SPRING CLEANING-CHANGES TAKING PLACE

To all you revolutionists and radicals who have been revolting for some parking space - your dream has come true. Early Saturday morning the Dipple Construction Company began removing the trees, rocks and hills from the wooded section directly north of the present parking lot. Yesterday the site had already been cleared and cars have started to 'break in' the new lot.

Work is being done on the Library and Chem Buildings where the old rain pipes are being replaced with new ones. M. J. Tomsho, sheeting and roofing contractor, is responsible for this renovation.

Improvements were also made in South Hall, where room 101 received a new coat of light green paint. The windows were also cleaned - and now give an invisible appearance.

"THE QUIET ONE" - APRIL 14th

A Walt Disney short entitled "Olympic Elk" will precede the main feature. These movies are paid for with your activity fees, so support your Center's activities and plan to attend. The public is invited.
