

B. C. GRADUATE CENTER NOW IN SESSION

Dr. Spaulding, Asst. Dean of Graduate School

Behrend will fill a unique community need with the opening of its new graduate school this term. Urged by local industry, university officials decided to begin the graduate program, which will give a degree in Master of Engineering with a major in Engineering Science. Behrend is the first local college to offer graduate study in this area.

Teachers, for the most part, are men from the business world who have practical experience in their areas of instruction. New staff members are:

- Mr. Anthony Salvia
- Mr. David Hyde
- Mr. Matthew J. Smith
- Dr. P. Chowdhuri

Seventy-six applications were received for this term, and Dr. David Spaulding, director of the graduate center, said that future enrollment will reach 200-300. He also stated that a Master of Administration degree will eventually be offered. Since the programs of our local colleges are set up in complementary directions, it is unlikely that M.S. or M.A. degrees will be offered.

Classes are held during the evening, regulations permitting a fully-employed person to carry only one three credit course per term. The minimum requirement of 30 credits must be completed in six years. Students must also obtain at least a "B" grade in each course and do an engineering report. These requirements are added for two reasons. Primarily, they serve as insurance against the possibility of student skills becoming obsolete by graduation. In such an ever-expanding field this is entirely possible. They also ascertain that there is sufficient motivation on the part of the student and that he will not be overburdened academically.

In organization and administrative policy, Behrend's graduate school will be similar to King of Prussia center. King of Prussia graduate school is the first one to be set up at a branch campus. Located outside of Philadelphia, it has been in operation for six years now and has been proven to be an invaluable aid to community education. Hopefully, our graduate center will make a similar contribution to education in Erie.

156 MAKE HONORS 41 ON DEAN'S LIST

Almost 20% of the student body at Behrend Campus received special mention for academic achievement during the Fall Term. Forty-one students made the Dean's List with averages of 3.5 or above. Another 115 having a 3.0 to 3.49 average were placed on the Honor Roll.

Four Behrendites ended the term with perfect 4.0 averages. They were Dale Amidon, Pre-L; Patricia Lada, Com Sc; John Fotosnak, CE and, Micheal Reed, BA.

The CUB would like to extend its Congratulations to All those who made Honors.

Wonderland

"Nothing's quite as pretty as..." Behrend in the winter. Autumn's vibrant colors have faded and November's stark outlines are softened by a mound of whipped cream. The older buildings are reminiscent of old Currier and Ives prints and the ski slope is awakening from a long green sleep.

Even the busiest moments fail to shatter the calm serenity around us. Yet there is also a sense of excitement and adventure in the snowballs whizzing through the air, the slick ice paving the way to the G.S. or the challenge of missing the yellow road markers. Winter Term is just a little bit different from the rest, so Welcome Back To Beautiful Behrend.

These men are considered responsible enough to carry out the grave duties of these positions. They should be considered responsible enough to vote. We receive many letters (continued page 3)

let us vote

Make It Eighteen is a nonpartisan, nonprofit organization dedicated to lowering the voting age to eighteen. It includes high school and college students and adults who believe that these youngsters should have the right to vote.

The basic premise of a democracy asserts that all those who help to bear the burdens of society should share in making its decisions. Americans between the ages of 18 and 21 certainly help share the burdens of our society.

Many of these young people have full employment and a surprising number of students hold part time jobs. They pay federal state and local taxes. They contribute to many community projects. The vast majority of men in the Armed Forces are not old enough to vote. Many thousands of these young men are serving in Vietnam as non-commissioned and commissioned officers.

coming up!

Once again the Cub is presenting its annual challenge to the Faculty to participate in the Faculty/Cub Basketball Game on January 18.

One of the highlights of Winter Term, it gives everyone a chance to take out their frustrations on the Cub and/or Faculty. Students, see your favorite teacher "out of bounds." Faculty, see the students who never show up for class. Cheer the Cub to victory--or defeat.

Be a sport and come to the most-illegal game of the season.
