Parking Lots Of Problems

Workers put the final touches on the new parking lot.

Mock Election

Picks Nixon

By PAT NARDUCCI

If the mock election held at Behrend Campus on October 11 is any indication of the country as a whole, Richard Milhous Nixon will succeed Dwight Eisenhower as the next president by capturing 61.2% of the ballots cast.

However, if Behrend again is to be used as a gauge of the temperament of the American voter we have cause for alarm. Only 41.6% of the campus population bothered voting at all. You may say, "So what." But when just 48% of eligible voters turned out for the Erie primaries it is indicative of the apathy of the so-called average American.

Nevertheless, the mock election was not without its humor. Those who found fault with both Mr. Kennedy and Mr. Nixon found some degree of comfort by voting for Nixol, Nixion, Kenady, Nixson, Kendy, Nixen, Kendey, Kenedy, Nixton, and Nickson.

Students backing either candidate will wait with the nation for November 8 to see whether or not this campus qualifies as an accurate cross-section of the American public.

Help make the
"PRESIDENTIAL
PRANCE"
a stomping success
November 5!

Ecstasy

His toes curled in the black soil. It was marvelous to feel the good, cool earth beneath his feet again. He bent down and tenderly crumbled a piece of sod between his fingers. A man was a fool to leave the land. He thought of the city with loathing. All it had brought him was unhappiness and sorrow, but that was over. He was back to his first love—the earth.

For a while he was motionless then in silent contemplation; a prayer of thanksgiving rose from his heart. Once more he was a part of nature and not just a shadow in the city. A voice called, "Dinner's ready." Slowly and reluctantly, he took his foot out of the flower pot.

The Sea Of Macadam Receives Its Tide Of Cars

By GENE NUTTER

The new parking lot opens next week and, as usual, students will be handed the proverbial set of provisions and regulations without which no facility could be properly maintained. The main provisions define eligibility as being any student who possesses, maintains or operates a motor vehicle, including motorcycles, motor bikes, motor scooters, and any other motor driven vehicle (they have you any way you look at it unless you plan to bicycle), on the Behrend Campus. If you fall into this category, you are obliged to register such vehicle with the Business Office in the Main Building where you will be issued either

a parking permit allowing the vehicle to be parked in a legal parking area Monday through Thursday and Sundays from 7 a.m. to 10:30 p.m. and on Friday and Saturday from 7 a.m. to 1 p.m. or a registration sticker to students who are not issued a permit but who drive on campus for dances and/or other activities.

A legal parking area is defined (the document is virtually a Thesaurus of definitions) as either the macadam lot to the north or the gravel lot to the south of Erie Hall and in arriving at these lots the speed of any given vehicle is limited to 15 m.p.h. (for those who can't read, there are signs).

Because of the delay while they built the parking lot, the fee for this semester will begin with the seventh week and will be at the rate of 50¢ a week for the remaining 11 weeks (for those who can't multiply, that would be...ah...approximately...\$5.50 or so).

LAST DAY TO REGISTER

Also, be it known that \$1 registration fee will be charged. (Oh, come on, now, there has to be a registration fee. Where do you think they get the paper?)

The last portion of the regulations is just chock full of little financial threats like failure to register a vehicle will cost a fine of \$25 per offense, failure to display permit or sticker will cost a fine of \$5 per offense, operation of unregistered vehicle on Campus after announced registration dates (you must sign your car up; after all, your car is going to college too,
