THE STRAIGHT SLATE

We are not going to make any specific promises, however, we will do our utmost to be a true representation of your feelings and desires.

We will accept from any member of the class, suggestions which have a reasonable amount of support and we will channel it to the Student Council for action.

Such suggestions will be given complete, wholehearted support by us - - - your representatives. After all this is our job.

We don't propose to be able to satisfy everyone, but we will do our best to keep the majority satisfied.

Our prime candidate is a veteran and will be able to understand and appreciate the feelings and views of the veteran. He is backed by capable personnel.

This is our platform. In it we have tried to set down our plans clearly and concisely. We have made no specific promises and pulled no punches. To provide you with a straight forward type of administration will be our only endeavor.

Vote the Straight Slate.
