Return Gear To Erie Hall

By Dom Lamberti
Sports Editor

Many times students have gone down to Erie Hall to use sports equipment and have found that there were no basketballs or other equipment there. In their place there are a number of matric cards.

Students who have in their possession sports equipment which they have been holding for weeks should help out the others by returning this equipment as soon as they are finished with it. After all, this equipment belongs to every Behrend student and one does not have the right to deny the others the use of this gear by holding on to it even when they are through with it. Why don't you do yourselves a favor and get your matric cards back?
