

HAZLETON COLLEGIAN

March 4, 1955

COLLEGE ARTS NEWS

President Lil Junas reported that Marlene Haegele has consulted the program director of WAZL, and was informed that 13 minutes actual air time has been allotted to the society for the presentation of a skit. Lawrence Kowalski, who has been instructed to direct the writing of this skit, asked that all persons definitely interested in appearing in this skit either drop their names in the Collegian box or speak to Lil Junas, Shirley Ray, Lawrence Kowalski, or Mr. Wilcox before March 9. College students not in the College Arts Society are also invited to participate in the radio program.

TECH STUDENTS TOUR SUNBURY PLANT

On Tuesday, approximately thirty first and second year Elec. Tech. students took a trip to Sunbury to the P.P.& L. plant from the roof to the sub-basements. Mr. J. G. Charest and Mr. D. V. Foster accompanied the group.

While at the plant, the group heard lectures and explanations by the plant engineering staff. The plant superintendent talked to the group and illustrated his talk with charts and diagrams of the plant. The trip proved to be profitable for everyone.

BOOK STORE FLASHES

Drawing boards are now in stock. Four week warning grades are now available from advisors.

Official transcripts are in from the campus and can be obtained from your advisor next week.

CAN THEY DO IT ?

Since this year is Penn State's Centennial, the men on main campus are sporting beards of all shapes, sizes and colors. At the start of the semester a few interested Highacres males sprouted the idea of growing mustaches, which would have been judged on Tuesday, the 100 year anniversary. But -- the idea fell through. The year of 1955 is the centennial year and nine months still remain in it. Can our 'men' do it?

What can the girls do? On campus, they are going without make-up as their ancestors did 100 years ago.

We would like your comments on this matter. Please put them in the Collegian box.

...FROM THE MAIN OFFICE

All students who plan to transfer to the main campus for the Fall semester, 1955, should see Mr. Kostos before Thursday, March 10.
