## Student Council

Meeting for the first time on Tuesday, October 11, the newly elected Behrend Campus Student Council chose Bob Johnson as its President for the 1960-61 term. Other officers elected by the eleven-member Council were Vice President—Mike Mulligan; Secretary—Barbara Shapokas, and Treasurer—Bill Sturdevant.

Of primary concern to the Council was the budget for the next two semesters. Dean Lane informed the members that \$4500 had been appropriated for Behrend this year. The greater part of this sum, it was decided, would be used to finance the athletic program, the Yearbook, and the Nittany Cub. The remainder would cover all other functions on Campus. The approved allotments for each activity is as follows:

At present the Council operates under an outdated constitution. At their second meeting on October 18, the members made plans for revising and drawing up a new constitution which will be posted with the old so that the student body may compare the two and choose, by election, the one more suited to the present. The second meeting also saw fit to appoint a Traffic Committee consisting of Bill Sturdevant, Art Coombes and Dick Merriman to liaison any student difficulties.

## Literary Club Underway

The Literary Club, under the direction of Dean Lane, held its first meeting Tuesday, October 18. Ed Mandel acted as temporary president and Grace Davies as secretary.

The club plans an interesting year. Its foremost project is to be a literary magazine including essays, poetry and short stories written by the club members. Last year, the club published a magazine called Icarus, which proved to be a commendable accomplish-

ment. Their program provides for meetings at the members' homes to read popular literary works and to discuss the value of various authors.

As the Cub went to press, officers had not yet been elected.

The members include Diane Janowski, Anita McCallister, Gene Nutter, Mary Lloyd, Sharon Haise, Nina Mazeako, Jay Krimmel, Fran Doohan, Charlotte Dickey, and Mike Mulligan.

## FOUR-TERM YEAR —

ing a two-day Easter vacation; and the Summer Term from June 14 to August 23, including a one-day recess on Independence Day.

The four-term year will not affect a faculty member's credit load when compared with the present two-semester arrangement; however, an additional ten weeks have been added. Many faculty members will teach only three terms; some will teach four, depending on the contract of the instructor.

Some of the advantages inherent in this new plan seem to be a provision for year-round operation of all University facilities, a chance for students who need to interrupt their studies to re-enter at more frequent intervals, an opportunity to make-up classes in shorter, less costly sessions, and an increased flexibility in scheduling which could enable a student to achieve a degree in three calendar years.

## THE LAST WORD

Ed: I was reading some good poetry today.

Fran: I prefer prose.

Ed: I'll take amateurs, but what's that got to do with poetry?
