

CRAZY CHERYL'S CAMPUS . . .

Cheryl

It is general opinion that Las Vegas Night was a real panic. I bet there's a couple people that are super happy. I am talking about those friendly light-fingered people, who went home with a couple of extra wallets. Very clever but kind of a rotten trick. Anyway, the people who lost their wallets would like their cards and other personals back. Why don't you be half honest (?) and mail them to the owners?

Monday night proved to be a very eventful night. It's been reported that there were many parties celebrating the no hours for girls. Another interesting note, the alcohol count was up and our two rent-a-cops were out in full force.

The fast for peace got a small response from Behrend's students. I'm all for it however, I didn't fast. If I lose anymore weight maybe we could pull a eat for peace movement.

Has anyone noticed the amount of State Cops around the Campus lately? Maybe they're on to something.

Another rumor: Is it true that Behrend Campus may soon have a chapter of the Hell's Angels? Who, What, When, Where?

"Chr*st You Know It Ain't Easy"

by Gary Thornbloom

Crosby, Stills, Nash, Young, Taylor and Reeves continue to be one of the tightest acts touring now. Looking back to a few months ago when I saw them in Cleveland and comparing them to other groups I've seen I feel safe in saying that they're one of the best.

The variety of material the group does is fantastic. Crosby, Stills, Nash and Young each take a turn at accompanying themselves on guitar or piano to songs they have written.

At times another member of the group will lend a voice for harmony. So goes the acoustic part of their act. The electric part adds the bottom to the group in bassist Greg Reeves and percussionist Dallas Taylor.

Greg Reeves plays a very fine bass and has a style distinctly his own. He moves, but he provides a solid enough background for the guitarists to work above. Dallas Taylor is as fine a drummer as any and while he doesn't bore us with elaborate drum solos, which seem to be the thing today, he does get the job done and he does it well.

The bottom is only the beginning of the depth of this group. Crosby, Stills, Nash and Young had all made names for themselves before this group came into existence. David Crosby was guitarist and composer for the Byrds. He has written for other groups as well.

Stephen Stills used to play in one of the finest groups which has ever been together, the Buffalo Springfield, and along with being an excellent composer he plays a wide variety of instruments.

Stills was the guitarist, for the beginning of the impromptu jam recordings, on Super Session. Graham Nash came from the Hollies where he was a part of their beautiful vocal harmonies as well as being guitarist and composer.

Neil Young is another ex-Springfield member, whose influence was always present in the material the Buffalo Springfield did. Neil Young also tours and

records with his own group, Crazy Horse. With Crazy Horse he's cut two albums entitled Neil Young and Everybody Knows

Gary

This Is Nowhere. Both are sounds typically excellent of Neil Young and if you haven't heard them, you should.

All of the above came from groups that were strong in vocal harmonies and this is the biggest reason for the success of their latest effort.

Their first album was dominated by Stephen Stills. He wrote the majority of the material for the album and his instrumentation is overdubbed on many of the tracks.

Deja Vu their second album tops their first. Neil Young, who has always been a favorite of mine, influences the overall sound of Deja Vu quite a bit. The second album uses more electric in-

struments than the first and it is in general a more driving album.

The material is written equally by all the artists. In keeping with the tradition of recent releases this album has as its guests Jerry Garcia and John Sebastian. The balance of instruments throughout all of the tracks provides for clear vocals and pleasant listening. The vocal harmonizing is flawless all through the album.

Stephen Stills demonstrates his ability as a soloist in his own composition 4 plus 20. Neil Young is especially prominent in his Country Girl.

Teach Your Children features Jerry Garcia's steel guitar and is a definite boost to an already beautiful song. We would all be wise in listening to the lyrics in light of the lack of understanding between the young and their parents.

Almost Cut My Hair is a nice thing on the "hair crisis." (oh wow) David Crosby wrote it and probably sings it. Neil Young provides nice lead riffs through the song which is typical of the guitar over guitar rides which the group does so well live.

The group's harmony comes through strongly in the title song Deja Vu, Our House, and Everybody I Love You. Carry On possibly features the group at its best as they shout out sounding like voices from heaven with their message of "Carry On . . . Love Is Coming . . . Love Is Coming To Us All."

Construction Of New Buildings Authorized

By Chuck Varesko
CUB Staff Writer

Behrend's new dormitory and food service building are now officially on the way. On April 13th the Board of Trustees at University Park authorized their construction and bids will be open within the next two months.

The approved construction cost for the dorm was 1.4 million dollars and \$865,200 was allotted for the food service building. When completed, the food service building will serve the 600 residence hall students, leaving the present R.U.B. cafeteria for commuter use.

The new laboratory, classroom building is progressing and is expected to be completed by the end

of July. At present the building is being roofed and soon windows will be installed. The 280 days of the construction time have elapsed with the building 65% complete, and bids have been opened or the application of 80 spaces to the parking lot north of the building.

Behrend baseball fans will be interested to know that this summer Behrend will have a baseball field, which will be located where the old orchard is, near the drive. The baseball field contract was awarded to the Garden Center and preliminary work will start as soon as the weather clears up. The diamond will be seeded on the 10th of June and by September it will be ready for use.

Forensic Union Loses Debate, Returns May 4

Forensic Union debaters traveled to Edinboro State College Tuesday to contest the proposition, "Resolved, that the United States should adopt a policy of mandatory social or military service for all young adults."

The hour-long debate was videotaped for showing on WQLN-TV this Tuesday at 8 p.m. The Edinboro team won the excellent, closely contested match against Roger Nuber and John Musala on the basis of greater verbal fluency and more experience.

Accompanying the debaters to the Edinboro TV studios were Coach John Spielmann, and philosophy instructor Phillip Iobst, one of the three judges. In addition, eight Behrend students served as the studio audience and asked questions of the debaters. They include Marsha Hamm, Len Coover, Anne Murray, Kathy Peterson, Terese Sensor, Lynn Schultz, and Carol Mannarelli.

The Edinboro team based its case upon the inequities of the present lottery draft system, suggesting that it would be better to conscript everybody rather than let men and all women escape by virtue of "luck."

Behrend countered by suggesting that other methods of securing a military force exist, such as a volunteer army. They argued also that a large military would be dangerous, and that the very idea of a draft was contrary to the American heritage.

Sitting in judgement of are arguments, in addition to Iobst, were Drs. Ronald Coleman of the Edinboro Speech Department, and John Rouch of the Gannon College English Department.

The Behrend debaters will return May 4th to debate the same proposition before a live audience of 500 Speech 200 students. The Forensic Union encourages Behrendites to watch channel 54 next Tuesday evening, and if they enjoy the debate to indicate their satisfaction by post card to the TV station.

4-Year . . .

(Continued from Page 1)

at sunny Behrend. It won't be so bad, after all the campus is expanding by leaps and bounds. If you're interested in the four year program look up Mr. Claridge in the Administration Building.

Student Union Board Applications Available

OFFICES

President
Vice-President

QUALIFICATIONS

- 1.) One term Board experience or
- 2.) The recommendation of two Board members including the chairman of his committee and one term committee experience.

7 CHAIRMANSHIPS:

Special Events
