winter.

Student Council

Because the juke box caused too much trouble, the Student Council was forced to remove it from the lounge. Ski Day, when the boys worked on the ski tow, was thought to be a success. The Council also wants to set up an ice skating rink. The third joint meeting of the Behrend and Hamot Hospital Student Councils was held recently.

Yearbook

The Yearbook staff, headed by Katie Johnson, is selling subscriptions for the "Bits of Behrend," which costs \$4. The staff is going to present a variety show on December 10 during the common hour to raise interest for this project.

Letter to Editor

(Continued from Page 1)

sincerely, requests that students submit their views to either the Cub office or the Cub editors, Mary Lloyd and Jeanne Chambers. The questions of lecturing versus group discussion, and percentile versus curve systems of grading are also open for debate.
