## Wonderland By Night Is Friday

### Keystone Society Is Planned for Behrend

A chapter of the Keystone Society will be organized on Behrend Campus sometime in the immediate future. The Keystone Society is an organization of students interested and participating in student activities at the commonwealth campuses. The Society encourages academic pursuits and provides for the recognition of the student who is intelligent and finds time for some, or an, extracurricular activities, as the all-around student compared to the antisocial egg-head at these campuses.

Any under-graduate attending a commonwealth campus who has had one full term of study and has attained a 2.5 average or better and who has no published disciplinary record and who has been active in campus service through participation in at least one chartered student activity, shall be eligible for pledgeship to the local chapter. A member of the local chapter will be formally accepted into the chapter at an all-campus ceremony.

At the ceremony the pledgee will receive the Keystone certificate, insignia and the Keystone keys. Letters, sweaters and hats will also be made available to members of the society.

The Keystone Society is a "dream come true" for people in student affairs at the commonwealth campuses. The organization is a step in statewide recognition for members of the commonwealth campuses.

### Hamot News

On December 22, our annual Christmas Dance, "Snowflake Ball", was held at the Beachcomber Hotel. One of the special events was the crowning of the queen, Miss Judy Dodd, the senior class representative. There was a good attendance and everyone had a very enjoyable evening.

In the near future we are planning a joint bowling party for Hamot and Behrend Campus as well as a special Valentine's Record Hop to be held on February 9.

### DISCONTENTED? MOTIVATED?

Are you discontented over general or particular phases of Behrend Campus life? Are you motivated—concerned enough to try to do something about your discontent? You can. In the forthcoming Winter Term issue of *La Critique* magazine, the Penn State literary and critical journal, a special supplement will be devoted to discussing and enumerating some of the problems of the outlying campuses. An administration study of commonwealth campus problem areas has long been in the offing; and through this special supplement, *La Critique* would like to put the plight of the extension campuses before the student body and the administration as a whole in an attempt to hasten that "study." By submitting first hand data, complaints, observations, or any other type of information—all

### FOUR STUDENTS ATTAIN 4.00

The primary objective of every college student is to obtain the compulsory number of credits needed to graduate by passing the required courses. There are some students who through conscientious effort and hard work have achieved a high scholastic standing. They certainly deserve some recognition for this accomplishment; they receive it through the facilities of the Dean's List
