PARTY NEWS

At the last regular meeting of the party, the question was raised as to how newcomers might contact members and attend meetings. The Director of Propaganda was directed to post adequate signs and posters. Of course, the time and date of these secret meetings could not be revealed, but newcomers were to be informed that they were being held. If any interested students will just attend our next secret meeting, he will immediately be accepted in the capacity of a pledge.

The Director of the Executive instructed all members to carry their secret membership cards at all times. Although these cards can never be displayed in public, they are the means by which new members can identify each other.

The following message is in code: If you have any pride in your right to drink coca cola, by burns, boost anthracite.

There will be a special meeting of the supreme Dap, Doe, and Dal to discuss recognition of girls.
