BEHREND CAMPUS—The Pennsylvania State University

Thursday, January 20, 1965

## \$1,200,000 EXPANSION PLANNED FOR BEHREND

### 21 Make Dean's List; 33 on Honor Roll

The Pennsylvania State University requires a 2.00 average for graduation. However, some students, through hard work and conscientious effort achieve a much higher average. The Dean's List and Honor Roll are designed to give recognition to these students. Dean's List students attain an average of 3.50 to 4.00; Honor Roll students receive 3.00 to a 3.49 average.

### S.G.A. MEETS

Mr. Hostetler, the SGA's new Associate Advisor has attended the two meetings of the SGA this term.

The SGA is making plans to put out a Student Activities Handbook for the incoming freshmen this fall. Students are going to be needed to compile, write, and edit this handbook. Anyone interested in helping, please contact an SGA member.

A new bowling system has been instituted in Erie Hall. Now anyone wishing to bowl should tell an SGA member, who will unlock the bowling balls.

The SGA's profit from the Book Exchange was \$22.00. Anyone who hasn't taken their unsold books from the SGA office or received their money from the sale of their books, should do so as soon as possible.

The Orientation Week schedule for next fall's freshmen is being planned. Any new ideas or suggestions are welcomed.

The SGA is an organization to help fulfill the wants of the student. Without your suggestions, it cannot act in your best interests.

The SGA has held two meetings this term.

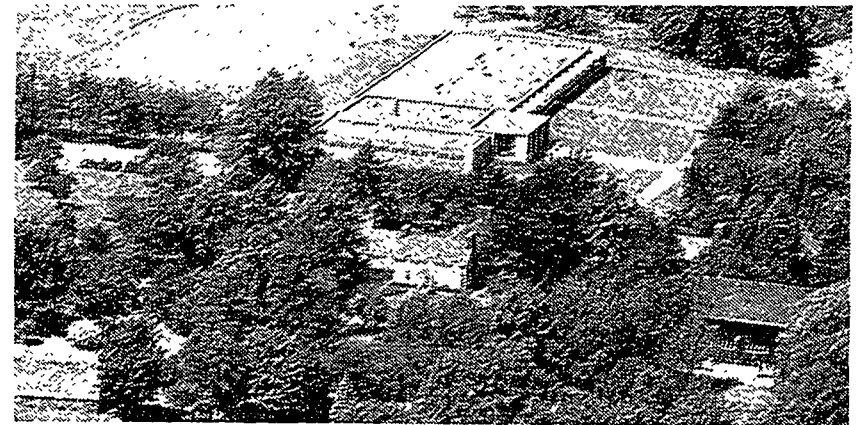

Thirty-three Behrend students attained Honor Roll status for the Fall Term. Twenty-one Behrend students were placed on the Dean's List, with special academic laurels going to Gail Holmstrom, who achieved a perfect 4.00. The Dean's List and Honor Roll are as follows:

Behrend Campus today (not showing Erie Hall)

Big things, exciting things, are happening! Here at the Behrend Campus we are part of an expanding, growing, community.

Some of us have heard that by next fall the Behrend Center will begin construction on two new dormitories. We have heard correctly, for by next fall work is expected to begin on the two dorms to house one hundred boys and one hundred girls.

In conjunction with the expansion plans, there will be a new lot for parking, and water piped out from Erie.

But all this is only a very small part of an extensive growth plan.

Up-to-the-news students may recall the passing in the eighty-third Congress of the Higher Education Facilities Act, 1963. Behrend Campus has petitioned for and been granted \$257,096.00 for academic building.

Within the next year construction should begin on a three-

building structure containing:

1. A student learning center containing a library (our library expects to increase its books to about 20,000), an eight-channel sound system for listening to records and tapes in private booths.

2. A new dining hall which will also be suited for study use.

3. A student union with an auditorium, lounge, rooms for clubs to meet and keep files, and an office for the Nittany Cub.

As soon as the Federal Government assents to the plans submitted, bids will be taken from architects to design the buildings, and construction will start. The entire unit is expected to be completed in 1967.

If you are among the many who have wondered why they don't pave that muddy old parking lot that you have to slop through all winter, it may please you to learn that there is a reason for its not being paved. Part of the lot will soon be covered by the new academic unit. The dormitories will be on the hill behind the lot, overlooking the campus. And that muddy lot will be replaced with a new paved one that will doubtlessly be very much larger, for the administration knows about our parking problems. The future looks bright, indeed, for our campus; in the next few years a total of \$1,200,000 is going to be spent for expansion.
