P. J. C. B. C. To Meet

A meeting of the Pennsylvania Junior College Basketball Conference will be held at the State Capital in Harrisburg on October 22nd. Plans for the up-coming year will be inaugurated at this, the first formal meeting of the year. Mr. Peightal, director of Athletics here at Highacres, serves as a member of the executive board of the organization.

Student Council's decision - when it is made - to continue or to discontinue basketball will have a great effect on this meeting.

State 1-1 on Season

Penn State, after white-washing Boston University on September 24th 35-0, fell victim to a powerful Army team, led by All-American Don Holleder, by a 35-6 score.

Lenny Moore, State's great back, has been stymied the past two weeks and is more than overdue to break out and show his last-season's form against Virginia this Saturday. If he does, State should ruin the experts and forecasters predictions. State is regarded as a one-point favorite.

Dr. Bobby Brown, brilliant third baseman of the New York Yankees, got his medical degree and served his internship while still a member of the team. He was asked by umpire Red Jones what branch of medicine he intended to specialize in. Always a ballplayer at heart, Dr. Bobby immediately replied: "Vivisection of umpires."

State Soccer Team Hot

On Friday, September 30th., in a game played in a continuous rain, the Penn State Soccer team swept to its 11th. straight victory and its first of the 1955 season. The Lions, led by Dick Packer, who scored two goals defeated a strong West Point team, 3-1.

State's winning streak extends back to 1953, and to add a little flavor to its latest triumph, State defeated a team which had not lost a game on its home grounds since 1949.

Grading (continued)

Grades of -1 or -2 were failing. Subjects failed must be repeated if required for graduation.

The revised system, aside from the fact that it uses letters in place of numbers, is somewhat similar:

90 - 100	A
80 - 89	B
70 - 79	C
60 - 69	D
0 - 59	F (FAILURE)

Students should remember that no credit is given for potential ability; credit is given for work actually done. Failure to carry out regular assignments results in failure for the course; the student's grade is solely in the hands of the instructor.
