

LITTERING HIT

Phrases like "You're paying to go to school here; make the best of it," crop up so often that they have come to be trite. Another one goes something like, "If you want to be proud of your school, help keep it clean." Well, overuse does not render these statements false; especially when they apply to the situation at hand.

We are only one week into the term, and the situation in Culbertson Lounge is already deplorable. Candy wrappers and paper cups are strewn all over; cigarette butts cover the floors. The lounge is cleaned every day only to be littered again the next.

Solutions to this problem have been offered in the past, and some of them have been effective. But it seems ridiculous to have to levy fines for littering or to have to close Erie Hall to everyone because of a few inconsiderate people.

The best solution is still to have each individual do his own part. Please do so.

POLICY

The NITTANY CUB editors welcome letters on vital topics from all readers. These letters may be turned in to the editors, left in the CUB office or in the manila folder on the main desk of the Otto F. Behrend Science Building.

The author of the letter must sign his name, but if he requests

not to have his name printed we will comply.

We reserve the right to print only those letters which we deem appropriate and to print only excerpts of others.

NOTE

Through this issue you will find pictures of some people you have probably seen around campus. These are people you should know, and who would like to get to know you. They are officers of the major student organizations on campus.
