Does this sound familiar??

TRACE AMERICAN HISTORY FROM 1865 TO THE PRESENT, CITING MAJOR EVENTS AND HISTORIANS.

American history is a fine thing. It is I might almost say, a great thing. It is one of the finest things that could have happened to historic America. History in America has had a fine history since 1865. It has had, I might almost say, a great history since 1865. It is an even finer history than the history of American history before 1865. That is an interesting history too, but not as interesting as the history of American history after 1865. This is the good history.

The period in American history since 1865 has seen many fine American historians produced. I has, I might almost say, seen many great American historians produced. These great American historians were, in part at least, responsible for the fineness of A merican history since 1865.

Naturally I know a lot more about American history since 1865, but only have time to put down these salient facts.
