Shooting 81-percent from the foul line and 50-percent from the floor, the Cubs pulled out their first win of the season. Obviously playing their best game they defeated Bryant-Stratton of Buffalo, Saturday, January 18, 88-82.

The score is a little misleading because the Cubs had a 42-41 half-time lead and built it up 17 points in the final minutes by playing ball control. The Tigers had the opportunity to cut the lead.

Highest scorer was the Tigers Jim Martin with 36 points, highest individual score for Bryant-Stratton this season. However, it was also the first time Behrend had four players in the double figures: John Cardamone (14); Bill Sanko (20); Bob Cook (10); and high man for the Cubs, Lou Hoffman (27).

Fortunately for the team's morale they finally met a team of equal caliber, both physically and in a similar school situation. Bryant-Stratton is a two-year business school and like Behrend doesn't offer athletic scholarships.

Like all organizations on campus, the Cubs have some new faces. Joe Holmwood, a sophomore, who played varsity basketball at East, brings some much-needed past experience. Also, Vince Eppolito, a freshman, was a member of Strong Vincent's track team, and brings some speed to the team.

Coach Sweeting was rightly proud of such "a good team effort" and said it was an indication that the team "is beginning to jell." Also, the Coach pointed out the lack of enthusiastic supporters at even our home games. "If we were to pack 200 spectators in Erie Hall tonight to see the Altoona game, it would assure us of another win."

BOB COOK

UNCLE SAM AND YOUR MONEY

Students who had jobs during the summer vacation or part-time jobs should be reminded of the special provision in the tax law which allows a parent, under certain circumstances, to claim a son or daughter as a dependent even though the student has income of more than \$600 and files his own income tax return.

The student, if he is 19 or over, must be engaged in full-time study at a recognized educational institution for at least 5 months of the taxable year. Attendance at night school while holding a day-time job does not qualify; this is considered as part-time attendance.

Even if a student is listed as a dependent on his parent's return, he may claim his own exemption on his return. If income tax was withheld from the wages, a return should also be filed to have the tax refunded.

Answers to any questions regarding individual cases may be obtained by phoning or visiting any local Internal Revenue Service office.

Keeping Tune With Keystone

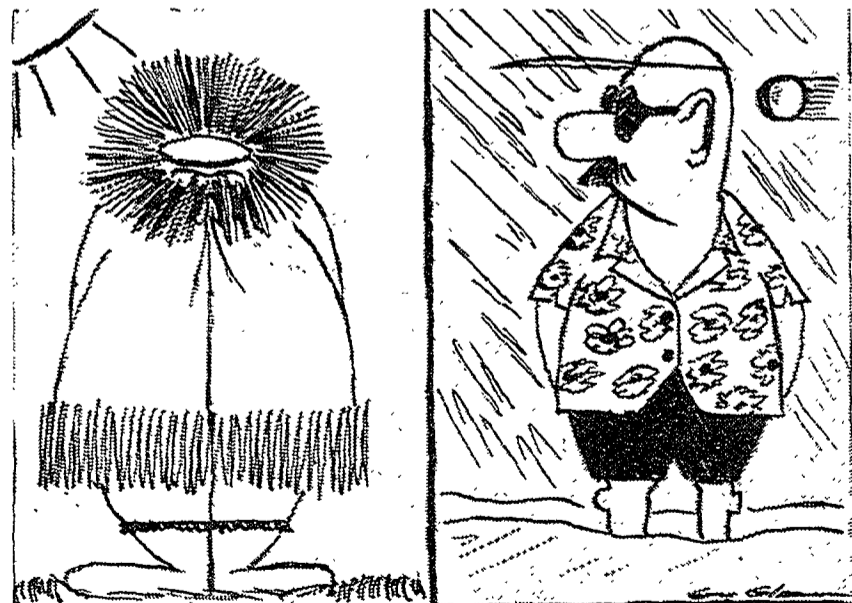

Raymond Elder, president of the Behrend Campus Keystone Society, attended the Keystone Society State Conference at the Pottsville Center on November 8 and 9. According to Ray members of this exclusively commonwealth campus organization decided to grant a charter for a society at University Park. This club would be called Arch Society and would be for alumni members who are now at University Park. Also, it was decided to hold the next conference at University Park in the Spring.

Here at Behrend the Keystone Society plans to assimilate new members this spring. The present membership is as follows: Raymond Elder, president; Paula Harris, secretary-treasurer; Joan Vogel; Glassner; Robert Loyell Cook; John Miller; Tom Garris; and David Goodwill.

A new vice-president will be elected at the next meeting, as Sam Heller, who held the post, transferred to University Park.

LIFE ON MARS?

Judy Benson, daughter of Mr. and Mrs. George H. Benson of Erie, who spent two years at Behrend and then graduated from Penn State last June with a major in Zoology, writes to Dr. Elizabeth Smith, that she is now working in Washington, D.C., as a research assistant for Resources Research, Inc. She is working on a project for developing an instrument to detect life on Mars. The instrument will look for microscopic animals or plants in the soil after radioactive carbon has been introduced by missile. She is now working on various soil types found on our earth.

Not even the natives know what's coming off in Erie, Pa.

Circle K on the Move

The Behrend Campus Circle K is a service organization for male students and is sponsored by the Erie Kiwanis. It's main purpose is to serve the campus and community but it does participate in international projects.

This years' officers are: Dave Manning, president; Dick Deutsh, vice-president; John Miller, secretary; Tom Heck, treasurer; and Greg Glassner, Lt. Governor, Division 1 of the Pennsylvania District of Circle K.

This year the Circle K is striving to set precedents in the various fields of activities. One proj-

ect, first for Behrend Campus, is the future publication of a faculty-student directory. This should be out around the first week of February, according to Dave Manning.

Also, there are plans for a clothing drive to benefit under-privileged people in the USA, and the club is in the process of obtaining a flag pole for the campus. These, plus other smaller projects, keep members busy throughout the year.

Dave Manning strongly urges any male students interested in applying for membership to contact him for an application form.
