

SGA Needs Cooperation

It has recently come to the attention of the S.G.A., that certain students have been failing in their duty to return recreational equipment to the S.G.A. office

The council would like to remind the student body that such facilities are provided for the enjoyment and recreation of the students. They feel, therefore, that they should be treated as such. Any damage done by the students will result in a loss for the students. This equipment is their responsibility! The effort being made by the Student Government Association will be successful only if it receives the full cooperation of everyone involved.

ATTENTION MUSICIANS

Strains of "Colonel Bogey" drifted from Erie Hall last Thursday afternoon when a small representation of Behrend's musicians met for the first time to blend their talents. Because the four o'clock rehearsal interferes with classes, Miss Eleanor Weber, the conductress and adviser, has suggested an evening practice session to avoid conflicting with classes. If you are one of the "music masters" watch the bulletin board for the rehearsal schedule and come.

ALPHA PHI OMEGA SEEKS MEMBERS

A new club, the Alpha Phi Omega fraternity, is making its appearance on the Behrend Campus. Already authorized by the Student Government Association, this service fraternity is working on its first project, obtaining the twenty-five members needed to gain a charter from the national organization. Fraternity membership is open to everyone, the requirement being that all members must be former scouts.

Advising the club are Mr. Patterson, Mr. Balmer, and Mr. Baker. The idea of the organization is not new, for many attempts have been made to introduce this fraternity to Behrend Campus; because of our small enrollment, the required twenty-five members were not to be found. This year, however, temporary President, Bob Elmendorf, says, "We expect to have the charter of the Behrend Chapter by mid-January."

Preston Peightal Was Sports Editor

Joining the Behrend Campus faculty this fall as Associate Professor of History is Preston D. Peightal.

Mr. Peightal is a native of Philipsburg, Pa. He attended Syracuse University for two years in 1942-1943, after which he was in the military service for two years. From 1946 through 1948, he held a position with the Clearfield Progress, Clearfield, Pa., where he was the sports editor, a feature writer, and an office manager.

He received his Bachelor of Arts Degree in History and his Master of Arts from The Pennsylvania State University. From 1952 up to this last year Mr. Peightal taught history and political science at the Hazleton Campus. These last three years include a leave of absence in order to complete work on his Doctor's Degree at University Park Campus. He is, at present, still a candidate for this degree and is currently working on his dissertation.

Mr. Peightal is teaching two classes in history during the Fall term on Behrend Campus: History 20, which is American history through the Civil War, and History 18, which is early modern European history including the period from the Renaissance through the Battle of Waterloo.

R.A.W.

Keystone Society

The Keystone Society is an exclusive organization designed "to stimulate interest and participation in student activities at the commonwealth campus, to encourage academic pursuits, and to provide for recognition of the all-around student." The society is an intercampus organization found throughout the Penn State system. This interrelationship enables the Commonwealth students to receive recognition for their academic and extra-curricular activities after transferring to the main campus. To become a member of the Keystone Society one must be pledged by the standing members. Eligibility for pledging is determined by active participation in at least one chartered student activity, and an achievement of a 2.5 or better.

Our Juke - Box New vs. Ancient

As one walks into our Recreation Hall, he is greeted by many sounds. These reflections of the "studious" students include: the colliding of the billiard balls against the savagely-beaten cushions of our pool table; the slightly pornographic shouts during one of the many Heart games; ping-pong balls knocking against the tables; and finally, the "encouraging" sounds of the new juke-box.

Yes, the juke-box has come to Behrend. It is a reminder of what "new" recreational facilities can do for Erie Hall. Unanimously accepted by the student body, it is a popular stimulant for enjoyment. Constantly accepting dimes from you, it works overtime to supply music and to provide a new air to Erie Hall.

Set up by our SGA through the vote of the students, it shows promise as a good money-making project. As planned, every two weeks the records will be changed. This will only occur if the students will request new records. All that is required of the student

CIRCLE "K" NEEDS YOU

Circle "K" members are already hard at work on their new service project, establishing a blood bank at Saint Vincent's Hospital which will be accessible to the Behrend student body, faculty, administration, and all other persons on the Behrend payroll. The bank will be supplied through donations from those persons benefiting from its services.

Our SGA has given unanimous endorsement to the enterprise, and all students are urged to give

is that he place his name and request on a piece of paper and turn it in at the SGA office. The juke-box will be a success only if this happens.

Although a few students don't classify the noise of the juke-box as music, the SGA cannot please all. The majority must be pleased. The radio is always available.

Now that the juke-box is in its second two-week period, let's all get those requests in, and maybe through our combined efforts, the screaming of "Big Girls Don't Cry" will end and be replaced by digestible music.

this project their "whole-hearted" support.

Scholarship Offered For Summer Abroad

Grand Duchy of Luxembourg. September 14, 1962— The American Student Information Service, the only official, authorized organization placing American college students in summer jobs in Europe on a large scale, is celebrating its 6th anniversary by offering travel grants and cash scholarships from \$10 to \$175 to the first 1,000 students applying for summer jobs in Europe.

Summer jobs in Europe include factory work, resort-hotel work, farm work, construction work, office work, hospital work, child care and camp counseling positions. Jobs are available throughout Europe and wages range from \$175 a month for the highest paying positions in Germany to only room and board in Spain. The jobs are \$150 to \$799. Among other things, each applicant is provided with an album of language records of the country in which he will be work-

ing, a student pass allowing the bearer discounts throughout Europe, complete health and accident insurance coverage and a choice of tours ranging from 6 to 24 days.

Although ASIS offers complete arrangements with a round-trip scheduled jet flight, students are free to make their own travel arrangements. ASIS expects that many students participating in college charter flights will also want summer jobs in Europe.

For a complete 20 page prospectus and a European job application, contact either the Director of the Student Union, the Placement Officer, or write directly to ASIS, 22 Avenue de la Liberte, Luxembourg City, Grand Duchy of Luxembourg. Enclose 20 cents for airmail reply.

For further information contact Dean Lane.
