Editorials A POEM Cooking the Campus AGAIN?!

The Student Government Association began a new practice this Spring with the election of a president for the coming year. This marks the first year in Behrend's history that the election of an SGA president has been conducted spirit. People with Spirit. in the Spring Term rather than in the Fall Term.

At first, the idea seemed like an advantageous one. Students coming to the Behrend Campus would have the with fun and levity in their bosleadership of an experienced, qualified leader who had been chosen by people who were well acquainted with his capabi- People with spirit. lities. And the incoming president would have the entire Spring and Summer terms to prepare for his office in the fall.

Now, however, there is cause to wonder about this new practice, and especially about the recent elections for the People with spirit. People presidency. The biggest question raised is: "Who is Bob Cook?"

In the SGA elections two weeks ago, there were two zeal. People with fun candidates listed for the office of SGA President. Bob Cook and levity in their bosoms. was not one of them. Bob Cook, however, did receive three People with spirit. write-in votes. The other two candidates received 73 votes apiece. Because of the tie, naturally, a run-off election was necessary.

Bob Cook was not one of those who were tied for the P.S. Let's get some gung-ho-ism office. In fact, he was far from it. However, in the run-off election. Bob Cook obtained the unanimity of those voting, ED. The results of the run-off election indicate a lack of intelligent reasoning on the part of both the SGA, which conducted the election, and the student body, which elected Mr. Cook.

This is not to say that Mr. Cook is not qualified to fill the office to which he was elected. Indeed, he may be the of people entering the office with most qualified individual for that office in the history of the Behrend Campus.

However, the fact that he did not officially enter his than we can believe that Behrend name as a candidate for the position, and the fact that he students would misuse their stuhimself did not actually campaign for the position, nor employ anyone else to do so. indicates either a serious doubt on Mr. Cook's part as to his own capabilities, or else informed! From our view-point an uncertainty as to whether or not he really wants the position.

On the other hand, the wisdom of those students who elected Mr. Cook must also be seriously questioned. Certainly, not everyone who voted for Cook was well enough on the SGA Spring Term council, acquainted with him and with his capabilities to be certain and four people applied for the Cook was definitely the only candidate worthy of the position. Also, the submissiveness with which the student body allowed the Cook name to be entered on the ballot during the run-off election should be scrutinized. While it had been our hope that misuse of the lounge would eventually come to a halt, it appears that nothing of the sort is happening. Instead, abuses are continuing with disturbing regularity, with no sign of their eventual subsiding.

One wonders who the students are who commit these acts of vandalism. Could they be the same people who slash convertible tops and automobile tires, the same people who write the obscenities on restroom walls?

Through their acts of destruction in the student lounge, they place themselves in the same category.
