

# TLC: Out The Window

by Patsy Wheatly  
CUB Staffwriter

Once upon a time (February 1959, to be exact) the nation's elementary schools were crowded with a wave of post-war babies. February, a slow month for the business world, was a busy time for grade schoolers. This month provided all kinds of ideas for construction paper craft. Chief among these groundhogs, men with beards and black top hats, cherry trees, and red hearts.

Hearts are probably the easiest craft to make and red construction paper is probably the easiest material to requisition. That's possibly why so much time was set aside for the making of grammar school valentine boxes. Much TLC (tender loving care) went into the giving of hearts and

cutting of paper lace doilies. Each student waited anxiously for that special day when his friends would express their simple love by putting a carefully addressed card in that box. A feeling of excitement pierced his heart when he considered the possibility that the little red-headed girl would remember him.

The valentines usually didn't cost 50 cents plus tax, but they stood for thoughtfulness and diligent labor. There was no threat of commercialism.

Today (February, 1971, to be exact) the nation's colleges and universities are crowded with students who are products of the 1959 grade schools. February is no longer a special month to

them. Many of them find it difficult to impress others with non-material things such as child-like thoughtfulness and simple love at any time of the year. TLC is going out the window.

### STUDENT GROUPS.....

(Continued from Page 1)

Congress with so many delegates, these student organizations would be reclassified into 71 and 76 blocs, each controlling a single vote.

"I would like some feed-back from the campuses," Baker said. "They could write me here at the Vets' house or phone me. I would like to know what they are going to do," he said.

The success of Commonwealth

Campuses in achieving representation when the new body is formed, will depend heavily upon the response of the individual campuses, Baker said of the concept he introduced January 11. He said response from Ogontz, Altoona and Beaver Campuses has been "very favorable."

Final recognition of the organization rests with President Oswald, who Baker has reported at this point as being "very receptive" to the idea.

## ABORTION COUNSELING, INFORMATION AND REFERRAL SERVICES

Abortions up to 24 weeks of pregnancy are now legal in New York State. There are no residency restrictions at cooperating hospitals. Only the consent of the patient and the performing physician is required.

If you think you are pregnant, consult your doctor. Don't delay. If you choose to have an abortion, early abortions are simpler and safer.

Abortions should be performed by Board certified obstetricians and gynecologists, with Board certified anesthesiologists attending, in fully licensed and accredited general hospitals. You should not have to pay exorbitant charges for any of these services.

If you need information or professional assistance, including immediate registration into available hospitals, telephone The Abortion Information Agency, (212-873-6650), which has helped counsel and place more than 22,000 women for safe, legal hospital abortions.

The total costs at good facilities range as follows (in-patient hospital service, except as noted):

For D & C: Pregnancy up to 9 weeks, \$285-\$310 (out-patient hospital service); up to 12 weeks, \$385-\$410; up to 14 weeks, \$560. For Saline Inductions: 16-24 weeks, \$560-\$585.
